CITES EFFECT OF VOTING AGAINST QUOTA ON WHEAT

Chairman Anderson States Price of Grain Would Fall Rapidly

If farmers vote down a marketing quota for wheat on May 31, there will be no loan program and all restrictions governing the marketing of wheat will be withdrawn according to Carl R. Anderson, chairman of the Pennington county AAA committee.

"Many farmers have asked the committee how an unfavorable vote on the marketing quota would affect wheat prices," Mr. Anderson said. "They have also queried to what the government would do with wheat now under loan.

"There is no doubt in my mind but what wheat prices will fall rapidly should farmers turn down quotas. Present wheat prices are being maintained by the loan program as we have practically no export trade and our domestic consumption has not and will not increase to absorb the huge surplus.

"Furthermore, the government will immediately call in all wheat under loan and place it on the market. This is required by law because loans on an uncontrolled surplus are an unwarranted risk of public money," Mr. Anderson said.

Some idea as to the huge supply of wheat that will be piled up in the United States can be gained by checking the visible supply. It is expected some 1,200,000,000 bushels will be on hand for the 1941-42 marketing year, which is enough wheat to supply this country for two years if not another kernel was raised.

About 1,700,000 farms, or one-quarter of all farms in the country, now enjoy electric service. This is more than twice the number served in 1935.

TAXES are taking a larger part of your Telephone Dollar

Direct federal, state and local taxes of this Company and its associates, the Tri-State Telephone and Telegraph Company and the Dakota Central Telephone Company, were more than $5,035,000 in 1940—an average of $6.91 per telephone. Since 1935, taxes of these companies have increased over 63 per cent.

Taxes paid by this Company help to pay for improved roads, public schools, fire and police protection and other essential public services. But, as our taxes increase they take a larger and larger part of each dollar you pay for telephone service.

Minnesota Safe Place for Babies to be Born

Babies are advised to pick Minnesota as one of the safest birth places in the world by Minnesota doctors today. The latest figures, just issued provisionally by the state department of health, show that the death rate for mothers per 1,000 births was only 2.2 for 1940, a reduction of .5 since the state achieved the lowest record in the United States in 1939. The rate for infant deaths for 1940 is 33.5 per 1,000 live births a reduction of 1.5 from 1939. Authoritative figures are still lacking, according to the doctors, from other states; but it seems likely that Minnesota will come out ahead again in saving the lives of mothers in childbirth.

Buick SPECIAL 6-passenger Sedanet, $1006. White sidewall tires extra.

THERE'S a rule for your guidance you may not find in the copybooks — but that doesn't subtract one whit from its truth.

Because when you buy a new car this spring you want one that will see you through many a summer.

So while you're trading it's good sense to trade up — up to something solidly good through and through.

Trade up, for instance, to the FIREBALL power of Buick's more efficient valve-in-head straight-eight.

Trade up to the thrift of Compound Carburetion† — exclusively Buick's, and as much as 10% to 15% more economical of gasoline than last year.

Trade up to a splendiferous big Body by Fisher — to Buick's all-coil springing that is forever cushiony yet forever free from service attention — to stout, ride-steadying torque-tube drive with nothing about it to go wrong.

Buick's bodies are roomier, its frames huskier—its steering gears go three to four times as long without adjustment and its main bearings have half-again the service life in them.

Things like that really count these days — yet they're yours in a Buick for a trifle more at most than you'd spend in any event.

Go call on your Buick dealer now!

†Available at slight extra cost on some Buick SPECIAL models, standard on all other Series.

Pennington county this week was notified that it will receive a total of $60,000 in state funds for use on its state aid and county aid road systems, as a result of the 1941 apportionment by the state board of allotment, the first allotments to be made under new highway revenue and state aid measures enacted by the last legislature.

Regular and special allotments to Minnesota's 87 counties this year totalled approximately $7,200,000, exceeding by $100,000 the allotments of 1940. The total of regular allotments to Pennington county is divided this year into three classes:

$36,000 of gasoline tax revenues, to be used on the county aid or gas tax road system;

$12,000 of gasoline tax revenues allotted to state aid roads under the new 1941 law which provided for transfer of $1,200,000 of county gas tax money annually to the state aid road fund in replacement of revenues from the repealed Dunn 1-mill levy on real estate; and

$12,000 also allotted to state aid roads this year from 1-mill tax revenues which the allotment board estimated still will accrue from the 1940 tax, levied before the Dunn law was repealed.

The increase in gas tax monies was made possible by a combination of two factors: The restoration of the 4-cent gas tax rate by the last legislature, and the availability of an unexpected balance resulting from heavier gasoline consumption during 1940 than was anticipated when last year's allotments were made.

The allotment board, consisting of State Treasurer Julius Schmahl, State Auditor Stafford King and Highway Commissioner M. J. Hoffmann, took its action at a recessed meeting, which actually was a continuation of its session of March 26. At that time the Board set aside $3,882,105 of the state's 1941 trunk highway revenues, required to meet payments of principal and interest on county reimbursement and state highway bonds. It could not act on allocations of highway aid to counties, however, until after the adjournment of the legislature had provided a definite basis upon

Projected Improvement to Double Size of Present Quarters

Tentative plans for an addition that will double the size of Mercy hospital in this city were discussed Monday evening at a meeting of the board of trustees, with C. D. Gustafson, president, presiding.

Consummation of the project depends on the making of the necessary financial arrangements and the securing of acceptable bids. Under consideration is an addition 30 by 60 feet in dimensions of fireproof construction extending north and south at the west end of the present structure of approximately the same dimensions.

Additional facilities provided by the new addition would include about 14 new rooms for patients, together with new operating and delivery rooms on the second floor. An elevator also would be installed.

C. C. ASSOCIATION ACTS ON SEVERAL ITEMS THURSDAY

State Supervisor Talks on National Defense Training

At the Civic and Commerce association luncheon last Thursday, Supt. Morris Bye introduced Alton B. Hill, state supervisor of national defense training, who briefly discussed the present status of the project in Minnesota.

Mr. Bye, as president of the Red Lake River Development association, also announced a meeting of the Tri-State Waters commission in Fargo the following day, and his suggestion that the Civic and Commerce association be represented at the session was approved.

Brought up for discussion was a proposal that an effort be made to secure the 1942 convention of the League of Minnesota Municipalities for Thief River Falls. The matter was referred to the conventions committee, headed by W. I. Carlisle, with instructions to ascertain the views of local officials on the undertaking. This year's convention will be held at Winona in June.

The earth these days certainly is having its face changed, but the activity certainly isn't very uplifting.

man comprised a delegation that requested the council to give consideration to the necessity of adding a second unit to the city's fire-fighting equipment, pointing out that the present single unit does not give adequate protection to a city of this size. It was agreed that the matter would be further considered at a meeting of the council Friday evening.

Approved was a request of the fire department for an allowance of $200 to finance attendance by members at the regional fire school and at the district and state firemen's conventions.

ALLOTMENT BOARD GIVES COUNTY SHARE OF HIGHWAY FUNDS

(Continued from page 1)

which to estimate the amount of money which would become available.

The proportion of available gas tax money received this year by some counties will be slightly altered by the transfer of the $1,200,000 replacement fund from county aid to state aid roads. All gas tax funds formerly were allotted on a basis of not less than three-fourths of one percent nor more than three per cent to any one county. The $1,200,000 of gas tax money transferred to the state aid road and bridge fund, however, now must be apportioned among the counties on the same basis as the old 1-mill tax revenues—not less than one per cent nor more than three per cent to any one county. This results in some slight net gain for minimum counties and an equivalent decrease in maximum allotments.

OUR BEST DEFENSE

If our country were to serve notice on Britain and China, and other nations that are resisting the aggressors, that we had decided to stop giving them assistance, then the wars in Europe and Asia would come to a quick end. Organized resistance would stop and the world, all but that small part we call our country, would be ruled by a combination of dictators. The isolationists would then have their wish for we certainly would be isolated. Anyone who would venture a hope that under such circumstances our government could survive, should, by unanimous vote, be given an honorary membership in the Society of the Silly.

To argue that we should withhold aid to the allies because our own defenses are inadequate is even less reasonable. Such an argumnt admits the urgency of defense. Defense against whom? Defense against a combination of dictators that seeks to destroy us. There is no argument as to who the enemy is. Certainly we do not fear Britain. It is the soldiers of England and Norway and Holland and Belgium and France and Greece and Canada and Australia and China and several other countries who are now fighting desperately to check the advances of the enemy we fear. As long as they continue to fight we are in no immediate danger. It is when they stop fighting that our number will come up. To fail to give them all possible assistance as long as they are fighting our enemy would be to lessen our own chances of survival. Far better that we extend ourselves in the interest of those who stand betwen us and the enemy than to speed their defeat by failing to support them.

Dramatic escape of Rudolf Hess from the Nazi empire he helped to build was the big news of the past week. What could have prompted his desertion of the cause he has championed so many years? Several plausible reasons have been advanced. Most plausible answer is self preservation. He may have dissented with other master minds on questions of policy and, having disagreed, realized that he was about to be exterminated. Certainly his escape was the act of a desperate man and gives encouragement to the hope that Germany is not as wholeheartedly united behind Hitler as he would have the world believe. Rudolf Hess will continue to be interesting news for some time.

It would be easy to convince us that Rudolf Hess is mentally unbalanced. He would have to be nuts to get along with Hitler as well as he has these many years.

Reports made at the meeting of the Tri-State Waters Commission in Fargo Friday gave little hope for immediate action on the river projects we are interested in. Development projects of that kind will be postponed until the defense emergency has passed. That does not mean however that the organizations sponsoring these projects should discontinue their activity. When the military emergency ends there will be another *civil emergency. Unemployment will be a* serious problem again. To prepare for that emergency planning boards are now organizing projects that will be used at that time to provide jobs. Organizations interested in river development should remain active now in cooperation with the planning boards that are preparing the program that will be adopted when the war ends.

The sooner the government reduces the conscription age to eighteen the sooner we will have an army. The attempt to create an army by taking mature men out of civil life is doomed to failure and we not only are wasting our effort but we are creating, needlessly, a spirit of dissatisfaction among the people. The life of a soldier has no appeal for a man who has become accustomed to receiving a substantial pay check, and good food and pretty hostesses will not make him happy. These older fellows will make good soldiers if the situation becomes critical but until then too many of them will sulk at the thought of military training at $21 a month. The younger fellows are the men to train. It is less of a hardship for them. They have not formed expensive habits. Few of them have assumed responsibilities of importance. The romance of the thing has more appeal to them. They like it. And they make better soldiers. A soldier who doesn't want to soldier is about as useful in the army as a member of a football squad who doesn't want to play football.

W. P. Davies, in his excellent That Reminds Me column in the Grand Forks Herald, gives a cautious answer to a woman who had asked him if dogs had a right to ruin her garden. Crafty old sage that he is, he knew better than to say anything that might be offensive to dog lovers—or even to those who just like dogs. In India the cow is a sacred animal.

Far better to tax now to the painful point and to pay as we go than to keep on borrowing and be forced to go through a complete wash-out later on. Let the government be honest with the people and the majority of the people will cheerfully respond to the needs of the government.

It has been suggested that the America First committee should change its name to America Next.

Lilacs and Memorial Day generally come pretty close together in this country. This year the lilacs will bloom ahead of their usual schedule. In spite of a late season we seem to be having an early Spring.

WHEREAS, Pennington County has in the past been criticized by the State for its failure to have the abstract of the assessment of the County in the office of the State Commissioner of Taxation on time, and

WHEREAS, this delay has been caused to a large extent by the failure of the City of Thief River Falls to equalize and return its assessment roll to the County as required by law; said assessment rolls having been, during the past five years, returned to the County anywhere from three weeks to three months late, thereby necessitating an additional meeting of the County Board of Equalization to review the city assessment, and

WHEREAS, the County Board of Equalization has been handicapped in its work of equalizing the county's assessment by not having all records available at its meeting, and

WHEREAS, the delay has seriously handicapped the Auditor's office in computing the corrections necessitated by the changes made by the Board of Equalization in the preparation of the abstract of the assessment of the county as equalized for the State Commissioner of Taxation, and

WHEREAS, Section 2057 of Mason's Minnesota Statutes for 1927 requires all townships, cities and villages to file its assessment rolls as equalized by the boards of said cities, townships and villages, in the office of the County Auditor on or before the 1st Monday of July, and

WHEREAS, It is the desire of the County Board to hold the meeting of the County Board of Equalization on the third Monday of July as set by law.

NOW THEREFORE BE IT RESOLVED that the Board of County Commissioners of Pennington County respectfully request the cooperation of the City Council of the City of Thief River Falls in having the tax assessment for the City of Thief River Falls returned to the office of the County Auditor on time as provided by Statute.

POLAR GOLF LOOP ORGANIZED WITH K. OLSON AS HEAD

Crookston, Bemidji, Mahnomen and Thief River Falls Join

Kern Olson, Lloyd Bennes, and W. O. Claffy were in attendance at a meeting of northwest golfers at Crookston last Saturday night, when plans for a golf league were completed. The organization, which is to be called the Polar Golf League, will be composed of teams from Crookston, Bemidji, Mahnomen, and Thief River Falls, with the first league match scheduled to be played over Bemidji's Country Club course on June 1st.

Officers elected at the Crookston meeting were Kern Olson, Thief River Falls, president; Jesse Lerom, Mahnomen, and "Red" Johnson, Bemidji, vice presidents; and Ernotte Hiller, Crookston, secretary-treasurer.

Each team will be comprised of eight players, with the league matches being played in foursomes, eight in all; but with the team standings being decided on a total point basis.

It was agreed that the host club for each league match would extend an "open house" invitation to visiting golf club members, golfers that did not participate in the league matches, so that an incentive would be established for golfers to accompany their teams and be allowed to play the various [illegible].

Having reached the retirement age specified by federal regulations, Major Gustav Schilbred May 3 relinquished his duties as inspector with the U. Northern Minnie Loop to Open Season Sunday

The Northern Minnesota baseball league will get under way next Sunday with games at Plummer and Warren. Thief River Falls will journey to Plummer for a game with the defending champion Plummer Red Sox; and St. Hilaire will travel to Warren for a game with Harold Stroble's aggregation.

RECREATION GROUP TO ORGANIZE BIKE CLUB FRIDAY NIGHT

Organization Will Seek to Promote Safety Among Bicycle Riders

All boys and girls are asked to attend a meeting to be held upstairs in the arena Friday night, May 16, at 7:30 o'clock to help organize the new Recreation Bicycle club.

This bicycle club is being organized through the efforts of WPA-City Recreation officials in conjunction with local hardware stores and the police department. The aims of this club will be to promote safety among bicycle riders as well as to study traffic safety rules and to start organized bicycle activities among the riders of Thief River Falls. The principal speaker at the meeting will give an educational talk concerning traffic rules and regulations of bicycle riders.

Bicycle Clubs are being organized all over the country not only for the purpose of promoting safety, but also to encourage a good healthy sport and to promote organized activity along this line. An invitation is extended to parents as well as all the boys and girls interested in the activity.

Keeping Score

.... With BUCK OLSON

Should be Quite a Duel

Roseau's Jack Lundbohm and the Prowlers Bruce Biddick should put on quite a duel in the high and low hurdle races at the regional track meet at Bemidji tomorrow. Lundbohm, in the district 32 meet at Karlstad, ran the high hurdles in 17.4 and the low hurdles in 26.3 to set district records; while Bruce was running the high hurdles in 17.1, and the lows in 24.6, setting new marks in the 31st district track meet held at Grand Forks.

And do you know that the Prowlers will have Bruce Biddick and Don Olson, the record-holder in the half-mile, as a nucleus for next season's track team? They are both juniors. But the Crookston Pirates will have their record-breaking sprinter and broad jumper, Bill Ericson, back, too.

If Armond Pederson had accompanied the track team to Grand Forks Saturday, and thrown the discus and put the shot, as he was expected to do, the Prowlers would have come very close to the title-winning Pirates. Armond would have been a certain point-getter in the discus, probably a first place; and in the shot put.

They Paid Green Fees

Kern Olson and Doc Hedemark visited Minneapolis' Golden Valley golf course last week; met a couple of "friends", organized a foursome on a two hits a point basis, with some "syndicate" on the side; and were 24 points down at the end of the match; and paid about $7.50 in "green fees." Their scores looked like the market quotation on airplane stock—way over par.

The Feat of the Week

(From May 4th to May 11th, inclusive) That 37 that Lloyd Bennes posted for nine holes over the local course a week ago Sunday. And if you know Lloyd, and his golf game, you know that that 37 is a feat. Lloyd is a pretty fair golfer as long as he remembers to forget that he has taken golf lessons; but when he concentrates on the technique of his swing, and his wrist action, and his pivot, well, then Lloyd's golf is indigestible.

Plenty of Lake Trout

"If it had been two degrees colder I would have frozen to death." That was the comment of John Curtis after his Crow Lake trout fishing trip; and his comment was seconded by most of the anglers that went up there.

But they came back with limit catches of lake trout. Oscar Ellingson (who caught 19 of them, one a 12 pounder), Johnny Jacobson, Bob Lane, and Lloyd Nereson, returned with 35; Curtis and Sig Salveson had 15 (with a couple of 8 pounders in their mess); and Mr. and Mrs. Orlando Bishop brought back 20 trout (and their string of fish was about the nicest, averaging around 7 or 8 pounds, with one of the trout, caught by Mrs. Bishop, weighing about 14 pounds).

D-Ball Season Opens Monday

With 8 clubs in the league, and three of the teams being out-of-town outfits, the D-ball fans are expecting plenty of excitement before the league's 56-game schedule is completed and a champion selected. Abner Stromberg's Bridgeman's team, with fast-ball pitcher Bill Gray on the mound, will kick the lid off the season when they play the CCC team under the Fair Ground floodlights next Monday night. Walt Larson, of the Land O'Lakes, had Gray signed for his team; but Walt has Ram Myhree to do the hurling for his club, and he thought if he released Gray to Bridgeman's that that would make another tough pitcher for the city champion Hartz team to meet. And anything that will make the season a tough one for the Hartz team is agreeable to Walt. Maybe I should pick Clarence Offerdahl's Hartz team to retain their championship? That would make it tough for Hartz.

Baseball at Plummer Sunday

The locals will open the Northern Minnesota baseball league schedule Sunday when they meet the Plummer Red Sox in a game played on the Plummer diamond.

TWENTY BOYS OUT FOR LEGION JUNIOR BALL CLUB FRIDAY

Practice Sessions on East Side Playgrounds Held Each Afternoon

Approximately twenty candidates for the American Legion Junior baseball team answered the call for initial practice last Friday. Although this number is small and far from encouraging, Coaches Doc Elstad and Chuck Dostal believe the number will increase greatly after school is out.

Among those reporting for practice over the week end were Leonard Baker, Pudge Weflen, Virgil Evenstad, Jimmy Paulson, Stephen Ulness, Mike Welch, Don Berg, Randle Weflen, Jug Snelling, Orville Ryan, Marley Dorn, Ervin Wilson, Bob Baker, and Art McLaughlin.

Daily practices are being held after school at 4:15 at East side park. Practice is also held all Sunday afternoon.

Midget baseball, under the direction of WPA recreation leaders is making good progress. Two teams have been organized at Northrop playground and at least one is well on its way at Eastside park. An attempt is also being made to organize a team at St. Bernard's playground. These teams will play each other in a league to be formed later on.

PROWLERS PLACE 3RD IN DISTRICT MEET SATURDAY

Bruce Biddick Makes Fine Showing in High and Low Hurdles

In spite of record-breaking performances in the high and low hurdles by Bruce Biddick, and in the half mile run by Don Olson, the Prowlers were shoved into third place by the well-balanced squads from Crookston and East Grand Forks in the district track and field meet held in Memorial stadium at Grand Forks Saturday.

Crookston, paced by little Bill Ericson, who broke the district records in the 100 and 220 yard dashes, and in the broad jump, to score 15 points, totaled 64 points to win the title. East Grand Forks out-scored the Prowlers by one point, 43 to 42, to garner second place, with the Prowlers in third place. Other teams collecting points were Fisher 23½, Red Lake Falls 6½, and Climax 1 point.

Bruce Biddick's 24.6 in the low hurdles, and he was chased to the tape by Don Olson, broke the mark set by Earl Nicholson of Thief River Falls in 1939; and Bruce's 17.1 in the high hurdles also broke Nicholson's 1939 high hurdle time of 17.6. Don Olson running a 2:12 half mile, whittled 5.3 seconds off the record time that he set last year. Crookston's Bill Ericson running the 100 yard dash in 10.6, and the 220 yard dash in 23.7, broke the sprint records which he had established last year; and jumping 20 ft. 1½ in. in the broad jump, he bettered the mark set by Milt Nesse of Thief River Falls in 1937, which was 19 ft. 9 in.

The regional track meet will be held tomorrow on the Teachers College field in Bemidji, and Coach Lindenmeyer plans on entering the following Prowler track men: Bruce Biddick, Bob Rose, Tommy Carlisle, Don Olson, Russ Garnes and John Borry.

PLUMMERITES WIN SUNDAY TILT, GIVE LOCALS FOUR HITS

Strengthened Plummer Nine Scores Decisive 10-3 Victory

With their pitcher, Hemmy Sahl, hurling four-hit ball, and bunching nine hits for eight runs, the Plummer Red Sox easily defeated Thief River Falls, 10 to 3, in an exhibition game played at Plummer Sunday afternoon.

The Plummer team, which in addition to Sahl, had been re-inforced with players from Red Lake Falls—Perras, Columbus and Gagnes; and Oklee—Fortier—took an early lead, getting 3 runs in the first inning. Schoenauer's double, singles by Karlstad and Fremling, a base on balls to Fortier, and a single by St. Marie, and another by Ray Perras, accounted for the 3 runs. Plummer racked up 5 runs in the second inning, on 3 infield singles, a double by Fortier, a base on balls to Toulouse, and a home run by Arnie Karlstad.

Sahl was pitching hitless ball for Plummer until the fourth inning when, after Wally DuChamp had whiffed, Nick Bromberg poled out a double to center field, Rasmusson walked, and Johnny Jaranson doubled into left center, scoring Bromberg and Rasmusson; and Johnny came home for the locals final tally on Bob DuChamp's double down the right field foul line. Clarence Rasmusson, who replaced Lenny "Bananas" Helquist on the mound for Thief River in the third inning, pitched fine ball, holding the Plummer All-Stars to 2 runs and 3 hits in four innings.

NEW COUNTY ROAD MAPS ARE ISSUED BY STATE OFFICE

Available to Public from State Department of Highways

A new series of county highway maps, considered the most complete and accurate ever compiled in Minnesota, is now available to the public, M. J. Hoffmann, commissioner of highways, announces.

The original maps are 36x58 inches, scale one inch to the mile, except Hennepin and Ramsey counties, which are 2 inches to the mile. There are 124 map sheets, 69 of the smaller counties being on single sheets and larger counties on two or more sheets. Lithoprints of these maps will be furnished either to local officials or to private individuals, at 50 cents a sheet in lots of less than 10, and 45 cents each in lots of 10 or more. Lithoprints of the same maps on a smaller scale, on sheets 18x30 inches, are furnished at 15 cents each for less than 10, and 12½ cents each for 10 or more. Entire sets, with an index sheet, are obtainable at $50 for the larger size, and $18.50 for the smaller size. The latter also come in atlas form at $14.

The new maps were developed from original sources by the State-Wide Planning Survey conducted by the Department of Highways and the U. S. Public Roads Administration. They show the entire mileage of rural roads within each county, with U. S. numbered routes, state trunk routes, state aid and county aid roads indicated by numbers and symbols. The type of each road is shown, as of January 1, 1940, whether paved, bituminous, or gravel surfaced, graded or unimproved; also all bridges of 5-foot span or more, and all railroad grade crossings and grade separations. Main highway connections through cities are also shown.

25,000 Gallons of Paint to Stripe Center Lines

Twenty-five thousand gallons of paint ought to go a long ways! It will go a long way, too, when applied to the Minnesota trunk highway system.

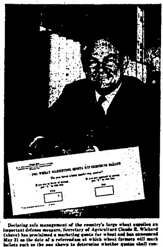
That is the supply of white, black and yellow paint which the state highway department has begun laying in for this year's requirements, just to paint those little four-inch pavement stripes that mean so much in saving life and property from traffic accidents.

Some of the striping is on new or resurfaced sections, and part is replacement of old or worn stripes. On wide roads, where traffic avoids the center of the highway, markings sometimes remain clear and serviceable for three years or more, but on narrow surfaces the stripes often have to be replaced twice a season.

HAS FOUR LIVING GREAT GRANDMOTHERS

Milan—The month old son of Mr. and Mrs. Archibald Bagaus of Milan claims a distinction probably unequalled over a wide territory, the fact being that he has four living great-grandmothers, not to mention a great grandfather and a step great-great-grandmother, also living. His great-grandmothers are Mrs. H. J. Bagaus and Mrs. A. Thorsrud of Sacred Heart, grandmothers of Mrs. Bagaus, and Mrs. A. A. Thompson and Mrs. John Volden of Milan, his paternal grandparents. H. J. Bagaus is his great-grandfather and Mrs. Mary Hergstad of Appleton, his step-great-great-grandmother.

Wickard Calls Farm Vote May 31



Declaring safe management of the country's large wheat supplies an important defense measure, Secretary of Agriculture Claude R. Wickard (above) has proclaimed a marketing quota for wheat and has announced May 31 as the date of a referendum at which wheat farmers will mark ballots such as the one shown to determine whether quotas shall continue in effect on the big 1941 crop. Marketing quotas are provided by the AAA farm program, and enable farmers to safely store their surplus for use as needed, Wickard said. According to current estimates, U. S. farmers will have enough wheat on hand after harvest this year to supply the nation's expected needs for nearly two years.

PIKE FISHING NOW IS UNDER WAY ON MINNESOTA LAKES

Spring Season Favorable to Good Catches, Authorities Report

Favored by one of the earliest-breaking spring seasons in years, Minnesota anglers prepared to invade favorite lakes May 15 for opening of the pickerel and pike fishing seasons.

Three major changes in angling laws will be in force at the opening—all decreed by the legislature. The possession limits on pickerel or northern pike, walleyed pike and sand pike is 12 fish. Daily limits remain at eight.

In addition catfish will be classified as a game fish, with the season opening May 29 in the southern zone and June 21 in the northern zone. The limit is 10 per day, 15 in possession. Perch may be taken by angling in any quantity at any time. Other regulations will be identical with previous years, the Department reported, years, the department reported the best in years. Warm weather conditions have tempered all the fishing grounds well in advance of the normal season, making for unexcelled conditions, according to reports reaching the department.

For the first time in state history, anglers will pay one dollar for their licenses. Man and wife licenses are $1.50 under the same law. Previously fishing licenses were 50 cents.

State Road Patrolmen Open Spring Drive on Poor Lights and Brakes

Elden Rowe, chief of the Minnesota state highway patrol, this week announced the opening of the spring drive on defective motor vehicle lights and brakes.

As the state's 116 highway patrolmen received orders to concentrate special attention on mechanical defects which are common causes of traffic deaths and injuries, motorists were warned by the chief to have their cars thoroughly checked in advance of the heavy traffic season. Last year 30,000 motorists were given tags and 3,380 arrested for dangerously faulty equipment.

Defective or missing windshield wipers, rear view mirrors, and other shortcomings, which are in violation of the state traffic safety laws also will be checked. Chief Rowe also invited simultaneous light and brake checkup campaigns by local police in the various Minnesota communities.

Flax Tow Mill at R. L. Falls Now in Operation

After several trial runs featured by shutdowns for adjustments the temporary machinery of the flax tow mill of Smith Paper, Inc., at Red Lake Falls was put into operation on a 24 hour basis last week and the mill is now turning out the tow as fast as possible, says the Gazette of that city. Production having ceased when the mill burned down on March 8, the mill is almost two months behind schedule. The concrete work on the new 40 foot scale was completed Tuesday. On the new buildings the metal roofing is now being applied. Metal window frames are being installed and these will be glazed with wire glass as a protection against fire. Five skylights in the big building and three in the dryer building will provide additional light.

RECOVERS 39 QUARTERS LOST ON BUSY STREET

Elk River—With little expectation of recovering his loss, "Shorty" Christian of Elk River retraced his steps on a half mile stretch of his milk route recently where he thought he had lost a roll of 40 quarters. After considerable search, he spied a quarter lying loose on the road and after a more intensive search involving considerable scraping and digging in the dirt on the pavement and on the shoulder he had found every one of his quarters but one. This notwithstanding the fact that a scraper had gone over the shoulder of the highway and scattered the quarters covering most of them up.

FARM SECURITY AGENCY ADVISES ON FARM OUTPUT

Urges Increased Production Milk, Eggs, Pork and Chickens

Low income farmers who have loans from the Farm Security Administration of the U. S. Department of Agriculture and other small farm operators are being urged to increase their production of milk, chickens, eggs, and pork this year in order to share equitably in the expanding market for these products resulting from the national defense program, it was announced today by H. W. Thelander, County FSA Supervisor.

FSA's encouragement of greater production of these commodities by farmer-borrowers and other small producers is in cooperation with the new "Food for Defense" program launched by the Department of Agriculture for expanding output of some foodstuffs to take care of rising domestic consumption and to provide supplies for Great Britain under the lend-lease act.

Under the "Food for Defense" program, the agricultural department aims to stimulate production of dairy products, poultry, eggs, and pork by maintaining favorable prices which are remunerative to producers, through price-supporting purchases over a period of more than two years ending June 30, 1943.

Department purchases, Secretary of Agriculture Claude R. Wickard has announced, will be made in such a way as to support prices at approximately the following levels (Chicago basis): Hogs, $9 per hundredweight; butter, 31 cents per pound; eggs, 22 cents per dozen; and chickens, 15 cents per pound. The prices will vary according to seasonal variations, grade, and price differentials governed by shipping distances.

It exceeds the best previous April by more than 2,700 and is approximately twice the placements of April in 1938 or 1939. Last month's placements were 3,441 or 79 per cent more than in March, and 2,487 or 46.8 per cent more than in April of 1940.

MAMA HOG IS MOTHER OF LITTER OF 20 PIGS

Atwater—Amid a large chorus of squeaks and "oink-oinks", a mother hog at the Walter Anderson farm south of Atwater raises her head to gaze placidly at her newly acquired family and perhaps sniffs disdainfully at humans raising such a commotion over such an insignificant thing as the birth of quintuplets. For Mrs. Hog recently gave birth to a litter of twenty piglets—seventeen of which are alive and doing well. The hog, a spotted Poland China, has had two previous litters.

WATCH BURIED FOR 40 YEARS RECOVERED

Northfield—A watch, buried on a Northfield farm for nearly 40 years, was recovered by Carl E. Bill of Northfield about two weeks ago. The watch, a seven jewel Elgin which has been turned over season after season in the annual plowing, was picked up by Dominic Elschen while he was walking across the field and identified by the present owner of the farm as one that belonged to Mr. Bill, former owner. Mr. Bill recalls distinctly the loss of the watch and when Walter Van Guilder, present owner, purchased the farm, he was told of the loss and asked to bear it in mind should it ever turn up.

★ 29 MILLION!
A record never before approached!
★When the 29,000,000th Ford rolled recently from the assembly line, an all-time record for the industry was set. 29,000,000 units built by the same management and all bearing one name—a name that has become one of the best-known trade-marks in the world!
It is significant that this achievement comes at a time when our country is making a mighty effort to re-arm swiftly. For to further that effort, to help speed it along in any possible way, we have offered the vast facilities of the Rouge Plant and every ounce of our experience.
As you read this, a new $21,000,000 Ford airplane engine plant, started only last fall, is nearly completed. A new magnesium alloy plant, one of the few in the country, is already in production on lightweight airplane engine castings. Work is right now under way on a new $18,000,000 plant for mass production of big bomber assemblies. Orders have been filled for military vehicles of several types, including army reconnaissance cars, staff cars and bomb service trucks.
In the midst of this activity for National Defense, building the 29 millionth Ford car is simply one part of the day's work.
The public has acclaimed the 1941 Ford car as the finest in Ford history. Ford Dealers are enjoying their greatest sales and expecting their best year since 1937.
It is good to be *producing* the things America needs, and to be setting records on the way!

Kitty's Kitchen Klatter

Have you a windmill and small children on your farm? If you have, it's best to remove the lower rungs on the windmill ladder. It is a very shocking experience, in fact its terrifying, to see a little two year old almost at the top. It has happened; and it took cool nerve to climb that windmill, talking to keep that child hanging on, yet steeling her nerves in case the youngster's drop she would be able to catch her. It didn't happen to me, but I know the lady who had the experience. It wasn't many minutes after she was safely down with her daughter before she had the ladder fixed for no more climbing by youngsters. It doesn't take much and it can be the means of preventing a very unpleasant experience, perhaps a horrible tragedy.

Sunday is Mother's Day—the one day when Mothers are honored all over the nation. It seems very little, one day to commemorate the wonderful gift of mother—her loyality, her kindness, thoughtfulness, patience and supreme courage.

In illness, mother is never too tired to ease the little aching head. It's her son, and she sits by him night after night—never failing to be on hand at the first moan or cry.

Mother is always there to share the joys and troubles of her children—the little excited happenings at school—the many times, perhaps when things didn't turn out as sonny liked, she's there to explain and make him understand the "Whys" that he can't grasp.

Mother is always patient. A wilful child may give her many a worried hour, but she doesn't give up. She is always trying with the kindness of her heart to rectify the mistakes—make such a child see the wrong.

And if she can't, she carries the burden courageously— never failing the wayward one. She loves him, her child, whatever wrong he has committed, and is always ready to stand by him. That is the supreme gift, Mother's love. It is given to all of us. Let us honor Mother, not only Mother's Day, but all days.

No Harsh Hop Bitterness

ALL over the Northwest beer lovers hail a brew which is free from harsh hop bitterness—a brew with extra grain goodness due to revolutionary methods of brewing—HAMM'S BEER.

We use pick-of-the-market barley and hops—pay premium prices to get the best. These choice hops are steeped only ⅓ the usual time, so HAMM'S BEER is free from harsh hop bitterness resulting from long steeping.

We brew this beer by a method which is the marvel of the brewing world. It retains in the brew the delicate flavors of these finest ingredients, delightful flavor elements formerly lost in brewing just as goodness escapes from foods in cooking.

To enjoy a beer with extra goodness with no harsh hop bitterness, ask for HAMM'S BEER today. Theo. Hamm Brewing Co., St. Paul, Minn.

Dear friends:

We regard punctuality of prime importance in a funeral service. It is our aim always to start the service at the hour set.

In this policy we have always had the fine cooperation of ministers and others identified with the services. Families, too, are willing and anxious to be ready when our cars call for them.

This helps greatly to provide a smoothly moving funeral service.

GROWS RIPE TOMATO IN FLOWER POT INDOORS

Bertha—Erwin Voge of Bertha is proud of his fine specimen of a plant with a ripe red tomato on it about the size of a large plum. He grew it in a flower pot last winter, although purely by accident. The plant, which Voge surmised grew from a tomato seed which got into the flower pot last fall with dirt from the garden, grew of its own accord beside another plant in the pot and this spring burst forth with a blossom, and subsequently, the fruit.

NORWAY TO GET HELP FROM MAY 17TH PROGRAMS

More Than 500 Communities Throout Nation Will Observe Day

More than 500 communities throughout the nation, including Thief River Falls will celebrate May 17th, Norway's Independence, with fund raising programs for the benefit of Norwegian Relief.

This is the announcement today of Dr. Orlando Ingvoldstad, Chicago, executive secretary of Norwegian Relief who has set a goal of one million dollars by June 1. The campaign will reach its climax on the "Syttende Mae", traditional Norse Festive Day.

Program will include nationally known speakers. Duluth has booked Mayor Brock of Narvik. Minneapolis is staging a mass rally in its municipal auditorium. Chicago has planned programs. The St. Olaf College Lutheran choir is dedicating a program to the people of Norway in a radio broadcast on May 16 under the direction of the world famous F. Melius Christiansen.

"According to recent news dispatches, the people of Norway will be forced to toil on their traditional holiday. We in our freedom can by our programs and contributions bolster the morale of a nation in need. We can send supplies, food, clothing and shelter now urgently needed in Norway", Dr. Ingvoldstad said.

NORTHFIELD JUNIOR RIDES FARM TRACTOR TO SCHOOL

Northfield — Mud, high water, and the proverbial something else could not stop Howard Mohns, Northfield high school junior, from making his daily trips to and from his home five and a half miles south of Northfield when spring break-up made country roads almost impassable. Howard solved the problem by mounting his sturdy little rubber-tired farm tractor, riding the boggy roads when practically all other means of transportation were stopped. Forced to use his tractor on ten consecutive days, Howard never missed a day of school.

412 Drivers Forfeit Licenses During April

Convictions for speeding, reckless driving and intoxication — three leading causes of motor vehicle accidents and fatalities—resulted in driver's license revocations or suspensions for 326 Minnesota motorists in April 1, according to a report of the State Highway department's driver's license division activities made this week to Commissioner M. J. Hoffmann. A total of 412 licenses were revoked or suspended during the month, with 108 being revoked and 304 suspended for varying periods of time up to one year.

Plan for Next Winter's Pheasant Food Supply

The department of conservation this week looked after next winter's pheasant food supply. Distributed to wardens were 22,535 pounds of black amber cane seed and 43,232 pounds of millet. The wardens, in turn, will give this seed to farmers, 4-H clubs and other organizations for food planting. The grain will be allowed to stand through next winter, thus affording a permanent food patch for ringnecks. Persons interested in winter feeding of pheasants were urged by the department to plant food patches. Experiments have shown the food patch is more effective than hopper-feeding.

The analysis includes data from the Thief River Falls, Red Lake Falls, Hallock, Roseau, and Warren offices of the Division, and covers Pennington, Red Lake, Kittson, Roseau, and Warren offices of the Division, and covers Pennington, Red Lake, Kittson, Roseau, and Marshall counties.

FOOD STAMPS IN PENNINGTON EARLY IN JUNE

June 3 Date Set for Introducing New Surplus Commodities Plan

FOOD DEALERS MEET WEDNESDAY, MAY 28

Federal Man Conferred Last Saturday with County Committee

Organization work to launch the federal food stamp plan in Pennington county June 3, together with 64 other Minnesota counties, was started Saturday afternoon at a conference of Robert Anderson of the Federal Surplus Commodities agency with a committee of county food dealers and John X. Lynskey, executive secretary of the Pennington county welfare board.

Mr. Lynskey stated that 426 families in the county, comprising 1,252 persons, will be eligible to participate in the stamp plan. Eligibles will obtain orange food stamps in an amount representing approximately their present expenditures for food each month. With these they will receive blue stamps free at the rate of fifty cents for each purchase of $1. Participation is voluntary.

Orange stamps, it was explained, may be used to purchase any food for human consumption off the premises, while the blue stamps will buy listed foods officially designated as surpluses by the Secretary of Agriculture.

The stamps may be procured either by mail from the welfare office, or by calling in person at the office. Persons receiving public assistance, whether it be direct relief or aid from various state and federal relief agencies will be certified for participation in the plan.

To explain the operation of the plan in all its details to food merchants of the county and their employes, a meeting will be held in the Civic and Commerce association room next Wednesday evening, May 28, at 8 o'clock, it was announced today by N. H. Holzknecht, chairman of the county food stamp committee.

Speakers will include Robert Anderson of the Surplus Commodities agency and County Agent Ernest Palmer, in addition to which a group of local men will present a skit to show the working of the stamp plan in a typical grocery store. Mayor W. W. Prichard will open the meeting with a brief talk.

Foods on the surplus commodities list for the current period are butter, raisins, pork lard, pork, corn meal, shell eggs, wheat flour, whole wheat flour, dried prunes, dried beef, hominy grits, Irish potatoes, apples, fresh carrots, oranges and grapefruit.

Auxiliary to Observe Poppy Day on Saturday

"The badge of patriotic memories" is the term being used by the American Legion Auxiliary this year to describe the memorial poppies which America will wear on Poppy Day, Saturday, May 24. The auxiliary women hope that everyone in Thief River Falls will be wearing a poppy on that day to show that the city is united in a spirit of patriotism.

The poppies are worn in memory of the American dead of the first World War. They are the flowers which grew on the battle fields of France where these young men gave their lives in service for America. The crepe paper replicas which are distributed each year on Poppy Day are made by the comrades of these men, the disabled veterans in the government hospitals and the Auxiliary work rooms.

The poppies also help the living victims of the war, the disabled veterans, their families and the families of the dead. Every penny contributed for the little red flowers goes to the welfare funds of the American Legion and auxiliary which make possible the vast program of welfare work carried out continuously by the two organizations.

A large corps of volunteer workers has been organized from among the women and girls of the auxiliary, ready to go out on the streets early Saturday morning to distribute the flowers. Because of the patriotic significance of the poppy, more are expected to be worn this year than ever before.

The Thief River Falls post of the Veterans of Foreign Wars also will conduct its poppy sale Saturday, it was announced today.

County Farmers Vote on Wheat Quotas May 31

Voting in the referendum for wheat marketing quotas in Pennington County will start at 9:00 a. m., Saturday, May 31, in four polling places, Carl R. Anderson, chairman of the Pennington County A. A. A. committee, announced today. Polls will close at 9:00 p. m.

"It is of vital importance that every eligible farmer in the county cast a vote," Mr. Anderson said.

In order for marketing quotas to become effective, two-thirds of the farmers voting must favor quotas. If voted favorably, the marketing quotas will not affect farmers that have planted within their 1941 wheat allotment. Farmers who have exceeded their allotment will be affected. They can market or feed the amount of wheat produced on their acreage allotment. Wheat produced on the acreage planted over the allotment will be subject to a penalty if it is sold or fed to livestock or poultry. The non-cooperator can store the excess wheat under government loan at 60 per cent of the rate to cooperators.

If voted down, there will be no loan program and no restrictions will be provided to keep surplus wheat from flooding the market.

Mr. Anderson listed the following places where farmers can cast their vote:

Bray, Polk Centre, Sanders, School Dist. No. 180; Black River & River Falls, St. Hilaire; Norden, North, Numedal, Rocksbury, court room in Thief River Falls court house; Cloverleaf, Deer Park, Highlanding, Kratka, Mayfield, Reiner & Star, Goodridge, Hickory, Vaughan school house at Highlanding.

FUNERAL SERVICES SATURDAY AT 2 P. M.

Had Lived in This Community Longer Than Half Century

Another member of the thinning ranks of the sturdy pioneers who developed this section of the state passed on early Wednesday when Charles Gustafson, highly respected resident of this community for more than a half century, succumbed to the infirmities of his advanced age. He would have been 88 years old August 11 of this year.

Funeral services will be conducted Saturday afternoon, May 24, at 2 o'clock from the Swedish Mission church, of which Mr. Gustafson was one of the founders. Rev. Roy N. Wiberg will be in charge of the rites, and interment will be in Greenwood cemetery.

Born in Vermland, Sweden, August 11, 1853, Charles Gustafson attended the agricultural college at Karlstad, Sweden, later serving as farm manager at [illegible]. He was married there in 1881 to Miss Louise Johnson, and in [illegible] the young couple came to the United States, stopping first at Stephen and a few weeks later moving to Crookston.

While in Crookston he was employed by the Great Northern railway, serving as a locomotive foreman and engineer during his last years of residence there. In [illegible] the family moved to a homestead five miles northwest of Thief River Falls, where Mr. Gustafson developed and operated a highly productive farm.

In 1910 he moved into Thief River Falls where, in company with his son Dave, he established a farm implement business which has developed in the intervening years into one of the city's leading business enterprises.

While on the farm, Mr. Gustafson served almost continuously on the [illegible] and was treasurer of the [illegible] cooperative creamery from the time of its founding until [illegible]. He also served for a considerable period as treasurer of the Bray Mutual Fire Insurance company. He was active for a long period of years in the Swedish Mission church in this city as well as in the district organization.

The surviving family include a daughter, Miss Hannah M. Gustafson, at home; and two sons, C. David and John E., both of Thief River Falls. Mrs. Gustafson and a son, Helen, preceded him in death. STATE HIGH COURT UPHOLDS COUNTY'S 1934 TAX NOTICE

Sustains Decision Rendered by District Court in July, 1940

The Minnesota supreme court last Friday sustained the action of the late Judge M. A. Brattland in July, 1940, in dismissing the suit brought by Stephen Singer of Goodridge questioning the legality of a tax judgment notice issued in Pennington county in 1934. Involved in the action was title to six properties in Goodridge.

The county served its annual tax delinquency notice in 1934, following which the district court entered judgement against the properties, allowing a five-year period of redemption as provided by law.

Singer brought action to restrain the county from forfeiting the properties to the state on the ground that the notice was defective. This suit was dismissed by Judge Brattland last July.

Comparison of the current year with the previous year in regard to income and expense, foreclosure, farms sold, repayments on loans, and other matters will be shown on charts and presented for discussion by members.

State Experts Confer with County Farmers Early This Week

Grasshoppers and canker-worms were the main topic of discussion by state entomologists who met with Pennington county farmers during meetings on Tuesday evening and Wednesday morning of this week. T. L. Aamodt, assistant state entomologist, was in charge of the meetings and was assisted by H. L. Parten and Donald Denning.

Extension of the white way to another five or six blocks in the business section of the city is an important contribution to local progress for several reasons. Important of course because it brings light to streets that have been in perpetual blackout. Important too because it will make these streets more desirable for night parking. And important because the area that has been darkest now will become brightest, increasing dissatisfaction with the old white way system that brightens the sky instead of the streets. It is safe to predict that it won't be long now before the new style of lights will replace the old system thruout the business district.

Less than one out of every forty eligible voters took part in the school election Tuesday night. It would have been a great opportunity for a well organized group to upset the apple cart.

After a recent visit to the CCC camp up at Thief Lake we have wondered quite a little why any young fellow, out of work, should loaf around town. The camp not only provides a good living but offers opportunities for learning that may in themselves be worth more to the individual than the other forms of compensation. We can think of many worse ways for a young fellow to spend the summer.

Not many women in any community have a record of public service that will equal that of Mrs. Mary Shaw, recently retired chairman of the local Red Cross organization. Besides her activity in the Red Cross, she has served nearly thirty years as a member of the Library board and for at least that long she has given liberally of her time and thought to the women's department of the county fair. These are merely the highlights. Her efforts in behalf of other community activities are innumerable. A vote of thanks and a round of cheers to Mary Shaw.

We are not envious of the many communities thruout the country that are experiencing a boom because of war activity. In these boom towns it probably is easy now to make a soft dollar, but the boom conditions will not last forever. As long as we are looking forward to spending a long life in the home town, we'll be well satisfied to see the progress a little slower—and more substantial. The headache, when the payoff comes, will be less terrific.

Hitler apparently is willing to pay a heavy price for the capture of the island of Crete. Reports indicate that thousands of parachute troops have already been sacrificed, and many thousands more will no doubt be killed before the battle is either won or lost. Having made the attempt, however, the Nazis will risk a lot before admitting a defeat. In a battle of this kind the defenders must have a big advantage. Crete is not a small island. In length it stretches out about 160 miles. With so large a territory to land on it is not strange that troops are landed safely, especially at night. But it would take time to effect a concentration of these landed troops, and until they are concentrated it would seem that they must be easy victims for native snipers. In this type of warfare we would prefer being on the defensive.

As the war develops in the direction of the Suez canal, our country becomes increasingly important as a source of supplies for the allies. Our ships are said to be delivering war equipment to Red Sea ports. In the defense of the Suez, Britain is closer to supply bases than Italy and Germany. Britain probably is well satisfied to have the war move in this direction.

Friday of next week is a holiday, which means there will be no mail service on that day—a terrible situation when you consider the thousands of people who won't get the great family journal until Saturday. But keep calm. Our board of strategy has figured out a solution. Instead of the paper being a day late, it will be a day early. We will get it out Wednesday night, s'helpus, and it will go out on the routes Thursday morning. We will appreciate the cooperation of advertisers and news contributors. Get the stuff in early, please.

Application of another group of suburban residents to have their property made a part of the city is encouraging. The strong financial condition of the city and lowered city taxes should encourage more of this sort of thing.

BULL WITH 5 LEGS GOES TO MARKET

Fertile—Cyrus Sannes, manager of the Fertile Farmers Shipping association, has seen many different animals in the years that he has been trucking livestock but last week says he took the oddest rarity of all to market. Included in his load was a 3 year old 1500 pound Brown Swiss bull perfectly normal except for an extra leg, two feet long, growing out of the middle of the bull's back. The animal belonged to Dr. O. P. Hecklin of Crookston.

MOTH BALLS USEFUL IN SCARING DEER

Waseca.—Since deer have become so common and plentiful over a large portion of Minnesota to the extent that they have become garden pests in many places, the experience of William Hall, living near Pequot Lakes, may help others who, like him, have been bothered with deer eating all their garden vegetables. Hall says: "We placed a moth ball about every 60 to 100 feet apart each way around our garden or field and after that no deer ever bothered us."

RECREATION HIGHLIGHTS

By Ferd B. Elstad

The local recreation program is sponsored by the City Council in cooperation with Work Projects Administration recreation leaders.

Baseball

Practices for the American Legion junior baseball team and several midget teams are being held each day at the various playgrounds. So far, the number for all teams has been small, this due to the present heavy load in school. It is hoped that after school is out that large numbers will report for practice for all teams. The Legion team practices at East-side park as does the midget team for the 4th ward. Other midget teams practice at St. Bernard's and Northrop playgrounds.

Bicycle Club

Approximately 23 bike enthusiasts reported last Friday night for the initial meeting of the Recreation Bicycle Club. Plans for future meetings and activities were discussed, and a talk on safety was given. The second meeting of the Club will be held tomorrow night in the arena upstairs. Election of officers and further explanation of the club's purpose will be part of the business handled. All are invited to come to this meeting.

Playgrounds

Playground equipment has been placed at East-side park, Northrop school playground and St. Bernard's school playground. Recreation leaders are on hand after school and evenings and all day Saturday at these play areas. Children are encouraged to make use of the equipment provided. As the summer months move on, more and more game equipment will be placed at the various playgrounds.

Life Guards

A lot of people are starting to feel the urge for a good swim. Life guards will not be at Tindolph pool until after school is out, so swimmers are warned against taking their swims too early. Duane Battleson, Harvey Egenes, "Pied" Langevin, and Andy Gausen will be guards at the pool this summer. At present, these four men are over at Crookston taking lifeguard instruction at the Ag school. This should give excellent supervision at the pool during the summer.

Miscellaneous

The arena recreation center is still open for all those interested in playing the games available. Puppetry and handicraft are also available for persons enjoying those activities. Horseshoe and tennis enthusiasts are encouraged to get out now and "warm up" for the summer tournaments. Archery will be available soon. The delay in this activity was created by a lack of targets. However, these are expected to be on hand in the near future.

GRYGLA

Plans are being made by three local Co-operative business enterprises here for a Co-operative picnic to be held on Sunday, June 15 on the Holbrook farm, west of town. Sofus Bjertness and Irvin Anderson have been named on a committee to make the arrangements and they announce that they will procure able speakers and other worthwhile entertainment.

Play Day

The annual play day was held Friday and seven rural schools were represented. Janet Thiel of Dist. 898 and Robert Mosher of Dist. 115 were awarded first and second places, respectively in class 1. In class 2 Marie Leigh of Dist. 132 received first while Mary Leigh and Audrey Stephens, both of Dist. 139 tied for second place. In class 3 Marvel Aune of Dist. 69N placed first and Hilda Bathre of Dist. 95A, second; and in class 4 Gerald Erickson of Dist. 94 received first and Lloyd Mosher of Dist. 115 second. First place in class 5 was given to Clarence Taylor of Dist. 94 while Gordon Severance and Alvin Dalen, of Dist. 115, tied for second place; Glen Saxvold of Dist. 95U received first place in Class 6 and Arvid Anderson from the same district received second place.

Each winner was awarded a blue ribbon. The bat ball game was won by District 94 which also won the relay race. District 115 received the greatest number of points.

Last Friday was also the day on which nine Beltrami County schools gathered at the Fourtowns school and participated in the third annual play day events, which were supervised by county supt. C. L. Stapleton, Mrs. Davis and Mr. Bailey all of Bemidji. The Big Grass school won the largest number of ribbons with Sandridge school second, Dalos school third and Fourtown school fourth.

PARK RAPIDS IS AGAIN WINNER OF REGION 8 MEET

Lincoln School Track Men Capture Fourth Place in Event

For the sixth successive year a squad of Park Rapids high-school track and field specialists were winners of the eighth region track and field championship, scoring 34 points in the meet held last Friday on the B. S. T. C. field at Bemidji. The Crookston Pirates, champions of the 31st district, were runners-up; while the Prowlers with only six qualifiers in the meet, scored 16 1-7 points for a fourth place.

The Prowler points were scored by Bruce Biddick, who copped the low hurdles in the record-breaking time of 23.8, and who took a close second in the high hurdles, being beaten out of first place when he clipped the last hurdle; Tommy Carlisle, on a 4th place in the 440 yard run; Don Olson, who ran in to second place in the half-mile run; Bob Rose, who jumped into a seven-way tie for fifth place in the high jump; and the relay team which collected 1 point for its fifth place.

Bridgeman's 10, CCC. 4

Ray Johnson's base-clearing triple in the 3rd inning sparked "Abner" Stromberg's Bridgeman team to a 10 to 4 win over Larry Berg's C. C. C. club in the season's opening D-ball game last Monday night. Bill Gray, with a fine fast ball, pitched for the winners, with Johnson catching; while "Mouse" Morlan tossed the ball for the C. C. C.'s, and Dugan Dunrud caught.

Land O'Lakes 14, Kiewel's 13

The Land O'Lakes team won the week's feature game, defeating the red-shirted Kiewel's, 14 to 13, in a free-hitting contest. Both pitchers, "Ham" Myhrer of the Land O' Lakes and Gordy Kaushagen of the Kiewel's were wild and gave numerous bases on balls. Woody Almquist and Harold Anderson pounded out homeruns for Walt Larsen's outfit.

Harts 15, N. Y. A. 1

With Al Ness pitching a no-hit game and pounding Birdean Norness, the N. Y. A. hurler for numerous hits, including two long rightfield homeruns by Arnie Karlstad, and a base-cleaning home run by Jesse DuChamp in the 1st inning, the city champion Harts team opened their league schedule with an easy 15 to 1 victory over the N. Y. A. team in a game played last night.

Urges Registrants to Consult Doctors Before Entering Army Service

Calling upon all registrants in Minnesota to investigate possibilities of having remediable physical defects corrected prior to local board examinations, Lt. Col. Richard R. Hullsiek, state medical director of selective service, today suggested that they seek the aid of their personal physicians and dentists in improving their general health.

Col. Hullsiek's suggestion followed his receipt of a communication from National Headquarters advising that the selective service system is seeking to reduce the percentages of men rejected by local board examiners on physical grounds through an extensive program of "rehabilitation."

"Many of the men rejected by local boards," Col. Hullsiek said, "are turned down because of defects which clearly are remediable. If registrants will consult their personal physicians and dentists before they are examined by local board physicians they will have an opportunity to learn of their disabilities and have them corrected."

LOCALS LOSE 1ST LEAGUE GAME TO PLUMMER SUNDAY

Warren Team to Supply Opposition Next Sunday at Warren

Scoring four runs in the fourth inning and bunching four singles with two Thief River errors, Plummer opened the Northern Minnesota baseball league schedule with a well-played 6 to 1 win over Thief River Falls in a game played at Plummer Sunday. Lefty Fremling and Hemmy Sahl, pitching for the league champions, held Thief River to 5 hits. The locals will play at Warren next Sunday when they meet Harold Stroble's Warren team.

Plummer held a 1 to 0 lead going into the last half of the fourth inning, having scored in the opening inning. Karlstad led off with an infield single, stole second. Fremling singled into right-field, and Helquist's throw had Karlstad at the plate, but catcher Offerdahl dropped the ball, Karlstad scoring and Fremling moving on to second. Ste Marie was given a lift when Jesse DuChamp overthrew first base, Fremling taking third. Fortier was out on a fly to center. Ray Perras bounced a hard single off Jesse DuChamp's glove, Fremling scoring, Ste Marie going to third. Perras stole second, and he and Ste. Marie scored on Walt Toulouse' long drive into left center. Page popped for the final out.

The locals had been retired in order for six innings, not a man reaching base; but Wally DuChamp opened the 7th inning with a single into right-field, Nick Bromberg followed with another right-field single, Wally going to third on the hit and scoring when Lefty Fremling's throw-in from right-field went high over third base.

Thief River threatened in the eighth when, with one away, Gordy Zimmerman doubled down the left-field foul line. Norness lined a single into right-field, Zimmerman trotting to third. But on Landy Helquist's strike-out Karlstad whipped the ball to Ste Marie to double Zimmerman off third and nip the rally.

According to an announcement received here today from the Officer in Charge, U. S. marine corps recruiting station, 118 South Third Street, Minneapolis, Minn., the age limit for applicants for enlistment in the U. S. marine corps has been reduced to 17 years. Lincoln School Seniors Spend Friday at Bemidji

A majority of members of the Lincoln high school senior class were guests last Friday at a Senior Day program staged by Bemidji state teachers college. Principal events on the day's program included the regional high school track meet, a dinner for valedictorians and salutatorians and a concert in the evening by the orchestra and choir of the Bemidji institution.

Golf Club Organizing New 8-Team League

At a meeting of the local golf club's tournament committee Tuesday evening, a detailed program of events was arranged for the season's play. A new feature, which is expected to lend much interest is the organization of a Baloney league, to be composed of eight six-men teams to play on a handicap basis. Sessions will be held each Wednesday at 6 o'clock, starting June 4.

Chairman W. G. Claffy urged all men players to turn out next Sunday for a blind bogey tourney, which will aid in establishing league handicaps. Each player also is being asked to list his best scores for 1940 and 1941 to date to aid in fixing their handicaps.

Teams in the Baloney league together with their captains include the Leathernecks, Dr. H. K. Helseth; Bombers, F. Koblitska; Doughboys, R. Sagmoen; Spitfires, Ed Carlson; Hurricanes, Oscar Cerny; Gobs, I. Swanson; Wasps, Archie Hensrud; and Tankers, C. W. Mattson.

Sunday events during June include an inter-city match at Bemidji June 1; flag tournament, with approaching and putting contest, June 8; President-Vice President tournament and driving contest, June 15; L. B. Hartz Handicap Tournament June 22; and match play handicap tournament June 29.

That Red Lake Rock Sturgeon

A couple of weeks ago the department of conservation's nets at Waskish pulled in a 143-pound rock sturgeon (the department was netting walleyed pike for the fish hatchery at Waskish). I've had some correspondence with Thaddeus Surber, technical advisor for the Game and Fish division, regarding the origin of that sturgeon and here are Mr. Surber's comments: "With reference to the existence of rock sturgeon in Red Lake; many years ago they were relatively common in that body of water, no doubt having come up and stocked the lake through Red Lake river many years before any dams were constructed along its course. They are only occasionally procured out of the waters of Red Lake at the present time, and the absence of any reports of young sturgeon having been taken in recent years lead us to believe they are not reproducing anywhere in the lake."

And Mr. Surber goes on to relate concerning the depths of the upper and lower Red Lakes: "I will say this much, however, that the Red Lakes insofar as we have been able to ascertain, nowhere exceeds forty feet in depth, the average for the lower lake at least being about twenty feet."

And speaking of fish. The boys are making catches of northern pike in the pool below the dam. Paul Sands caught an 8-pounder. Cliff Overum and Mel Carlson, fishing early last Thursday morning, caught a nice string of northerns.

Trouble in Starting League

The locals had been scheduled to play Warren here next Sunday, but that game has been transferred to Warren. Harold Stroble has been having a great deal of difficulty in organizing a team at Warren this year, and it was thought that an opening game with Thief River would be an incentive for the fans to come out.

According to a tentative schedule released by league president Krueger yesterday, we will have our first game here on Sunday, June 1st."

Hemmy Sahl, our regular pitcher, left on Monday night for his year of service in the army, and the local management hasn't decided who will be on the mound for Thief River Falls on Sunday. There have been reports that Bill Hallamack would do the pitching for the locals, and Bill, with proper support, is one of the smartest pitchers in the league. He'll never give a batter a "fat" pitch to hit. Rasmusson has hurled a couple games, and has done a good job, but Ras is more valuable at third base.

Should be an Interesting Season

The D-ball teams began play this week, and it begins to shape up like a pretty even race. Pitchers like Al Ness, Ham Myhrer, Bill Gray, and Gordy Kaushagen are tough to hit, and with warmer weather, making it easier for the pitchers to control their delivery, the batters won't be connecting for the base-hits like they have this first week.

And don't think that those St. Hilaire boys— Woody Almquist, Klem Gigstad, and Arlo Jacobson—haven't strengthened that Land O'Lakes outfit. They have made Walt's team a threat for the championship.

But the Hartz team continues to be the power-house. The city champions have Arnie Karlstad at first, Russ Solheim at second, Jesse DuChamp at short, Clarence Rasmusson at third and Johnny Jaranson in short-field, with Al Ness pitching and Clarence Offerdahl catching. I think I'll pick that team to win the championship. Now that they have gotten rid of Howie Hoium, released him on waivers, they haven't a weakness. Not a weakness on the D-ball field, that is.

Here's a note to Kiewel's Ole Ness; regarding the scoring of a run as the third out is forced. Note carefully in this rule that a third-man-out force play prevents a run from scoring."

And to Wally DuChamp, who claimed a hit on a play in which a force play was made: Sec. 5 of rule 70 states that "In no case shall a base hit be scored when a base runner is forced out by the play."

But the D-ball season, at the least the Kiewel's team, doesn't seem the same without Heinie Waag on the field. Manager Ness had a letter from his diminutive right-fielder on Monday and Heinie, who's with the field artillery in Fort Sill, Okla., stated that it was probable that his battery would be transferred to Fort Totten, near Devils Lake, N. D., in the near future.

Small Duck Migration Reported This Spring

A general decrease in the number of ducks that migrated northward through Minnesota this spring was reported by the department of conservation last week. Don Smith and Warren Fried, investigators for the bureau of research, made a detailed survey of typical migration lanes. In addition they contacted some 50 volunteer observers who have been reporting the flight for years. All reported "fewer ducks" than at any time in recent years. They credited increased water supplies with "thinning out" the birds over some areas, but after allowances for this factor the birds were still reported diminished.

RAILROAD UNIONS SEEK SUBSTANTIAL INCREASE IN PAY

Serve Notice of Request for Thirty Per Cent Rise In Basic Rates

Representatives of the five big railroad operating unions, representing 350,000 workers, announced Monday they had decided to launch a concerted national campaign for a 30 per cent increase in all basic rates of pay.

Following a conference which began last Friday, they announced they would demand wage increases which would amount to not less than $1.80 a day.

Their demands will be served on the railroads June 10 pursuant to provisions of the national railway mediation board.

Unions represented at the conference were the Brotherhoods of Locomotive Engineers, Locomotive Firemen and Enginemen, and Railroad Trainmen, the Switchmen's union and the Order of Railway Conductors of America.

Spokesmen for the railroad workers said that based on the 1939 payroll of $560,000,000 for the unions involved the demands, if met, would bring an additional $168,000,000 a year into the pay envelopes.

Switch tenders, whose $5.06 a day is the lowest wage in the union classifications, would get an increase of $1.80 a day if the railroads agreed to the demands.

All railroads, class one, class two and terminal lines, will receive the demands.

Spokesmen said they were voted by about 450 general chairmen whose vote on the question was unanimous.

State Department of Conservation Reports on New Fishing Laws

Several major changes in the laws pertaining to fish limits and angling were made by the recent legislature. They include laws that:

1.—Reduce the possession limit on wall-eyed pike, sand pike or saugers and northern pike to 12 fish. (Formerly 16 for pike, and 20 for the northerns.)

2. Prohibit the shipment or carrying of dressed fish which are defined as fish with the heads, tails fins, scales or skins removed; the law permits removal of gills and entrails only.

3. The season be opened year-round on perch without limit.

4. Catfish be classified as a game fish (formerly a rough fish) with seasons the same as for sunfish: May 29 to December 31 in southern zone, June 21 to December 31 in northern zone; 10 fish permitted to be taken per day with 15 allowed in possession.

2,500,000 lbs. of Rough Fish Removed from Lakes

Approximately 2,500,000 pounds of rough fish—mostly carp, buffalo and sheepshead—were removed under supervision of the department of conservation during the past three months. The record terminated one of the most successful lake improvement programs in many seasons, officials said. In addition, 375,000 pounds of bullheads were removed from Itasca county lakes.

94 RURAL CREDIT FARMS DISPOSED OF IN PENNINGTON

Department Head, Here Tuesday, Says Ninety Farms Remain Unsold

George C. Jones, conservator of the department of rural credit, conferred with members of the local staff Tuesday en route to Greenbush, where he addressed a public meeting in the evening.

While here Mr. Jones stated that since January 1, 1939, the department had sold 94 farms in Pennington county, placing back on the tax rolls approximately $5,350 annually. He added that ninety farms remain to be sold in this county. Of those sold, 21 were bought by former owners or their children, 24 by tenants, 23 by local farmers and only [illegible] to outside buyers.

In Marshall county, Mr. Jones said, 173 farms have been sold, and 149 farms remain to be disposed of; while in Red Lake county 54 farms have been sold, 31 remaining to be sold. In the state as a whole the department has left 1,700 out of 4,700 farms, and it is planned to dispose of virtually all saleable land during the coming year.

The study will be part of a larger survey of the effect of commercial fishing on the Lake of the Woods walleye supply.

Unemployment Payments to State Fund Become Due and Payable May 31

All employers in this area who are subject to the unemployment compensation law will receive their 1941 rate statements by May 10, according to word from Victor Christgau, director of the employment-security division. Under the state's merit rating program, as revised by the recent legislature, employers having three years of experience will pay rates in 13 categories, ranging from one-half of one per cent to 3.25 per cent of their annual payrolls.

Lowest rates will apply to employers who have had the least unemployment during 1938-1939-1940. Highest rate will apply to those who have had the most unemployment charged to their accounts during the same period. Employers without the necessary three years of experience will continue to pay the standard rate of 2.7 per cent.

Employer contributions to the unemployment compensation fund for the first quarter of 1941 will become due and payable on May 31. Amendments to the statute passed by the recent legislature give the force of law to a division regulation issued on May 15, 1940.

WOMEN'S CAMP AT N. W. SCHOOL TO BE HELD JUNE 9 TO 12

Specialists in All Phases of Homemaking to Give Demonstrations

The sixteenth annual Women's Camp for Red River Valley women will be held at the Northwest School of Agriculture, Crookston, June 9-12. Miss Retta Bede, camp director, states "The Northwest School Women's Camp is unique in the field of adult education in that considerable latitude is given women in their choice of activities and that none of the duties of camp maintenance fall upon the members."

The women are housed in the girls' dormatories and ample opportunities are given women for rest and recreation. Specialists in the field of home economics and all phases of homemaking give demonstrations daily. The women take an active interest in all kinds of handicraft offered. The lectures and demonstrations are of the open forum type in which the women themselves make valuable contribution. The camp is held each year when the young folks are home from school and they cooperate by taking over the managements of the homes so that mothers can get a vacation.

Subjects given prominence on the program this year are utilization of dairy products, refrigeration as a means of the preservation of food products, draperies and curtains for the home, latest developments in research on foods and food allergies. The handicraft work stressed this year will be woodcraft, knitting, table decorations and table favors. A full program of music and entertainment has been arranged for the three-day period.

This low-cost rest and recreation camp has proved very popular with Red River Valley women and some registrations have already been received. For further information, write the Northwest School, Crookston, Minn.

ASKS FAVORABLE VOTE FOR QUOTAS ON WHEAT MAY 31

Chairman Anderson Points Out Record Breaking Wheat Supply

Record breaking supplies of wheat in this country and the world will mean ruinous prices to wheat producers if they do not take steps to control the surplus by voting in favor of marketing quotas on May 31, Carl H. Anderson, chairman of the local A. A. A. committee, said this week.

"In 1931 we had a billion bushels of wheat and no AAA farm program. That year we had a world wheat price of 40 cents a bushel and wheat farmers in this country received 40 cents a bushel and less," Mr. Anderson said.

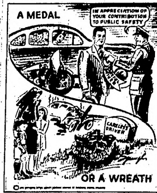
"In 1941 we will have another billion bushels of wheat. But in 1941 we have the AAA farm program and farmers are receiving better than 80 cents a bushel for wheat despite a world wheat price of less than 40 cents a bushel."

"If we do not take steps to control marketing of surplus wheat and support prices by government loans our wheat prices are going to drop, and drop fast," Mr. Anderson said. "A favorable vote on a marketing quota for wheat means government loans to support wheat prices and assures cooperating AAA farmers that surpluses produced on the excess acres above allotments by noncooperators will be controlled.

If 67 per cent of the wheat growers voting on May 31 approve a marketing quota for wheat, the government wheat loan program will be continued.

Gratitude is not only the memory but the homage of the heart—rendered to God for His goodness. —Willis.

Keep Off the Memorial Day Casualty List!



A MEDAL
IN APPRECIATION OF YOUR CONTRIBUTION TO PUBLIC SAFETY
CAREFUL DRIVER
CARELESS DRIVER
OR A WREATH

There'll be no cannon's roar; there'll be no rifle cracks, there'll be no machine gun fire, but there'll be casualties just the same—not casualties of war, but casualties of peace—the Memorial Day Automobile Accident Toll! The papers the day after will carry the lists of the injured and dead—how horrible to anticipate!

Memorial Day has become a holiday for our people. Originally set aside as a day to honor those who died for our country, now, because of the automobile, it is a day for a trip or an outing, and again, because of the automobile, it is turned into a day of sorrow for many. The cause is the automobile accident. But, there is no need for this sorrow. No need for a single person to be killed or injured. Safe driving will prevent it.

What can be done, what can be said to impress our people sufficiently with the fact that only through care and caution can lives be saved and suffering prevented on Memorial Day? Thousands of cars will be on the road—thousands of others like yourself will be anxious to get to their destinations. Why permit an accident to prevent your arrival? The return home will be just as hazardous. Anxiety to get back as quickly as possible tempts one to take chances, and taking chances is risky.

This much can be said. **Drive carefully or take the consequences.**

KRATKA

The Nutrition Project was held Wednesday at the Ted Lendobeja home with not all of the members in attendance. Muddy roads kept many from coming. The leaders, Mrs. Archie Wilson and Mrs. Joe Johnson gave an interesting discussion on the vital importance of the various elements in our foods to the human body. Sadly lacking is the very important nutrient found in wheat germ which is taken out of all milled white flour. A new process of energizing the flour to restore the valuable wheat germ is now being done.

Lunch was served by Mrs. Joe Johnson and Mrs. Ted Lendobeja. Six members attended. The next project meeting will meet Monday, May 26 at the Alvin Burstad home. Members are asked most urgently to attend. Bring a good hot weather recipe for salad as your answer to roll call.

Gunder Olson was a business caller in Oklee on Wednesday.

Mr. and Mrs. Ed Magnon have as their guest, Mrs. Ann Horark of Minneapolis. She is to spend the summer at the Magnon home.

Sunday guests at the Gerhart Hanson home were Mr. and Mrs. Albin Hanson, daughter Carol and Ingval Hanson of Thief River Falls. Going from there the above mentioned and the Gerhart Hanson family called at the Albert Hanson home. Visiting there were also Mr. and Mrs. Odin Hanson and children of Silverton.

Tuesday night proved quite a problem for Mrs. Gunder Olson and Mrs. Ted Lendobeja; both having received a flock of turkey poults the same day. The storm and lightning made the young poults extremely nervous, necessitating the presence of the ladies to keep them quiet. And to top it all, roofs that weren't supposed to leak, sprung unsuspecting gushers, adding to the general excitement.

Mr. and Mrs. John Jahrenner and children from River Valley were Sunday guests at the Florian Szymanski home.

Mr. Saamund Groven of Oklee called at his son, Henny Groven's home on Thursday.

Mr. and Mrs. Ted Lendobeja were Thursday evening callers at the John Burtness home in Silverton.

Mr. and Mrs. Henry Schwartz, son David and Lorraine Runnestrand of Holt were Sunday evening guests at the Henry Runnestrand home.

Mr. and Mrs. Henny Groven and son were to Oklee Wednesday to attend the wedding of Mrs. Groven's uncle, Roy Thorpe.

Mrs. Rudolph Hanson entertains the Telemarken Ladies Aid Memorial Day at her home. A cordial invitation is extended to all.

CHRYSANTHEMUMS BLOOMING IN MAY

St. James—Ordinarily blooming only in the late fall, a chrysanthemum belonging to Mrs. Fred C. Durow ignoring all the accepted rules of nature, burst into bloom when set out of doors a short time ago. This particular plant had buds last fall when it was potted but these never opened, remaining in a dormant state the entire winter, neither opening nor withering until set outside recently. Instead of being a dark red, however, the flowers were a pale pink.

Draftees

Two local chaps, Louis Larson and Lewis Stenseth who are "in the army now" have written recently to their parents, the Christ Larson's and the L. O. Stenseth's, respectively, that they have been transferred to that huge army camp, Camp Claiborne in Louisiana from Fort Snelling. They like it fine there. Arthur Johnson, son of John Johnson of this community left Monday for Fort Snelling. He is a selective service draftee. We hope he will like army life if he passes the medical examination.

Turkey Time

The turkey business, here abouts has been in full swing since the first of May. Special Mention just has to go to the Krist Larsons who received their 2600 turkey poults May 5th. They are exceptionally nice this year. Mr. Larson and son Arthur have eight brooder houses full of these turks in a row near the river bank. There is plenty of work involved with such a large bunch. Another large batch of turkey poults are at the O. N. Olson farm. They have 600 poults which they received a week ago. Mark, Orton and Clara have these turkeys jointly which sort of a co-operative affair in raising them. There are others in Smiley who have turkeys also but not in such large quantities as the Larsons or Olsons.

Elsie Larson is home now. She arrived from Anchorage, Alaska the 9th of May after an extended trip by boat from Anchorage to Seattle, Washington. From Seattle she went to Bellingham, Wash., where she spent several days with her two uncles, Fred and Emil Jacobson. Then she went on to Great Falls, Montana where she visited friends there. Miss Larson used to be employed in Great Falls several years ago. From Great Falls she came here and will visit her parents, the Krist Larsons' until about the 15th of June when she will return to Anchorage to be married. "SITTING BULL" SITS IN WELL AT MAPLETON

Mapleton—Although it took ten men, a veterinarian, a chain hoist and several heavy bolts to extricate him the 900 pound steer belonging to John Carey of Mapleton suffered nothing more than the loss of his dignity and a "patch of hair on his north end, going south" when he fell into a well on the Carey farm recently. Quite some time was spent trying to free the animal before heavy straps were looped about the bull, and block and tackle was hitched on—and up came the steer.

"IT'S A SMALL WORLD" SAYS U. S. MARINE

[illegible] Not having seen a [illegible] he knew for many, many months and having the least expectation of seeing one, imagine the surprise of Victor Sanbey, stationed with the U. S. Marines in Pearl Harbor, Hawaii, when he heard some one call "Hi, Vic" in a familiar voice. Turning around, he looked squarely into the face of his old schoolmate, Elmer Kral, whose ship "U. S. S. San Francisco" had docked in the harbor at that place. Also on board were two other acquaintances, Dennis Trandt and Walter Schneider, both of whom, together with Kral, are serving in the navy.

LOCAL JOB OFFICE FINDS WORK FOR 38 PERSONS IN APRIL

Assists Nearly Twice Number of Persons Aided in April, 1940

The Thief River Falls office, headquarters for the Employment Security Division's activities in Pennington, Kittson, Roseau, Marshall, and Red Lake counties, assisted 38 persons to find jobs during April, according to a monthly summary of the agency's local operations issued today by C. J. Splunder, manager of the Thief River Falls office.

These placements are 153 per cent more than in March and 90 per cent more than in April, a year ago. They indicate that this section is following closely the general employment improvement currently reported by the Division's other 38 full time offices.

The report covers the full time office at Thief River Falls, as well as itinerant offices at Hallock, Roseau, Warren and Red Lake Falls.

In the Bemidji district, of which Thief River Falls is a part, the April placements were 263. This is an increase of 158 per cent over March and of 216 per cent over April, a year ago. The steady upswing is indicated by the fact that in the district during the last six months, 856 placements have been made, an increase of 30 per cent over the corresponding period of a year ago, according to Mr. Splander.

THE RECORD .... Facts That Concern You No. 29 of a Series

It's always the SORE thumb that sticks out...
Odd, isn't it—the way everybody notices the sore thumb?
It's the same way with the retailing of beer. Everybody knows about the one undesirable place...everybody seems to forget about the thousands of worthwhile retailers who operate clean, decent, law abiding establishments.
To protect the good name of beer, we of the beer industry want the few... but noticeable..."black sheep" retailers eliminated.
That's not all. Such retailers endanger an industry that brings important economic benefits to the community. Right here in Minnesota beer provides employment for 34,573 persons, supports an annual payroll of $29,866,962 and contributed $1,926,921.61 last year in state taxes.
This state, too, has an important stake in the beer industry's purchases—for materials, equipment, and services—from more than 100 other industries.
You can help us protect these benefits in two ways—by (1) patronizing only the law abiding places where beer is sold and (2) by reporting any irregularities you may observe to the duly constituted authorities.
BEER...a beverage of moderation

FDR DECLARES AN "UNLIMITED EMERGENCY"

President Makes Powerful Radio Address to World Tuesday Night

SAYS WAR IS COMING VERY CLOSE TO HOME

To Put Entire Nation on Basis to Repel Acts of Aggression

Proclaiming the existence of an "unlimited national emergency", President Roosevelt said Tuesday night that the United States would do whatever may be necessary to assure the safe delivery of war supplies in England, and served notice that it would "actively resist" any effort by Hitler to gain control of the seas.

Bluntly, he accused the fuehrer and his Axis partners of an intent to conquer the world and "strangle the United States of America", asserted the war was "coming very close to home" and warned that "we will not hesitate to use our armed forces to repel attack".

These things, together with a reassertion of "the ancient doctrine of freedom of the seas", were included in his long awaited "fireside chat", delivered from the East room of the White House before the entire diplomatic corps of the western hemisphere.

Previously he ran over the pertinent passages of his address with congressional leaders of both parties at an extraordinary White House meeting.

In his proclamation, the president predicated the declaration of a state of full emergency upon statements that:

The objectives of the Axis belligerents "include overthrow throughout the world of existing democratic order, and a worldwide domination of peoples and economies through the destruction of all resistance on land, sea and in the air.

"Indifference on the part of the United States to the ever increasing menace would be perilous and common prudence requires that for the security of this nation and of this hemisphere we should pass from peacetime authorizations of military strength to such a basis as will enable us to cope instantly and decisively with any attempt at hostile encirclement of this hemisphere, or the establishment of any base for aggression against it, as well as to repel the threat of predatory incursion by foreign agents into our territory and society."

Consequently, he continued he was declaring the existence of an emergency which required that the nation's "military, naval, air and civilian defenses be put on the basis of readiness to repel any and all acts or threats of aggression directed toward any part of the western hemisphere."

To further the general objective he called upon manufacturers to give precedence to the products that the nation needs and "upon all our loyal workmen as well as employers to merge their lesser differences in the larger effort to insure the survival of the only kind of government which recognizes the rights of labor or of capital."

New AAA Amendments Set High Loan Rate Under Wheat Quotas

Recent amendments to the Agricultural Adjustment Act will make three major changes affecting the 1941 wheat marketing quota and wheat loan provisions, according to Carl R. Anderson, chairman of the Pennington county AAA committee.

The recent action (1) exempts from quotas farms planting 15 acres or less of wheat (present legislation exempting farms whose normal yield multiplied by the acreage of wheat on the farm is less than 200 bushels continues in effect); (2) raises the marketing quota penalty from 15 cents a bushel to 50 percent of the national average loan rate offered cooperators or about 48 or 49 cents a bushel; and (3) sets the wheat loan rate at 85 per cent of the wheat parity price at the beginning of the marketing year.

As a result of the amendments, Anderson points out, all farmers, except those who have 15 acres or less of wheat or whose 1941 acreage will have a normal production of 200 bushels or less, will be subject to the quota and they are eligible to vote in the referendum which has been set for May 31.

Four from Pennington to State Rural Youth Camp

Gov. Harold E. Stassen and L. E. Winston, former U. S. Navy officer, will headline the program for the annual state-wide rural youth camp at Mission Farm, Medicine Lake, June 6, 7, and 8. Four members from Pennington county will join in the three-day program-planning and recreation session. Those registered from this area, according to County Club Agent Margaret Gunelson, are Iris Ayers, Morris Engelstad, Marian Larson, and Bert Vigen. Governor Stassen will give the main address at a banquet Saturday evening and Winston, who was a sound technician on a U. S. submarine for more than 20 years, will tell of his navy experiences.

Holiday Ban on Trucks to Begin Memorial Day in Congested Regions

Truck operators were warned today by W. F. Rosenwald, traffic and safety engineer of the Minnesota highway department, of the summer Sunday and holiday ban on heavy commercial truck traffic on state trunk highways in congested travel areas which will go into effect Memorial Day, May 30th. The restriction, which will continue in effect through the second Sunday in September, prohibits commercial vehicles of more than one ton from operating within 35 miles of cities of the first class, Minneapolis, St. Paul and Duluth, from 9:00 A. M. until midnight, on Sundays and holidays. The ban does not apply however, to certain vehicles exempted by law, namely commercial vehicles of one ton or less, farm trucks, emergency vehicles, motor vehicle repair cars, highway construction equipment, and vehicles for transporting livestock, dairy and poultry products, newspapers, fresh bakery goods, ice, non-intoxicating beverages, or other perishable products.

MINNESOTA HAS ITS OWN PEACH ORCHARD

Grand Meadow—Whether or not they will survive in this section of "eight months of winter and four months of poor sleighing" is a question but for this summer, at least, the E. E. Kelley farm near Grand Meadow will be graced with a peach orchard numbering forty trees. It seems the Kelley family were canning peaches last summer and a large number of pits were thrown in the back yard with the result that the pits sprouted in the rich Minnesota soil and now the Kelleys have a thriving peach orchard on their hands whether they like it or not.

'Firewater' Origin

The word "firewater" had its origin among the Indians. Liquor was thus called by them, not because it appeared to burn the throat as it was swallowed, but due to the fact that when they spilled some of it on the fire its alcoholic content caused it to burst into a blue flame.

WORLD WAR BUDDIES MEET AFTER 23 YEARS

Duluth—A reunion, which brot back many vivid memories to both parties concerned, occurred recently at Duluth between Peter C. Ward, and Clarence E. Dougherty, Park Falls, Wisconsin, who, on impulse, called the former while on a trip to Duluth. The two vets, members of the 96th company, Sixth regiment, U. S. Marines in 1917-18, shared the same bunkhouse at Quantic, Va., went overseas together in February, 1918, and shared a thrilling experience together during one of the most spectacular battles of the war, the battle of Mount Blanc ridge, when they, together, brought 11 German prisoners across the battlefield back to the American reserve lines.

Live Wireworms

RECREATION HIGHLIGHTS

During the summer months several changes will be made in the recreation activities offered by the WPA-City Recreation program. Greater emphasis is to be placed on out-door events.

Puppet shows, held weekly during the school year, will be produced once a month during the summer season. Shows will be given on the following dates: June 19th, July 17th, and August 21st. The final weekly show of the year will be held this afternoon in the arena puppet theatre at 4:20 o'clock. "The Tale of Peter Rabbit" and "Nicodemus and His Houn' Dog" are scheduled for today. Everyone is invited to attend the free shows.

Camp Day for young boys and girls, which was very successful last year, will again be a feature of the summer program. Under the guidance of Camille Dostal, the groups leave the arena each Wednesday during the summer and spend eight hours picnicing, playing games, etc. All those interested in Camp Day are urged to get in touch with Camille Dostal at the arena for further details. Puppet activities, except for shows, will continue as usual in the arena.

Swimming, baseball, softball, and other playground activities will be major parts of the summer program. St. Bernard's, Northrop, Tindolph, and East-side playgrounds offer a wide variety of athletic activities.

1st Camp Day to be Wednesday, June 4

On June 4, Camille Dostal will have the first camp day of this season, which will be conducted similar to those of the past two seasons. Children will meet at the arena by 10 o'clock and will bring their own food and drink for the day. These camp days will be conducted every Wednesday throughout the summer, and will last for eight hours. All children are invited.

ANOTHER MILLION YOUNG MEN WILL REGISTER JULY 1

Those Reaching Age of 21 Since October 16 to be Listed for Draft

Approximately 1,000,000 young men who have become 21 years old since October 16 or will reach that age in the next five weeks were ordered by President Roosevelt Monday to register on July 1 for possible military training.

The registration will be conducted by the selective service system's 6,500 boards throughout the country and the new men signed up in each area are expected to be put at the bottom of their local draft lists in an order of priority among themselves to be determined by a new national lottery.

Some of those who have become 21 since the first group of 16,500,000 men was signed up on October 16 already have registered and volunteered for a year of training. A provision of the draft law allows voluntary service by men 18 to 21.

The July 1 date was chosen, it was understood, in order that men registering them would have time to find out before fall whether or not they might expect to be called for duty. This would permit them to plan ahead for their fall and winter work or educational schedules.

Mines on Iron Range Ship Vastly Increased Quantities of Iron Ore

Establishing a new record for state-owned mines for the month of April, 1,600,000 tons of iron ore were produced as compared with 132,000 tons in 1940 and 892,000 tons in 1937, the year when production was the highest in the history of the state.

Forty per cent of the ore mined in April was low grade ore which had to be concentrated before being shipped, according to Ray D. Nolan, director of the division of lands and minerals, Minnesota department of conservation.

Shipments from the Lake Superior district to lower lake ports established a new record for the month of April of 6,918,914 tons, as compared with the previous high record for this month of 3,770,550 tons and the April, 1940 shipments of 464,669 tons.

Battle to Save Mothers Not Yet Won, Says Doctors

The hardest work is just ahead, the Minnesota State Medical association's committee on public health education, declared in a resume issued today, of gains already made in saving of lives of mothers and babies in Minnesota.

There is reason to believe, from fragmentary evidence available, that one mother in ten died from septic infection alone, in 1850 in Minnesota, the doctors say in this bulletin. Today the rate is only 2.2 in every 1,000 pregnant mothers.

This reduction is the result of increased knowledge of disease control, of constantly improving medical and hospital service, and of better public information about the need for care. To reduce the rate still further, the same activities will have to go on more intensively than before, the doctors declare.

THIEF STEALS BEDDING FROM SLEEPING MAN

Verndale—At 3 A. M. on a recent chilly Sunday morning at Sartell, Ronnie Sheeter was sleeping peacefully on his bed on the front porch when he suddenly felt the double blanket and two quilts snatched from his bed by a man who disappeared off the porch and into his car awaiting on the highway before Sheeter was fully awake. Jumping out of bed, he yelled at the thief to bring back his blankets but the only response he got was "we're camping out and we need 'em;"—which seemed to settle the whole thing.

MATTRESS MAKERS BUSY AT HIGHLANDING

Mattress makers were busy at Highlanding Saturday when the Times photographer stopped in for a little first hand information on how a good mattress should be put together. First step is to fluff the 50 lbs. of cotton and build it up, mattress size, as pictured above. In the picture are Mrs. William Vaughan and Mr. and Mrs. Peder Refsness.

Next step is to pack the cotton into the tick. This is done by using boards to compress the cotton and hold it together while the tick is slipped over from one end. In the above picture Mr. and Mrs. Nels Anderson and Mrs. Ole Dahle, assisted by Henry Paulson, supervisor, show us how it should be done.

Just about ready to remove the boards is this group left to right, Alfred Thoreson, Mrs. Ole Dahle, Mrs. Alfred Thoreson and Henry Paulson.

And here Mr. and Mrs. Oscar Thoreson are putting the finishing touches to the fine mattress they are just completing.

Growing With Your Child

Helps and Hindrances

A group of young people recently listed some of the things that they thought had facilitated or hindered their adjustment at adolescence. Their comments proved so interesting that I am going to list some of them, because I believe thoughtful parents will welcome knowing some of these things that deeply affect children. On the side of "hindrances" to social adjustment are such items as these:

I was too dependent on my twin sister, always tended to let her make the decisions.

I lived too far from school to take part in activities after school hours.

My parents never discussed any aspect of sex with us, and I was afraid to go to them with questions.

My older sister was always criticizing me.

Being "the principal's daughter" in a poor, backward community kept me from having normal social contacts.

There was much distressing dissension between my parents.

My parents built a high, protective wall around me, so that I was unable to do many of the things my friends did.

My father having died, my mother was too dependent on me for companionship.

I suffered terribly because I was so fat. Nicknames such as "[illegible]" and "[illegible]" made me very sensitive.

My tendency to blush was frequently commented on.

Now for the things that these adolescents recall as having been helpful:

Being allowed to join the Girl Scouts made me a different person. I was an only child, and had suffered from loneliness.

An aunt who understood me was a wonderful help, because she aided me in understanding my problems, and overcoming my worries about my appearance.

I was the youngest of five children, and my parents had learned by the time I came along to be broad-minded and tolerant. They trusted me, and weren't always setting up prohibitions.

Joining a dancing class, and learning to feel poised and at ease in social situations, through acquiring bodily control, was a great help.

The traveling which I did was a great asset in making me feel competent and well-adjusted.

The experience I got in learning to manage a household, when my mother was ill, gave me a sense of being useful and adequate.

My parents were very socially inclined, and did lots of entertaining, which taught me how to meet and converse with people.

An amusement room where we could bring our friends is one of my happiest memories of adolescence.

Having several brothers and sisters helped me to know how to get along with people.

I was given a great deal of independence, and taught to think problems through and make my own decisions.

Having lessons in speech, and getting a part in the class play as a result, helped me to overcome timidity and shyness.

John Brandt and R. A. Trovatten Will be Main Speakers

John Brandt, president of Land O'Lakes Creameries, and R. A. Trovatten, state commissioner of agriculture, will be the principal speakers at the 14th annual Marshall county creamery picnic to be held Sunday, June 8, at Middle River state park, located midway between Newfolden and Argyle.

The platform program will get under way at 1:30 with the invocation by Rev. G. T. L. Bergee of Middle River. Musical selections will include songs by the Argyle high school quartet, Miss Rae Engen of Warren, Alvarado North Star Singers, Miss Marjorie Aamot of Warren, and Miss Gylfia Anderson of Argyle.

Refreshments will be supplied by stands on the grounds as well as by the state refectory. Horseshoe pitching will continue thruout the day, and the grounds will be patrolled by the Holt Boy Scout troop.

Warroad Will be Site of $146,000 Rural Electric Power Generating Plant

At a meeting of the Power Board of the Roseau, Lake of the Woods and Koochiching counties REA organizations Tuesday evening of last week at Baudette, decision was taken to change the site of the power plant for the three-county set-up from Roosevelt to Warroad.

The Roosevelt site was voted at a meeting of the board some time ago, but on reconsideration of the set-up following recommendations by the engineers by reason of the center of electric load, Warroad was given the final decision. This has been approved by the governmental agency having the final approval to make.

The Warroad plant will be big enough to house a 5-unit plant. Only three units will be installed at this time. A one-unit auxiliary plant will be constructed at Littlefork in Koochiching county.

The estimated cost of the new plant is $146,000.

Doctors Note 100 Years of Practice in State

Saving the lives of mothers and babies and protecting the babies from the disease scourges that once took the lives of half of them before they were five years old, is the greatest contribution of medical science in the last hundred years, the Minnesota State Medical association's committee on public health education declared in a review of accomplishments, today.

The review was occasioned by the fact that the association will celebrate one hundred years of medicine since the coming of the first civilian practitioner of medicine to Minnesota in May, 1841, when the 88th annual session of the Minnesota State Medical Association meets in St. Paul May 26, 27 and 28.

HAS WARBLING MOUSE IN NEW ULM HOME

New Ulm—Because he advertised the fact that he had succeeded in capturing a singing mouse", Brownie Minnick of New Ulm says now he'll either have to get rid of the mouse or go without meals, so busy are he and his wife kept opening and closing doors for the many curious friends and acquaintances who have filled his home since the animals capture. The mouse, now doing from 20 to 30 concerts a day, is kept in a dark closet and upon being brought out into the light, starts warbling, hitting high notes first, then low, and finishing up with warbles and trills in intermediary notes. Its singing resembles that of a canary more closely than anything else.

HAIL BIGGER'N BASEBALLS —AND PITCHED HARD!

Redwood Falls — Hogs' backs were broken, small buildings were destroyed and chickens roosting in the trees were pounded to death in the hail storm which centered around Franklin, May 21. Chris Melde of Franklin preserved several in his ice box, one measuring a little more than 12 inches in circumference when it was picked up. Dr. W. K. Bilings weighed one on a baby scale at Franklin which came to three-quarters of a pound and Arnold Foss picked up three on the street which filled his felt hat.

NATIONAL EMERGENCY

President Roosevelt has proclaimed a condition of National Emergency which puts our country on a war footing and gives to our government extraordinary powers. In his fireside chat in which he announced his proclamation, the President reviewed past developments and outlined quite clearly, and firmly, our future course. He served notice on capital and labor that differences would have to be submitted to established mediation boards and that, in the defense industries, the government would expect all parties to the controversies to abide by the decisions of such boards. He served notice on the dictators that our country would give all possible aid to the countries that are resisting their aggressions and that we would take all necessary steps to assure safe delivery of our supplies. That, in brief, sums up the content of an address that was heard 'round the world and which will go into the archives as another document of great historical importance.

Nothing the President said came as a surprise. It was the kind of a speech the country had every reason to expect. The public was prepared for it. By enactment of the lease-lend bill Congress had already declared war. Passage of the ship seizure act further established our position as an active enemy of the aggressors. The President's speech did not change our position in relation to the warring nations of the world. It merely clarified it for any who might still have been in doubt.

To what extent the government will exercise its special powers under the National Emergency status probably will depend on developments. It is to be expected that efforts to curb the activities of subversive elements will be greatly increased. In our country today there is a sincere and well meaning minority that is not in accord with present national policy. There is also a minority group that is not well intentioned, that seeks to create dissension among us for the deliberate purpose of destroying our government and delivering us to the enemy. It is not always an easy matter to distinguish between the sincere dissenters and the betrayers. To guard ourselves from the Quislings it may be necessary to curb temporarily some of our personal liberties but it is not likely that extreme measures will be resorted to.

Now that a national emergency exists and has been officially proclaimed, loyal citizens will adjust themselves to whatever conditions the needs of the nation may require. As a nation at war, the first and most important task confronting us is to win the war. To lose the war means slavery. We will not win the war by half-hearted measures. By united effort we cannot lose.

THE CITY OF BEAUTIFUL ALLEYS?

Subject of discussion at the Rotary Club luncheon Tuesday noon was city beautification. Members expressed pride in general appearance of the community. Homes are being kept up. Yards are receiving a great deal of attention. The progress of recent years has been very satisfactory. Still in need of special attention, they agreed, are the alleys. Many of our alleys are lined with unsightly outbuildings that detract greatly from the appearance of otherwise well groomed neighborhoods. Something should be done about it. Just what should be done was not decided.

Much of the credit for what already has been accomplished in improving the appearance of our residence districts probably should go to an organization that was active here several years ago, known as the Yard and Garden Club, or something like that. This organization, as we recall it, sponsored several annual contests, awarding prizes, or at least recognition, to the families that made the greatest improvement to the appearance of their yards. Only a comparatively few people entered actively into the competition. The important benefit was an indirect one, the result of the large number of unofficial contests that developed among neighbors. Our people became conscious of the appearance of their homes and a voluntary effort, prompted by a wholesome spirit of neighborly rivalry, has brought excellent results.

Perhaps a satisfactory solution to the alley problem could be found in much the same way. By organized effort we could be made alley conscious and citizens making notable contributions to alley beautification by the removal or improvement of unsightly outbuildings would be rewarded by community appreciation. The Times will be glad to co-operate with any organization that will give direction to a campaign to make Thief River Falls the city of beautiful alleys.

Young men and young women — don't pay out money for special courses of instruction that lead to government jobs until you are sure the organization that offers you this instruction is a reputable one and able to make good its promises. Many such courses are now being offered with glowing promises of fat salaries to graduates. As a rule the greater the promises, the less chance there is for the promises being fulfilled. Before you invest—investigate.

Britain's loss of the battleship Hood would have been discouraging indeed if the Bismark had made a successful escape. As it turned out, the battle of the sea giants proved to be an expensive engagement for the Nazis. Britain can afford to lose ship for ship in the struggle to control the seas, while the loss of a battleship is a serious set-back for Hitler.

That Hitler will take the island of Crete can be accepted as a foregone conclusion. Having started the attack with a heavy concentration of air power, to turn back without accomplishing his purpose would mean a loss of prestige that might have far reaching consequences more serious to him than the slaughter of a few of his divisions. He already has paid a terrific price in men and equipment. The campaign that was scheduled to be completed in two days has now lasted more than a week. Former Resident Dies at Badger Saturday

Mr. and Mrs. John E. Havel, son Cyril, and daughter, Martha, were in Badger Tuesday where they attended the funeral of Mrs. Havel's father, Frank Lubinski, Sr., who passed away there Saturday at the age of 87. The deceased was well known in this community, having lived here for about eight years during which time he was section foreman of the Thief River Falls-Goodridge electric railway. He retired about 15 years ago and has since lived in Badger. He had been in poor health for the past five years and finally succumbed to the infirmities of old age. He is survived by his wife, two sons, and seven daughters. Also surviving are 37 grandchildren and 17 great-grandchildren.

Minnesota Ranks Third in Turkey Production

Two-thirds of the nation's turkeys are grown in 10 states—and four of those 10 are in the northwest, the U. S. census bureau reported in Washington.

The four, and their turkey production in 1940 are: Minnesota, with 2,508,830; Iowa, 1,436,236; North Dakota, 1,408,652, and South Dakota, 1,120,206. They rank third, sixth, eighth and tenth, respectively, among all states.

Total turkey production last year was nearly 28,000,000.

Minnesota was listed with Wisconsin and Iowa as among the 10 largest duck-producing states.

OWNS OLD TYPEWRITER; ONE OF FIRST MADE

Milaca—O. E. Oslund of Milaca is the owner of one of the first typewriters to be manufactured in the United States and it makes a striking comparison with the streamlined models of today. Patented in 1881, the machine is 60 years old and has been in Mr. Oslund's possession for 45 years. The paper is put in at the bottom of the machine and by moving an arrow on the dial and pressing down on the dial mechanism, a letter is transmitted by a rubber stamp to the paper.

WOODCHUCK TRAPS SELF IN TIN CAN

—Farmington—Driving east from Farmington on Highway 50, C. H. Gelder of Farmington noticed a big brown animal lumbering aimlessly along the right side of the pavement with its head jammed in a tin can. Stopping to release the too curious or too hungry animal, Gelder found it impossible and gave the woodchuck a ride as far as Eagantown where he secured a pair of pliers and bent the rim of the can to release the animal's ears which were securely lodged behind the rim. Free once more, Mr. Woodchuck will probably "size up" a tin can for a long time before trying to get his dinner out of it again.

1913 FORD MAKES 250 MILE JOURNEY SAFELY

Duluth—Barney Oldfield might have been daring but chances are he'd think twice before doing what Robert Teevans, 62, New Ulm (Minn.) did Tuesday and Wednesday of last week. In his 1913 Ford, Teevans, in his ancient car, which he bought two years ago from a farmer "to save walking to town", made the 250 mile trip from New Ulm to Duluth in two hops, stopping over at Rush City. Only once did "she balk" and then it was just a cantankerous timer that was fixed in a jiffy for 35c which, incidentally, is the sum total of money spent on repairs for the car since he bought it.

AUTO HITS POLE; CRIPPLES VILLAGE

Not so, however, in the case of the automobile which hit a wooden transmission pole in New Market village recently. As a result, the village was without telephone service for several days, without electric service for several hours, the city water service was temporarily put out of commission when the car careened off the pole and hit a water hydrant, the car was rather badly damaged and the driver himself received several cuts and bruises.

In Memoriam

In memory of our beloved son, brother and uncle who passed away one and year ago May 27:

One year has passed dear Arthur,
Since you were called away.
How well do we remember
That sad and weary day.
You suffered much, you murmured not
We watched you day by day.
We cried and prayed that your life
Would not be taken away.
Our lips cannot tell how we miss you.
Our hearts cannot tell what to say,
God alone knows how we miss you
In a home that is lonesome today.

CHILLY WEATHER DISRUPTS D-BALL GAMES PAST WEEK

Red Lake Falls and Land O' Lakes Winners of Past Week's Games

TRI-COUNTY LEAGUE

Land O'Lakes	2	0	1.000
Harts Stores	1	0	1.000
Red Lake Falls	1	0	1.000
Bridgeman's	1	1	.500
Kiewel's	0	1	.000
Viking	0	1	.000
C. C. C.	0	0	.000
N. Y. A.	0	1	.000

Results of week's games:
May 22, Red Lake Falls, 4; Viking, 2.
May 26th, Land O' Lakes, 13; Bridgeman's 7.
Games this week:
May 29th, Red Lake Falls vs. C. C. C.
June 2nd, Land O'Lakes vs N. Y. A.
June 3rd, Kiewel's vs. Red Lake Falls.
June 4th, Bridgeman's vs. Harts.
June 5th, Viking vs. C. C. C.

Rain and cold weather disrupted the week's diamondball schedule, with the result that only two league games were played; Red Lake Falls defeating Viking, 4 to 2, last Thursday night; and Land O'Lakes trouncing Bridgeman's, 13 to 7, in a game played Monday night.

Red Lake Falls, 4; Viking 2.

Thursday night's game saw a young and scrappy Viking team drop a 4 to 2 decision to the Red Lake Falls club. Don Gullickson and Ray Kitzro did the pitching for the winners, with the left-handed Jimmy Ridge doing the catching; while the veteran Gilbert Holden hurled for Viking with Alex Krohn doing the receiving. The game's high-light was a diving stop of hard-hit ball by Red Lake Falls' third-baseman Gregg Poullot, and his recovery in time to throw the runner out at first.

Land O'Lakes, 13; Bridgeman's, 7.

In the week's "crucial" game Walt Larson's Land O'Lakes team, taking advantage of erratic play by Bridgeman's, and with Bill Gray lacking control of his fast ball, won a fairly easy 13 to 7 game. Gray's wildness walked in a couple of Land O'Lakes runs, and he wild-pitched a couple more scores across the rubber; but he did collect some strikeouts, getting Woody Almquist twice.

N. W. School Alumni to Stage Reunion June 28

Alumni of the Northwest School of Agriculture at Crookston have been called by Howard Balk of Bagley, president of the Association, to meet for their annual reunion on Saturday, June 28, at the school. President Balk states, "Alumni of all classes are expected to be present; however, the classes observing the five-year reunion include classes of 1911, 1916, 1921, 1926, 1931, and 1936. Elaborate plans are being made by the class of 1916 to properly observe their silver anniversary. A committee, consisting of O. A. Flaat and Herman Skyberg of Fisher, and Paul Engelstad of Thief River Falls, from the class of 1916, is preparing a special anniversary booklet. A full program of sports, entertainment, class get-togethers, business sessions, and ball have been arranged for the afternoon and evening.

Football for the Junior High School

Supt. Morris Bye announced that about 700 dollars worth of athletic equipment has been ordered for the junior high school. According to present plans the youngsters are going to be given training in football, and included in this equipment order are helmets, shoulder pads, sweaters, etc., and all the paraphernalia to outfit a couple of football teams. I think that's going to be a good investment. These youngsters play football anyway and when they are outfitted in regular uniforms, with pads and helmets, the risk of injuries will be greatly reduced.

The boys will play their games on an intra-mural basis, with a couple of games a week. That is, if the expected number of young players turn out, a squad of 50 or 60 players.

Scoop

I have it on reliable information (from Chuck Dostal, and he's fairly reliable), that Ferdinand "Doc" Elstad, city recreational supervisor, is to be married on Saturday. The girl's name, after Saturday, will be Mrs. Ferdinand Elstad. I know that something tragic like this would happen to "Doc" after he picked the Land O'Lakes to win the D-ball championship.

Baseball Team Challenged

I wonder how much solid substance there is to that challenge being shoved at the ball team. Maybe it is only another of these Saturday night rumors. But it is reported that Chuck Herron is organizing a team of old-timers, and that a week from Thursday, in a twilight game, will play the local ball team with Louie De Cremer as umpire. Chuck is supposed to have signed up such old-time stars as Joe LaBoe, Gunder Grovum (who is slated to pitch), Ardell Robinson, Ole Ness, Pickerel Nelson, Oscar Cerny, Orvis Olen, Jack Dempster, Halbert Evenstad, and others.

But I'll wager that the ball team, with Lenny Helquist or Wally DuChamp pitching, could give these old timers six outs an inning and still beat them by about a dozen runs, in a seven inning game.

He Nearly Won the Shoes

Mrs. Morris Bye got quite a shock when her young son Billy shot an 89 in the high school golf tournament held at Bemidji over the week-end, and won second place. You see, Mrs. Bye, thinking that Billy, who's an eighth-grader, wouldn't have much chance in high-school competition, promised that she would buy Billy a pair of golf shoes if he won. And Bill shot an 89 for second place, a Bemidji golfer winning with an 86. Golfers from Crookston, Bemidji, Mahnomen, Thief River Falls, Fosston, and Blackduck, participated in the meet.

Fish and Fishing

Sig Salveson, fishing at Waskish with Henry Boe and Leonard Hanson, pulled in a 16 pound northern pike. That's the largest fish I've seen this year. And Sig caught this pike, out in Red lake off the mouth of Tamarack river, on a prescott spinner baited with a minnow. Quite a number of local anglers have been fishing at Waskish and they all report having good luck.

Judge Lincoln Arnold, John Lind, Herb Jung, and Albert Swanson returned Sunday from their Cameron lake, Ontario, canoe trip. They reported that fishing was slow, especially the lake trout fishing, but they did connect with some muskies, which had to be released as the season on muskies doesn't open until July 1st. Albert caught a musky that they estimated would have weighed about twenty pounds.

Jesse DuChamp, Streamline Olson, John "Country" Jaranson, and John "City" Jaranson, were at Wheeler's Point on Sunday. It was a pretty large Sunday for the boys, according to the reports, Jesse becoming frightened when the waves got so high that they formed bubbles, and "Country John" sitting in the bow of the boat breaking up these bubbles so Jay wouldn't be so scared.

Dad and I and Eddie Nelson were at the Point on Saturday, and we had excellent fishing. It's difficult to convince me that there's any better early season walleyed pike water than Rainy River and the Lake of the Woods. A limit catch was made in an hour, and the walleyes were of fair size, about a couple of pounds apiece. I was in my usual mid-season form, snagged the anchor chain and thought I had caught a record-breaker.

Sportsmen's Club Will Meet Tuesday Evening

Colored motion pictures from the state conservation department will be presented at the June session of the Pennington County Sportsmen's club next Tuesday evening, June 3, in the Civic and Commerce association rooms. The movies will show scenes in connection with pike propagation, as well as upland game birds at the Carlos Avery game farm. Lunch will be served at the close of the evening.

Worthless Check Writer Fined in Court Thursday

Edwin Nelson, living west of Trail, who was taken into custody recently by Sheriff Arthur Rambeck on a charge of having issued worthless checks, appeared in municipal court last Thursday. He was fined $10 and costs, further penalties being withheld when the amount of the checks, aggregating $17, was made good.

9TH DIST. LEGION JUNIOR BASEBALL SCHEDULE LISTED

Locals Will Open Schedule at East Grand Forks Wednesday

J. N. Herbranson, Warren, chairman of the American Legion's Ninth District junior baseball committee, announced the playing schedule that will be followed by the teams from Thief River Falls, Grand Forks, East Grand Forks, and Warren. All games are to be played at 6:15 p. m.

With the opening of the season scheduled for the East Grand Forks park on June 4th, coaches Charles Dostal and Ferd Elstad of the local junior team, stated that intensive practice drills would begin this week. The local team will be handicapped considerably by the Legion's age limit rule, which restricts play to all boys born after Jan. 1st, 1924.

This rule will eliminate such fine junior baseball players as Eddie Flasch, Babe Peterson, and Gordy Reierson. A number of the boys that are eligible for the team—Doug Snelling, Bob Baker, Marlin Dorn, and others—will be enrolling for three months of service with the CCC. Coach Dostal will have to build his team around such veteran junior baseball players as Don Berg, Lincoln and Bob Carlson, Noly Ness and Lenny Lorentson.

The schedule:

June 4th, East Grand Forks vs. Warren at Warren. Thief River Falls vs. Grand Forks, at E. G. F.

June 11th, East Grand Forks vs Grand Forks, at E. G. F. Warren vs. Thief River Falls at T. R. F.

Department Cracks Down on Fish Law Violators

"The department of conservation served notice on fishing law violators last week. A series of "road blockades" on routes leading to popular fishing areas resulted in scores of arrests and convictions. As arrest reports arrived daily, officials expressed belief that more than 50 apprehensions have been obtained as a result of the opening drive.

Most violations concerned possession of more than the legal limit. Other offenses included failure to have licenses and transportation of steaked or dressed fish.

The department warned that a new law prohibits the carrying or transportation of dressed fish. Entrails and gills alone may be removed.

PITCHERS DUEL AT ST. HILAIRE IS WON BY PLUMMER NINE

Visitors Win Hard-Fought Contest Sunday by 3-2 Score

An unearned run in the ninth inning, when third-baseman Phil Ewing's high throw to first base on Ray Ferras' sacrifice sent Fortier, who had walked, around to third base from where he scored on Dorbas' infield roller, broke up a pitcher's duel between St. Hilaire's Woody Almquist and Plummer's Northern league importation Joe Dorbas, and gave Plummer a 3 to 2 decision over St. Hilaire in a well-played game on the latter's diamond Sunday.

Two doubles, by Fremling and Karlstad, gave Plummer a tally in the opening inning, but St. Hilaire knotted the count in their half of the inning when Swanson scored on Ste. Marie's error on Karlstad's throw to third base, Swanson having gotten on base on Schoenauer's error.

After Plummer had scored in the first half of the sixth, Woody Almquist, first man to bat for St. Hilaire in their half of the sixth, poled out a long homerun to centerfield, the ball rolling into the box-elder grove near the high school building.

Lefty Fremling nearly had a homerun on his hit in the fourth inning, when his long, high drive to right field landed on the highway and bounced into the field on the far side of the road; but Lefty was held to a triple.

Local Ball Club May Join "Little Six" Loop

Garfield Bakke, of the Middle River CCC, president of the "Little Six" league, will call a meeting this week of the league directors to discuss entrance of Thief River Falls and St. Hilaire as league members, and increasing the league to an eight team circuit. The failure of Warren to complete the organization of a team caused the collapse in the plans for the continuation of the Northern Minnesota baseball league.

Bemidji high school's golf team, composed of Jack Mushberger, Jack Vinji, Dan Gainey, and Bob Bull, and coached by Glen Barnum, copped the Eighth region golf championship by posting a three-man combination score of 269 in the regional golf tournament played over the Bemidji Town and Country course Saturday.

The tournament, which was an 18 hole medal play affair, had teams from Crookston, Thief River Falls, Bemidji, Mahnomen, Fosston, and Blackduck; with Crookston's 285 total winning runner-up honors, while Thief River Falls totaled 300 for third place, Mahnomen in fourth place with 314 points, Blackduck in fifth place with 319 points, and Fosston in sixth place with 340 points.

Bemidji's Jack Mushberger won medalist honors with an 86, while young Billy Bye of Thief River Falls earned second place with an 89. Bob Bull of Bemidji a 91 for third place.

Representing the Prowlers in the meet, in addition to Billy Bye, were James Dokken and Roscoe Stensrud.

Golf Team to be Picked to Represent Local Club in Bemidji Tournament

The tournament committee of the local golf club will complete the selection of the team that will represent the local club in the opening matches of the Polar golf league, which is scheduled to be played over the Bemidji Town and Country course, Sunday, June 1st. The local team will be handicapped considerably by the absence of Jimmy Nordine and Vic Jung, the club's top-ranking players, who are attending Gustavus Adolphus and Minnesota, respectively. Jimmy and Vic are not expected to return from school in time for the matches next Sunday.

CITES FIGURES ON OPERATING COSTS IN STATE

Citizens Tax Relief Association Makes Report in St. Paul

PEAK WAS ATTAINED IN '37-8 FISCAL YEAR

Expenditures for Last Fiscal Year Aggregated $92,571,210

Reductions made in the last two years have brought expenditures for current operations of the state government down approximately $13,000,000 from the peak reached in the 1937-38 fiscal year, officials of the Citizens' Tax Relief Association reported in St. Paul this week after a new survey of state expenses.

High point reached was $105,664,446 in the fiscal year beginning July 1st, 1937, and ending June 30th, 1938, John F. Scott, president of the association, said. During the last fiscal year, running from July 1st, 1939, to June 30th, 1940, the total was $92,571,210.

"With many discussions of state finances based on partial information and false reports current," Scott said, "we have felt it worthwhile to re-examine state expenditures as a whole for recent years and are glad to present this report showing what has happened. Public officials who affect savings can expect many attacks on the part of politicians, who are prone to take a few figures and try to make them appear to be the whole truth. We are glad to report in the interest of taxpayers what really has happened, not in one fund, but in state expenditures as a whole."

Eliminating self-supporting activities and all other items that do not represent an expense to the state, Mr. Scott said, the examination which the association has made shows that expenditures for current operations, financed from revenue obtained from the taxpayer or charged against him through borrowing, for the last four years runs as follows:

For fiscal year of 1936-1937 (Under Olson, Petersen and Benson)	$97,630,309
For fiscal year of 1937-1938 (All under Benson)	$105,664,446
For fiscal year of 1938-1939 (6 months, Benson; 6 months, Stassen)	$97,842,071
For fiscal year of 1939-1940 (All under Stassen)	$92,571,210

Additional expenditures were required in these years to pay off old debt incurred in previous years as follows: 1936-1937, $7,310,924; 1937-1938, $6,805,121; 1938-1939, $18,537,442, and 1939-40, $12,533,132.

U. S. Army Is Seeking Enlistments in Third Infantry and Air Corps

An intensive recruiting drive throughout Minnesota and North and South Dakota for three-year enlistments in the 3rd Infantry and an unlimited number of Air Corps men will be started June 1, it was announced today by Colonel Irving M. Madison, recruiting officer for the Minnesota district. A recruiting mobile trailer unit will be stationed at Brainerd from June 1st to 15th with a full complement of officers and enlisted men to conduct physical examinations and complete enlistments of these applicants. Substations to the enlisting station will be opened on May 26th by a recruiting sergeant at the post office of the following cities: Little Falls, Detroit Lakes, Bemidji, Aitkin, Ely, and Grand Rapids. To enlist in the regular army applicants must be over 18 and under 35 years of age, single, and of good moral character. Applicants for the Air Corps must have a high school education or pass an intelligence test, which some 8th grade students have mastered.

Charles Lindahl, Who Lived Here in Sawmill Days, Dies in Canada

Charles Lindahl, who had been employed in Thief River Falls during the sawmill days, succumbed May 15 to injuries sustained in an accident at Blind River, Ontario, where he was employed as foreman in the mill yard.

Death resulted from a severed leg artery suffered when Mr. Lindahl was hit by a plank that fell off two trucks that had collided. He passed away before reaching the hospital.

Born in Skane, Sweden, in 1881, he was brought to this country as an infant, and came to St. Hilaire in 1901 to be employed in the mill there and in this city. In 1907 he went to Bemidji, remaining there until 1928, when he was transferred to Blind River.

Mr. Lindahl is survived by his wife, three daughters and four sons. Also surviving are two sisters, Mrs. O. C. Peterson of Hazel and Mrs. Andrew Hanson of Thief River Falls; and one brother, William of this city.

NATIONAL WHEAT ACREAGE FOR 1942 CUT BY 7 MILLION

Prospective Carry-over of 500 Million Bushels Seen in 1942

A 1942 national wheat acreage allotment of 55 million acres was announced today by the Department of Agriculture, according to Carl R. Anderson chairman of the county AAA committee. This allotment, which is 7 million acres smaller than the 1941 allotment of 62 million acres, is part of the national wheat program designed to aid farmers in meeting the problems of export market, losses and mounting surplus.

With a prospective carryover of around 500 million bushels expected on July 1, 1942, the 1942 allotment has been established at the level of the 1939 allotment, the minimum allotment provided by the law. The allotment is adjusted each year so that with the prospective carryover it will provide wheat enough for normal domestic consumption, normal exports and at least a 30 per cent reserve. Officials point out that since the 55 million acre allotment is above the level necessary to provide that objective; above-normal reserves continue a definite part of the U. S. wheat situation for at least 2 or 3 years.

"America has about 1½ billion bushels of wheat in sight for the coming year," Administrator R. M. Evans of the AAA said. "This is enough wheat to last this country nearly two years. Clearly the job before wheat farmers is not to waste their soil and effort in needless overproduction, but to manage well the reserves we have. Along with acreage allotments and other features of the program, marketing quotas are provided by the farm program for orderly management of farm supplies, and wheat farmers will vote May 31 in a national referendum to decide whether they will use marketing quotas this year.

"The smaller allotment for 1942 in no way implies a retreat by the United States from the world wheat market. Our fight for a fair share of the world market continues and after the war will go forward with renewed vigor. We now have and will continue to have plenty of wheat from which to draw in meeting any world or domestic situation that may arise for some time to come."

Annual Check of Drivers Licenses in State Opens

An estimated 20,000 Minnesota motorists will have to show their driver's licenses to some state or local enforcement officer within the next 30 days, the state highway department predicted this week as the statewide driver's license checkup campaign got into full swing.

Approximately 36,000 driving permits have been checked so far this year by state highway patrolmen alone, before the campaign even started, and since January 1 they have made 95 arrests for driving without a license and issued 569 written warning tags to motorists whose licenses had been invalidated by a change of address or who failed to carry them in their possession.

Last year 209 motorists saved a total of $73.15, 35 cents apiece, by not buying a driver's license, but paid many times that amount in fines, and besides were barred from driving their cars. The 35 cent saving cost some of them the lost use of their cars for from 30 to 90 days, and 42 of these motorists were barred from the wheel for an entire year.

Our thanks should be as fervent for mercies received as our petitions for mercies sought.—Charles Simmons.

Twin City Area Boasts 911,077 Population

The population of the metropolitan district of Minneapolis-St. Paul on April 1, 1940 was 911,077, according to final figures from the sixteenth decennial census issued today by Acting Director Vergil D. Reed of the Bureau of the Census, Department of Commerce. This figure represents an increase of 78,819 persons, or 9.5 percent, over the 1930 population of 832,258. The population within the cities of Minneapolis and St. Paul in 1940 was 780,106, and that in the metropolitan district outside these cities was 130,971.

Auto Deaths in Nation up 16 Pct. Over 1940

The National Safety Council reports that the 8,110 killed in motor vehicle accidents in January, February, and March, exceeds that of a similar period in any other year. Furthermore, unless the present death rate drops, the 1941 traffic toll will reach 40,000, the greatest in the nation's history. In January, February, and March 1940, the number of traffic fatalities was only 6,990, the increase of this year over last year being 1,120, or 16 per cent.

WITH SOME TRAINING, POULTRYMEN COULD RETIRE

Benson—It happened recently on the Gilbert Fragodt farm about 15 miles southwest of Benson and opens added fields for poultry training which, if perfected, would allow many added hours of leisure for busy poultrymen. At any rate, a hen on the Fragodt farm, walked into the kitchen of the Fragodt home and laid an egg in—of all places—an egg crate!

SUMMER SESSION AT UNIVERSITY TO START JUNE 16

To Continue Until July 25; Second Term to Open July 28th

Keeping teacher training and teacher performance at the highest possible level is of greater importance during an emergency than even in normal times, according to T. A. H. Teeter, director of summer sessions at the University of Minnesota, to which several thousand teachers of all ranks and other students will go for additional training beginning June 16. The first summer session will continue until July 25, and the second will run from July 28 to August 29.

Influx of students from many states to attend summer school at Minnesota in recent years has made these summer sessions among the largest in the country. Minnesota's incomparable opportunities for week-end vacations or longer stays at the lakes after a term has finished add to the attractiveness of the two summer terms.

All departments of the University of Minnesota except law offer summer courses, the subjects being the equivalent of those taught in the winter, except that many special summer offerings are provided in the field of education. These cover such topics as supervision, administration, secondary school problems, problems of teaching the various subject matters, and the like. Minnesota also will conduct a "Workshop in Education," in which special school situations will be examined under actual working conditions and with the benefit of expert advice from experienced teachers.

A full program in the field of physical education and athletics has been arranged. Business, chemistry, engineering, agriculture and the medical-biological sciences are other areas in which complete offerings will be available.

Summer sessions at the University of Minnesota are made more attractive by an elaborate program of lectures, entertainments, field trips to places of industrial or historical interest, and the like."

Tomatoes Promoted to 1st Place in Minnesota '41 Vegetable Gardens

Tomatoes, Minnesota's health food, will be called on this year to play the leading role in the family food program which is being stressed as one of agriculture's most important contributions to national defense. Food and gardening specialists at University Farm say that tomatoes deserve to be called Minnesota's five-star garden special because they grow well in this climate, they yield abundantly, they are easily preserved for year-around use, they lend themselves to a wide variety of dishes, and they have a valuable contribution of vitamins and minerals.

Extra tomato plants in every rural garden is one goal of the campaign for more home-grown health foods being stressed this year by state and county leaders in the Minnesota Agricultural Extension Service. Twenty-five plants in the garden for every member of the family have been suggested. It is estimated that 25 plants under ordinary care will produce four bushels of fruit. This amount for each member of the family is desirable if full use is to be made of tomatoes both in summer and winter.

University Farm recommends the following varieties: early — Red River, Earliana, Bonny Best; midseason—Break O'Day, John Baer, Rutgers; late—Stone, Ponderosa, Marglobe.

Extension Folder 99, devoted entirely to growing, canning and utilizing tomatoes, has just been prepared by the Extension Service and supplied to the county extension offices all over the state. Copies may also be had by writing Bulletin Room, University Farm, St. Paul.

Rubbing Doesn't Help

Rubbing one eye to get a speck out of the other has no effect except to restrain one from rubbing the speck further into the eye which contains it.

April Traffic Deaths 18 Below a Year Ago; 58 Pct. Pedestrians

Eighteen fewer persons were killed in Minnesota traffic last month than during April of 1940—the month which stands as the grim reminder of the Shayton tragedy that claimed 12 lives and brought to Minnesota, despite its otherwise outstanding safety record, the inglorious distinction of the most disastrous passenger car collision in the nation's history.

Preliminary figures of the state highway department's safety division, based on incomplete accident reports, record 33 traffic fatalities for the April just past as compared to 51 in the same month a year ago.

This fatality figure is 10 less than the month's quota in the "budget of allowable deaths" of the Minnesota Editorial Association's "Save 100 Lives Campaign." But Highway officials warned that additional deaths may yet occur as a number of last month's traffic victims are in serious condition in hospitals throughout the state. With eight months of the safety campaign completed, lives saved are 17 over the "budget", but the heavy summer traffic season lies ahead.

Nineteen of the 33 April traffic fatalities, or approximately 48% were pedestrians, in itself an unusual record. But even more astounding to traffic safety experts was the fact that not one person, so far as preliminary reports indicate, was killed during the month in a *motor vehicle-motor vehicle collision*. Two of the victims were bicycle riders, three died in railroad collisions, six deaths were the result of motor vehicle non-collision accidents, and three were caused by motorists colliding with fixed objects.

Of the pedestrians killed, six were crossing streets or highways other than at intersections; two were walking on the wrong side of the road with vehicular traffic instead of to the left of the roadway facing traffic; one was crossing at an intersection against the signal, and one was a child playing in the roadway.

NINE INCHES HIGH IS MUSHROOM RECORD

New Ulm—With the mushroom season on in full swing, Thomas J. Kretsch of New Ulm is laying claim to having found the largest to date, his find being nine inches high with a three inch diameter at the top. He also found another which was seven inches high and approximately one and one-half inches in diameter at the stem.

STATE FAIR PLANS NEW HIGH RECORD WITH PRIZE LIST

Offers Premium Awards Totaling $146,602 in Event Opening Aug. 23

Premium awards totaling $146,602, highest in the 82-year history of the exposition, are offered for educational exhibits at the 1941 Minnesota state fair, August 23 to September 1, Raymond A. Lee, secretary, announced today.

Approval of the record prize list was voted by the board of managers in recognition of greatly increased activity in agriculture. The increase in premiums will further spur efforts toward production and point the way to greatly expanded exhibits at this year's fair.

The cattle, sheep and agricultural departments were singled out for special attention in working out the detailed list of classifications and prizes. The cattle show tops the list with an aggregate of $34,359, an increase of nearly $600 over the former high mark, with a large percentage for dairy breeds as a stimulant to the state's dairy industry which brings Minnesota an annual income of $150,000,000.

Other livestock premiums call for $28,183 in the horse division, $10,500 in swine show, and $4,162 in the sheep department. Poultry raisers will compete for $4,500 in awards.

The importance of carrying on a diversified 4-H Club work program, which includes several new projects, is reflected in the big sum of $25,000 set aside for boys and girls activities. Comprehensive demonstrations and exhibits will be possible this year in the newly completed 4-H club headquarters.

Greater stress is placed on agricultural and horticultural exhibits than heretofore. In the former department, $9,940 is being offered for outstanding displays of grains, grasses, corn and potatoes. In the latter division, a total of $5,700 is offered for prize-winning exhibits of fruits, flowers and vegetables.

Neighbor States Also Suffered from Damage to Highways in Spring

Minnesota and her northern midwest neighbors, as they swung into the farflung task of polishing up their trunk highway systems for the coming peak of summer motor travel, compared notes this week and found that they had all suffered in common from the ravages of the extremely severe and unusually widespread spring breakup.

Sharing with Minnesota the brunt of the road damage resulting from weather and soil-moisture conditions of the past winter and spring were the trunk highways of Wisconsin, Michigan, eastern North and South Dakota, and, to some degree, Iowa, although the latter escaped the worst of the break-up repair bills by virtue of the fact that this state was subject to less severe freezing temperatures and 6,778 miles of her 9,600 mile trunk system is paved.

Wisconsin, most similar to Minnesota in climate and soil conditions, reports 5,657 miles of her 10,338 mile state trunk highway system under load restrictions at some time this spring. This figure compares with 5,522 miles of Minnesota's 11,287 mile trunk system which required restrictions at the peak of the break-up season.

The Wisconsin state highway department reports that the 1941 break-up has been more damaging to roads and more disrupting to traffic than any other in the history of the state.

State Resorts Expect Big Memorial Day Trade

With many reporting more reservations on their registers than ever before at this time of the year, Minnesota tourist resort operators are expecting capacity business for the three-days Decoration Day holiday this week-end, according to Victor A. Johnston, director of the state tourist bureau. This is being looked upon as a logical sequence to the flying start Minnesota's tourist business had at the opening of the pike, pickerel and muskellunge fishing season on May 15. Everything now points to that more anglers were lured to Minnesota's 11,000 lakes on this occasion this year than at any previous opener.

DRIVE CAREFULLY ON MEMORIAL DAY, PATROL REQUESTS

Coming Week-end Holiday to Present Perils, Says State Office

A special warning to motorists and pedestrians of traffic dangers which will accompany the coming three-day Memorial Day week-end holiday, and a special appeal for exercise of extraordinary caution both in driving and walking on streets and highways, was issued this week by the state highway department.

The department pointed out that last year, for the first time in many years, not a single person was fatally hurt in traffic on Memorial Day. This unusual record highway safety officials attributed chiefly to the concentrated pre-holiday safety campaign of Minnesota newspapers, radio stations, and local safety groups, and the cooperative response of the travelling public.

But the sad part of the story, the highway department points out, was that after achieving a death-free holiday (Memorial Day fell on Thursday last year) eight traffic deaths occurred over the following week-end.

This year, with the holiday on Friday and many plants and offices closed on Saturday, the heaviest travel volume of the year is expected to pour out upon the rural highways to take advantage of the season's first good opportunity for family outings at one of Minnesota's countless lakes, streams, fishing camps and resorts.

Elden Rowe, chief of the state highway patrol, today warned motorists that every highway patrolman will be on duty for day and night service throughout the three-day period, and that traffic laws will be firmly enforced to protect the safety of the travelling public. Patrolmen will concentrate their attention on those highways where traffic is the heaviest.

"Reckless drivers, or any motorists, who endanger the lives of others by heedless violation of the traffic code will be taken off the road," Chief Rowe said. "We appeal for the full and attentive cooperation of every motorist and pedestrian to try to make this the safest Decoration Day week-end our state has ever had. Especially do we urge caution on the part of motorists, and of pleasure-bent youngsters and grown-ups alike, in the vicinity of lakes, resorts, bathing beaches and playgrounds.

"We would like to repeat, too, the old admonition to start early, allow plenty of time, and avoid haste, crowding or chance-taking in traffic.

"Have a good time. Enjoy the outing. But don't make the first fishing trip of the season the last one of a lifetime."

New Minnesota Trunk Highway Maps Ready

Minnesota's new 1941 state highway maps made their appearance May 1, fresh from the printers in five colors, front and back. Aside from the new color plate of Minnesota scenes on the reverse side of the map, three trunk highways appear this year with new route numbers. The sign posts along these highways also were changed virtually overnight, to appear along the affected highways simultaneously with the issuance of the new map. Trunk Highways Nos. 17 and 29 now become an extension of Trunk Highway No. 23, from New London to Beaver Creek, affording the state a new northeast south west diagonal highway from Duluth to the southwestern corner of the state. The former section of T. H. No. 23 from New London west to Benson becomes T. H. No. 17. T. H. No. 29 is done away with, for the present.

Elevator Fire Causes Heavy Loss at Lockhart

Fire of undetermined origin destroyed the St. Anthony and Dakota elevator at Lockhart last Wednesday afternoon, the structure burning in little more than an hour after the flames were first discovered.

Earlier this spring the home of the elevator manager, R. W. Wilkin, was destroyed by fire.

The Lockhart fire is the second elevator fire in that area in a week. A week earlier the Farmers' Cooperative elevator at Beltrami was destroyed.

L. E. Robinson, superintendent of the St. Anthony and Dakota line, said the fire at Lockhart started under the floor, apparently from a hot box, although the exact cause was not determined. He said it reached the cupola within a matter of minutes.

Contract Is Awarded on Kittson Road Project

Low bids totaling $355,969, on nine new trunk highway and secondary road construction projects in eight counties were announced this week by State Highway Commissioner M. J. Hoffmann. The projects will provide improvements on 45 miles of road, including 13.9 miles of bituminous surfacing, 15 miles of grading, and three bridges. The largest bridge job is an underpass on Thompson Hill at Duluth on T. H. 61 replacing the present dangerously inadequate structure carrying the highway beneath the D. M. & I. R. Ry tracks. The projects, by county, trunk highway, low bidding contractor and price bid include: Kittson county, T. H. 11, Stabilized aggregate base and bituminous surface treatment for 8.7 miles between Donaldson and 9 miles [illegible] P. C. Roth and Son of Brainerd, $39,162.

Memorial Day

In the little country churchyard Memorial day, so many of us have near and dear ones laid to rest in just such a little country churchyard.

On Memorial day, the traditional memory day for the dead, so many of us place our flowers on a dear one's grave. Perhaps for some of us the time has been short since a loved one passed on, and tears fall with the flowers so tenderly placed. For others time has healed the raw wound of grief, yet the hearts of many who place the wreaths of flowers on graves of loved ones long since gone. Memories carry them back to when such a dear one was here on earth.

Every year more graves are added to the ever increasing number. Young and old share the places of rest in the little country church yard.

The hour glass' ever sifting sands never stop. Next year, who knows, maybe the hands of some one who placed the wreaths this year, may be folded in silent sleep.

Memorial day, the day of silent memory when the resting places of the dead carry the living flowers of cherished thoughts in the little country church yard.

It happened one night—

Late at night, a fire in a private garage burned a section of telephone cable putting many telephone lines out of service. In a short time, a telephone repairman was busily at work splicing cable by lamplight so that service would be restored as soon as possible.

Nowadays, telephone service is more nearly trouble-free than ever before—and when trouble does happen, we often are able to make repairs before telephone users are aware of it.

Duluth Superintendent Delivers Inspiring Talk to Graduates

The spacious high school auditorium proved Thursday evening to be inadequate to accommodate the audience that assembled for Lincoln school commencement exercises, the largest class in the history, numbering 134 graduates, receiving diplomas, in addition to which 16 students in the teacher training department received certificates.

Dr. H. H. Eelkema, superintendent of schools at Duluth, who was introduced by Supt. Morris Bye, in charge of the exercises, delivered a well-thought-out and logical commencement address, interspersed with bits of humor.

Outlining the attributes essential to success in life, Dr. Eelkema listed emotional stability; adaptable growth, which enables the individual to profit by his experiences; wisdom in money matters; trustworthiness; a desire to give service; and a courteous, pleasing personality.

The program opened with the processional march by the Lincoln high school band, directed by Glendon E. Ahrs, other musical selections including numbers by the high school boys' octet and mixed chorus, both of which groups were directed by Miss Ruth E. Nelson.

Exceptionally well rendered were the brief addresses by Ardith Schultz, valedictorian of her class; and Elaine Powell and Jean Vielguth, co-salutatorians.

W. G. Claffy, principal, presented the members of the graduating class to Dr. A. E. Jacobson, president of the board of education, who conferred the diplomas after briefly discussing the privileges of citizenship under the American way of life. Mr. Bye conferred the teacher training certificates.

Several of the graduates were singled out for special honors. Robert J. Lund, in behalf of the American Legion post, presented the Legion citizenship award to James Skarstad, while for the Legion auxiliary Mrs. G. L. Biddick conferred a companion award on Ardith Burrell. Mr. Bye announced the name of Tom Carlisle would be inscribed on the Robert McGinn plaque in recognition of his achievements both as a student and athlete. Paul Senstad received the science award, while scholarships were presented to Ardith Schultz, Lloyd Alness and Joyce Kierk.

Mr. Bye stated that Ardith Burrell has the distinction of never having been absent from school nor tardy during all her years of attendance from kindergarten class thru high school.

The program closed with the recessional march, "Marche Noble," by the band.

Frank Govednik Presents Movies Depicting NYA Activities

At the Civic and Commerce association luncheon last Thursday noon, N. H. Holzknecht, chairman of the committee that arranged for the introduction of food stamps into Pennington county, gave a detailed outline of the method of operating the plan.

A request by T. J. Welsh for a contribution and for authorization to solicit local merchants for funds to defray the cost of sending delegates to the national Townsend convention in Buffalo, New York, was rejected. Without passing on the merits of the plan, it was pointed out that it is controversial in nature and does not come within the province of the association.

Frank Govednik, supervisor of the NYA resident school here, presented motion pictures depicting a wide variety of NYA activities in various parts of the state.

LEGION TO OFFER MOVIE FRIDAY AT CITY AUDITORIUM

Proceeds to Go Into Fund to Send High School Band to Winnipeg

"The Fight for Peace", a film offering a powerful argument against Fascism, will be presented in two showings at the municipal Auditorium Friday evening, June 6, under the auspices of Elmer J. Ecklund post of the American Legion.

Proceeds of the presentation will be used to finance a journey by the Lincoln high school band to Winnipeg late in June to attend the convention of the International War Veterans alliance. The band will leave Sunday, June 29, and will appear in the memorial parade that evening and the convention parade Monday evening, returning to Thief River Falls Tuesday, July 1.

An advance sale of tickets is being conducted by members of the Legion post with the cooperation of the band, which will also appear in a brief concert on the street at 6:30 as well as in the Auditorium preceding the movie show.

"The Fight for Peace" touches on historic highlights of the past 25 years, with particular emphasis on Fascism, which is shown to be the tool of imperialism, spreading thru the world by undeclared wars and destruction of cultural and scientific values. Scenes are taken mainly from newsreel shots, to which is added considerable original material.

RAIN HAMPERS MEMORIAL DAY PROGRAM HERE

Elks Park Rites Canceled; Services Conducted in Auditorium

G. P. JONES, BEMIDJI, GIVES MAIN ADDRESS

Urges Maintenance of This Nation as Citadel of Democracy

For the first time in a considerable number of years the weather man failed to cooperate in Memorial Day rites in this city, and a steady rainfall Friday necessitated the cancellation of the observance scheduled for the Elks park, the services being held instead in the municipal Auditorium.

Judge George P. Jones of Bemidji, who delivered the address, paid homage to those who died that the republic might live, and said their sacrifice constitutes a priceless heritage for those seeking to preserve our democracy. He urged that all citizens should unite in striving to maintain the nation's status as a citadel of democracy, abolishing all alien isms.

The program, over which Kern Olson presided as chairman, opened with selections by the municipal band directed by Vern Kelfenheim. Then came the advancement of the colors by Legion and auxiliary members, followed by Girl and Boy Scouts bearing wreaths.

The invocation was given by Rev. E. L. Tungseth, after which the Legion octet sang a selection, and Dr. A. R. Hulbert, Legion post adjutant, called the roll of departed veterans, a wreath being deposited as each name was read. W. G. Claffy gave a feeling tribute to the Unknown Soldier, and the program closed with the rendition of "The Star-Spangled Banner" by the band.

COUNCIL ACTS ON VARIETY OF CIVIC AFFAIRS

Order Paving in Alley West of Main av. as No Objectors Appear

VOTES $100 TOWARD COST OF FIREWORKS

Building Permits Approved for Three Substantial New Residences

The city council disposed of a variety of matters at an adjourned session Tuesday evening, which had been called as a hearing on the proposed paving of the alley west of Main av. and between Second and Third sts. No objectors appearing, the paving was ordered installed at once. Eliminated from the project was the proposed paving of the alley between the Auditorium and arena, this being considered unnecessary.

Roy Barzen, president of the park board, and L. W. Rullen, secretary of the Civic and Commerce association, which two groups again are sponsoring a fireworks display in the city the evening of July 4, were present to ask the council to share in the expense of the undertaking. The sum of $100 was appropriated, $50 more than a year ago.

Also discussed was the need of painting the sewage disposal plant building. The council was informed that the NYA would provide the labor if desired, as well as labor for landscaping the grounds. No action was taken on the painting job, pending receipt of recommendations from E. L. Lium of Grand Forks, who served as supervising engineer when the building was erected.

Included in building permits totaling in excess of $12,000 approved at the session were new residences to be erected by Ray Hartman on LaBree av. N. at an estimated cost of $4,000; Central Lumber company, Arnold av. between First and Second sts., $3,200; and Norby & Hanson, Merriam av. north of East Third st., $3,200.

An application by K. E. Dahl for permission to construct an outside stairway leading into the basement of his building on Third st. was laid over for study as to whether the alley is wide enough to permit the encroachment.

A petition from a group of residents on LaBree av. S. was read calling attention to the existence of a noise nuisance across from St. Lukes hospital at a newspaper distributing point. It was stated that the noise made by the boys while waiting for their papers disturbed hospital inmates as well as others in that area. The matter was referred to the police and City Attorney Theodore Quale for action.

Members of the fire department were present to discuss details of the second smaller fire truck which it is proposed to add to the departments equipment. It was agreed that complete specifications should be submitted at the regular meeting of the council next Tuesday evening.

At the wrist and shoulders were small finely-pleated flounces, the pleating being repeated in a deep flounce at the bottom of the skirt which was made with a bustle and short train. The white kid gloves worn by the bride were also a part of her mother's bridal apparel. She also carried her mother's filmy lace wedding handkerchief. A 5 o'clock dinner for the immediate families and Rev. and Mrs. Fjelstad was held at the Evelyn Hotel. A decorated wedding cake graced the table where the bridal party was seated, white tapers and pyrethrum also being used.

COMPANY FOR SUNDAY SUPPER

"I'm having company for Sunday supper. Can you suggest a menu? I want it awfully nice. But it mustn't be too hard. I have to do it all myself."

It developed that this hostess wanted a cozy old-fashioned sort of supper that would be in keeping with her colonial dining room and the old glass she'd been collecting. So here is the supper menu that we finally evolved.

Jellied Chicken in Individual Molds
Garnished With Parsley or Watercress
Scalloped Potatoes Buttered Fresh Peas (or frozen peas)
Hot Biscuits Jam Preserves
Assorted Relishes (radishes, celery, carrot strips, little green onions, olives, pickles)
Strawberry Floating Island White Coconut Cake
Coffee

The beauty of this menu is that the Jellied Chicken can be made the day before. So can the cake. The scalloped potatoes can be prepared in the morning, all ready to go into the oven at the last minute. The relishes, too, can be washed and wrapped in wet cloths and placed in the refrigerator to keep them crisp and fresh. The Floating Island can also be made in the morning.

Thus we have only the biscuits, coffee and peas to do at the last. The biscuits can be slipped into the oven after the potatoes have come out. Keep the potatoes hot on top of the stove while the biscuits are baking. Doesn't that sound like the sort of supper almost any one could manage without help?

The Jellied Chicken

Individual glass custard cups or muffin pans can be used for your jellied chicken. And the molds can be made to look especially festive by having a daisy design on top made from blanched almonds as petals radiating from a round bit of orange rind representing the daisy's yellow center.

To Make the Daisies

Each cup will be lightly greased, of course. Place a "daisy" in the bottom with enough of the gelatin mixture to cover. When it stiffens enough to hold the daisy in place, add the meat and the rest of the gelatin.

Here is the recipe for the Jellied Chicken (or other meat).

JELLIED MEAT

2 tbsp. gelatin
4 tbsp. cold water
2¼ cups hot broth (veal, chicken, beef or lamb)
3 to 4 cups coarsely cut-up cooked meat
1 tsp. salt

Soak the gelatin in cold water . . . then add to hot broth, stirring to dissolve completely. Let the mixture cool until it begins to thicken. Then add the cut-up cooked meat and salt. Pour into your molds and chill until "set". Unmold and serve on platter garnished with parsley bouquets, radish roses, tomato wedges and lettuce, endive or watercress. This amount will fill 1 bread loaf pan or about 8 custard cups or muffin pans.

The Difference Between "Au Gratin" and "Scalloped"

"Scalloped potatoes" are usually thinly sliced potatoes baked in milk. They are raw when they are put into the baking pan. Whereas "Au gratin potatoes" are generally understood to be cubed cooked potatoes heated in a thick white sauce with cheese in it and with more cheese plus bread crumbs over the top.

In fact, to many people "au gratin" means cooked with cheese,—whereas it really means "cooked with crumbs" over the top.

So my "scalloped potatoes" are after all "au gratin" potatoes because they are thinly sliced cooked potatoes mixed with a thick white sauce with a bit of mustard added to it, and with fine dry bread crumbs or cracker crumbs sprinkled over the top. Chunks of butter are strewn over the crumbs before baking. These potatoes are arranged in a shallow baking dish and heated from 20 minutes to half an hour in a moderate oven, 350° F. If you use a deep baking dish, your potatoes will need as much as 45 minutes in the oven.

State Game Farm to be Considerably Enlarged

Ten thousand steel posts were hammered into the earth at 500 feet intervals around the boundaries of Minnesota game refuges this week as the department of conservation swung into the final phase of its giant refuge posting project. In all, 2,500 miles or refuge boundary, including 112 statutory "no hunting" areas, some 30 state parks and 35 additional game preserves are included in the project. Specially painted "Game Refuge" signs of heavy guage metal are being fitted to the posts.

Frank Blair, supervisor of game in charge of the posting, termed it the most complete in state conservation history and the first time all refuges were marked simultaneously. The project, sponsored under the Pittman-Robertson federal aid act, will be completed September 1.

THE TIME IS NOW

Senator Wheeler's position, as we understand it, is that we should not give aid to the nations resisting the aggressors because we will need all the military equipment and supplies we can produce for our own defense. He objects to giving aid to Britain and her allies because, he argues, they cannot win and therefore the things we give them are wasted. Our own defenses are woefully weak, he points out, and our army lacks essential equipment.

The points on which Wheeler and his opponents agree probably are more significant than the points on which they disagree. Wheeler admits the menace of the combination of dictators that is seeking to control the world. He does not deny that the situation is serious, that our liberties are threatened. And his opponents agree with Wheeler that our defenses are weak and that we do not have sufficient modern war equipment to put even a small army in the field. On these points there seem to be no differences of opinion. The differences revolve around the question as to whether or not we should give aid to the countries that are still resisting the combination of dictators.

If we were to follow Senator Wheeler's advice then we would serve notice on Britain and her allies at once that we will give them no more aid. Britain and her allies would then immediately stop fighting. Their cause would be hopeless and they would accept whatever terms the dictators imposed upon them. The bitterness of their defeat however, would be washed away by a flood of hatred and contempt for us. Is there any American so stupid that he believes the men of the British navy would come to our assistance under such circumstances? The people of Canada, the Australians, the New Zealanders, the Norwegians, the Poles, the Dutch and the Greeks, along with the English and all self-respecting people everywhere, would hate us, and rightfully so. We would lose our own self respect and surely our liberty, for all peoples, former friends and foes alike, would rise up against us. That is what lies before us if we follow the path Senator Wheeler urges us to take.

And what lies ahead of us if we continue on the course we are now following? Certainly honor and self respect and, by all odds, a better chance of victory.

Senator Wheeler admits the combination of dictators is a serious menace. That being true, then every circumstance that retards the program and the progress of this menacing combination must be in our favor. It is axiomatic that every soldier who fights against them is also fighting for us. The Chinese armies are our armies and the longer they continue to fight the less we have to fear. The Norwegians in Canada who are learning to fly bomber planes are helping us by their efforts to regain freedom for their own country. How, by forcing them to stop their efforts, we are going to strengthen our own position, is anything but clear to us.

Is there merit in Senator Wheeler's argument that our first duty is to provide adequate equipment for our own armies? Equipment is a problem of mass production. The first and most important step in mass production is to build machinery that will build machines. This is always a slow process. After many months of preparation we are still in this process of getting ready to build tanks and planes and guns. Many factories are still under construction. Results are beginning to show however. Production is steadily increasing. We will soon be producing war equipment on a scale the world has never seen. All our armies need at the present time is sufficient equipment for training purposes and now that we have started producing by mass production methods, to provide training equipment will not be much of a problem. As long as our producing equipment is well organized we will not have to worry about providing enough equipment for our own purposes.

The longer the war lasts in Europe and Asia and Africa, the better equipped we will be to defend ourselves if the war does spread to our continent. The best defense we can have is to keep the war confined to the continents on which it already exists. Following Senator Wheeler's advice would put an end to the war on the other continents and bring it to our own back doors.

If, as Senator Wheeler predicts, the dictators finally conquer all of the old world and, as he says, we will then be forced to defend our own continent, we will have a far better chance of being successful in that defense if we have as our friends the Canadians, the Australians, the New Zealanders, and what is left of the British navy. If we fail them now they will turn against us. If we help them now then they will help us in that last stand fight that Senator Wheeler predicts is inevitable.

We do not share Senator Wheeler's apprehension as to the invincibility of the dictators. In campaigns already fought, Italy, Russia and Japan have betrayed their weaknesses. Germany's military success has been due to superior equipment and trickery. The superior equipment can be and will be matched, and tricks, once they have been exposed, lose their effectiveness.

Senator Wheeler is not an appeaser. He is not the type of citizen who would say we should come to terms with the Al Capones. He hates the Capones and the Hitlers as much as any of us. But we cannot agree with him that our best interests will be served by building a Chinese wall around ourselves in the hope that we can live happily forever and a day in our own way in a world that is ruled by a military clique. Either that military machine will be destroyed or liberty will cease to exist in our country as well as in the rest of the world and the time for us to throw our support into that fight is now and not at some later date when all other opposition has been overcome.

NEW PROCEDURES FOR UNEMPLOYED BENEFITS LISTED

Some Workers Entitled to Partial Benefits, Says Sjolander

Revised procedures for the payment of partial unemployment benefits, required by the federal Social Security Board, have been adopted by the state division of employment and security, it was announced today by Clarence Sjolander, local manager in charge of the Division's office in Thief River Falls. Federal authorities requested revision of the new regulation and procedures when they became convinced that many workers, entitled to partial benefits under the basic unemployment compensation law, have not been filing claims because they did not understand their rights.

Under the revised regulations and procedures, workers will be reminded that they may be entitled to partial benefits when they are under-employed due to lack of work. The reminder will result from the fact that the revised regulations require employers to notify each of their workers when they—the employers—are unable to provide the workers with more than four full days of work (or its equivalent) and when weekly earnings are less than $16.00. This notice instructs the worker that he should present it at the nearest local office of the Division to determine whether he has a valid claim for partial benefits.

All workers are urged to keep themselves posted, and if they think they are entitled to partial benefits, to consult the nearest local office of the Division, even though they did not receive a notice from their employer.

These new regulations apply only to workers who are employed by "covered" employers.

NOW WHO'S AFRAID OF THE BIG, BAD WOLF?

Fergus Falls—Sheep owners of Becker county are elated over the killing of the giant, gray-ghost wolf killer which has been marauding among their herds of sheep, killing 160 of the animals besides at least 30 deer. Cheney, expert wolf hunter, measured eight feet long from nose-tip to flanks and weighed more than 150 pounds. He was said to be about 10 years old. SO. ST. PAUL LIVESTOCK

(By U. S. Department of Agricultural Economics and Minnesota Department of Agriculture)

South St. Paul, Minn., June 3, 1941. A material decrease in aggregate lamb marketings throughout last week and again at the opening of this week coupled with an advance in dressed lamb prices at the principal Eastern consuming centers tended to insert strength into the live lamb price structure. But local supplies were too light in volume and too lacking in quality, according to the Federal-State Market News Service, to test properly the advance obtainable. Generally prices continued on a fully steady to strong basis, but sorting grew very lenient. Odd lots and a few part loads of mostly Good to Choice shorn lambs weighing upward to 100 lbs. sold at $9.25 to $9.50. The highest on spring lambs was $11.25 for a few odd head. Shorn slaughter ewes of Good and Choice grades cleared at $3.50 to $4.25.

Slaughter steers sold steady to strong, the market displaying considerable more activity than a week ago. Improvement in the Eastern dressed beef trade was a factor in accelerating demand for live cattle. Several loads of Good to Choice yearling steers and mixed steers and heifers brought $10.50 on Tuesday. Heifers were fully steady and cows showed firmness. Bulls were practically unchanged with late last week. Vealers held steady, with bulk good and choice $9.00 to $10.50, and strictly choice $11.00. Supplies of stock cattle were hardly sufficient for demands. Upward to $9.75 was paid for good light stockers, and good mixed steers and heifers went at $9.50 on country account.

Hog prices dropped 20c to 25c early this week on a trade which failed to show the brisk kind of action typical of last week. A combination of curtailed shipper outlet and slightly enlarged receipts figured prominently in the downturn. Tuesday's top was $9.15 paid freely for barrows and gilts from 180 to 250 lbs. with the bulk of the good and choice 180 to 300 lb. offerings moving from $9.00 to $9.15. Kinds scaling 300 to 400 lbs. sold generally from $8.85 to $9.05, while most 140 to 180 lb. weights were taken at $9 to $9.15. Good sows of all weights sold in an $8.50 to $8.70 range. Feeder pigs were scarce and were usually bought at $9.00 to $9.25.

Project Meeting

The second project meeting was held at the Ayers home Monday afternoon. The lesson was given by the leaders Sadie Ayers and Eleanor Hanson, being about marketing for fruits and vegetables, the different grades, the different size of cans and their labeling and the things at watch for in buying our drugs. Reports were given by the secretary of the last meeting. Everyone is urged to raise plenty of tomatoes which are so rich in vitamin A. A dozen cans of fruits, vegetables and salmon were given by Geo. Peter and Son grocery in Thief River Falls which the group opened and studied how to judge good and poor grades and their labels. Lunch was served by Mrs. Ayers and Iris. Twelve members were present. The next meeting will be at the Gerhard Hanson home.

Mrs. Arvin Hanson, David and Arlene who have been spending several days at the A. K. Lockrem home visiting with friends and relatives, returned to their home at Bagley Saturday afternoon.

Mr. and Mrs. Victor Johnson and Jay of Rosewood were callers at the Joyce home Memorial day.

Christ Rhodegaard who was a patient at a local hospital, returned home Monday.

Judith Lockrem of Springfield, came to Thief River Falls Thursday evening where she attended the graduation. She also spent a few days at her parental home, Mr. and Mrs. A. K. Lockrem. She returned again Saturday evening where she will be teaching parochial school.

Mr. and Mrs. Roy Rude of North and Mrs. Sadie Ayers motored to Crookston Saturday where they visited with Mrs. Knox, who is a patient at the St. Vincents hospital.

The Norden Luther League will have their first meeting Friday evening Jan. 6. The society will serve. Everybody welcome.

Norden Sunday school at 10.

In Memoriam

In memory of a beloved son, brother and uncle, one sad year ago this seventh day of June. One sad year has passed dear Fredie, since you were called away. Still is the voice we used to hear, gone is the face we used to see, but not too far to reach in thought. How well do we remember that sad and weary day. You suffered much, you murmured not. We cried and prayed with you the Lord's prayer, that God shall take away all your pains and let you live. But he took you away. Our lips tell how we miss you. But God only knows. Sadly missed by mother, brothers and sisters: William, Carl, Edmund and Raymond Rupprecht, Mr. and Mrs. Otto Rupprecht, Mr. and Mrs. Kenneth Russell, Mr. and Mrs. George Poppenhagen, Mr. and Mrs. Allan Iverson. 23p

CO. SPORTSMEN'S CLUB HOLDS JUNE SESSION TUESDAY

Group Votes Extension of Crow Hunting Contest to June 19

Due to the recent unfavorable weather for outdoor activities, the Pennington County Sportsmens club at its June meeting Tuesday evening acted to extend the crow hunting contest for two weeks to June 19.

Helmer Ness and Ole Ness, captains of the two teams, will arrange for a feed to wind up the contest, the affair to be staged in the Smiley hall.

The club voted to purchase new trap shooting equipment to replace present worn-out traps. The equipment will be installed in a cement trap house now being completed on the county fair grounds.

Interesting motion pictures depicting various conservation activities were presented by Dr. Edward Bratrud and Secretary William Borchert.

Playing over their home course, members of the Bemidji golf team almost made a sweep of the opening matches in the inaugural competition of the Polar Golf League. Teams from Thief River Falls, Bemidji, Crookston, Erskine and Mahnomen participated in the matches, which were played over the Bemidji Town and Country course.

Playing in eight scoring groups, with each entrant matching cards with each of the other four golfers in his scoring group, Bemidji golfers took seven first places and one second place for a total of 63 points. Crookston was second in the team standings with 36 points; Erskine in third place with 22 points; Thief River Falls, fourth, 21 points; and Mahnomen, fifth, 19 points.

The next league match is scheduled for the Crookston course, with Sunday, June 22nd, the tentative date.

Selective service registrants henceforth will be allowed ten days in which to return their questionnaires, according to an announcement today by Lt. Col. J. E. Nelson, state director. Until now, a registrant was required to complete and return the [illegible] Col. Keeping Score

. . . . With HUCK OLSON

A Big Week for Louie Benson

Louie Benson, who is considered as being pretty much of a Thief River Falls boy even though he's listed as being from Wheaton, had a big week. He concluded his college career by catching Lefty Light in the Gusties 1 to 0 win over the St. John's college baseball team; the state college coaches selected him as the catcher on the All-Conference team; on Sunday he was graduated from Gustavus Adolphus; and in conjunction with the graduation exercises, he was awarded the Schlieder medal, which is given to the student who combines excellence in scholarship with his athletic activities; and on Monday, as the Crookston Pirates passed through Minneapolis enroute to Wausau, Louie was added to the squad, to be carried as a catcher, and perhaps, to do some relief pitching.

And it is reported, too, that Louie has reached an understanding with the Plummer school board, and that he will be added to the high school faculty there next fall. But it may be that when the school term opens next fall Louie will be in the army, for he has a draft number that is expected to be called in July or August.

Not Such Hot Golf Sunday

The local entry in the Polar league didn't shoot such hot golf Sunday, getting 21 points for fourth place, trailing Bemidji, Crookston and Erskine. The Bemidji course, which is arranged for hill-and-dale golf, had been made heavy by the recent rains, with the result that the scores on the par 72 lay-out were comparatively high. The veteran Hans Chommie led the local squad, posting an 80, followed by Dr. Hedemark's 81. Larry Berg exploded to a 100, Kern Olson had a 91, Bill Claffy a 90, Floyd Daniels a 95, Lloyd Bennes a 100, and Dr. Hanson a 102. But there weren't any alibis for the high scores, and Larry Berg, who shot that 100 as the No. 3 man, expressed the sentiments of most of the team when he described the golf that was played in a two-syllable word. The locals expect to give the other teams much stiffer competition when Jimmy Nordine and Vic Jung are available. There's some doubt, though, that the two will return here for the summer.

It's Baloney Tomorrow

And tomorrow evening the Baloney golf league begins play on the local course. I've made a memo to the effect that I should be on hand when that starts. I made some comments about the lack of elegance in such a title as "Baloney"; but Lloyd Bennes remarked that that title was appropriate, and that I should follow Sewell Gross for a couple of holes to get the relationship between baloney and golf. The inference being that baloney and Sewell Gross' golf are both served in thick and heavy slices. But Lloyd, with his 100 at Bemidji, should belittle Sewell's golf! The fact is that Sewell shot a 96 over the Bemidji course on Sunday. And even Judge Lincoln Arnold shot a 98.

They'll Play Independent Ball

The local ball team is completing a schedule of games, playing independent teams in this vicinity. On Sunday they journey to Warren, to play a game that's been twice postponed; and the week following, June 15th, Warren will come over here for a game. Red Lake Falls, with Eddie Kiffenheim as manager are organizing a team; and we have a couple of home games with Plummer on the schedule; and St. Hilaire (and they'll be plenty tough to beat) would like a home-and-home series.

Clarence Rasmussen, who played a lot of third base for the locals, left last week for International Falls, (got a job in the mill, I guess) so that position will have to be filled. Jesse DuChamp may be shifted to third base, with Cockrell or Bromberg on first, Johnny Jaranson on second, and Gordy Zimmerman at short. That infield is okey; and with Bobby and Wally DuChamp and Lenny Helquist in the outfield, Birdean Nornes catching, and Bill Hallamack pitching, the line-up would be ready for any of the teams around here.

Miscellany

LaRue Andy Anderson has been transferred from the U. S. S. Wyoming, a battleship, to the U. S. S. Howard, a mine layer and sweeper. Roy Lee has been signed to a Hartz D-ball contract. Clarence Offerdahl is apparently investing in some championship insurance.

ONE FOURTH OF ALL DRAFTEES IN POOR PHYSICAL STATUS

State Draft Board Head Says 6,440 out of 28,000 are Rejected

Lt. Col. J. E. Nelson, state director of selective service, said today that the number of rejections for physical reasons in the state of Minnesota constitute a challenge to public and private health agencies and also to the public at large.

Referring to a statement of Brig. Gen. Lewis B. Hershey, deputy director of Selective Service, that the general physical condition of the country's youth, as revealed by Selective Service tests, is something of which "we, nationally should be thoroughly ashamed," Col. Nelson pointed out that the national condition is reflected to a certain extent in every State, and he emphasized the need for vigorous action by all citizens to improve the general health.

Col. Nelson pointed out that out of 28,000 selective service registrants in Minnesota who have been given physical examination, 6,440, or 23 per cent, have been found unfit for general military service.

On the total number of men rejected in Minnesota because of physical disabilities, Col. Nelson said, about 65% were unfit for any military service and the remainder placed in Class 1-B, or fit only for limited military service. The men in this group, he continued, present a special problem and every effort should be made to correct the physical defects among them that can be corrected so that they may be able to fulfill their military obligations.

Relief to War Victims Goes over $35,000,000, Red Cross Chief States

American Red Cross relief to war-stricken nations in Europe and the Orient totals more than $35,000,000, Chairman Norman H. Davis announced in Washington.

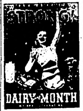
Almost half, or $15,798,546, went to Great Britain. The balance was divided between unoccupied France, Finland, China, Spain, Greece, Yugoslavia and other European countries where the Red Cross gave emergency relief to Polish, Norwegian, Belgian and Dutch refugees, aid to war prisoners and other services.

Included in the relief were 3,846,317 garments and 20,125,073 surgical dressings produced by almost a million women volunteers in Red Cross chapters. These supplies were valued at $10,377,849.

Of the total relief given, the American Red Cross provided $18,517,351 from its own funds while the balance, or $10,408,248, came from the U. S. Government appropriation for foreign war relief.

BIG TRANSPORT TRUCK PLOWS INTO CATTLE

Willmar—Unhurt was the driver of a heavy transport truck, loaded with merchandise, which plowed into a herd of cattle on Highway No. 212 near Granite Falls recently and then crashed into the ditch 50 feet beyond. The cattle, however, did not fare so well, with four cows and one calf killed outright. Butchers, working by aid of auto headlights, dressed two of the fatally injured animals on the spot.



All branches of the dairy industry, thousands of stores, national, state and municipal offices are displaying this poster during June.

Several Men in State Arrested and Fined for Violations of Game Laws

Continuing their foray against game and fish law violators, game wardens this week recorded some of the heaviest fines assessed in recent years.

William Jouppi, fur dealer from East Lake, Aitkin county, paid $600 and costs on a series of counts involving the sale and possession of illegal furs. Wardens confiscated 558 muskrat and 22 beaver pelts.

At White Bear Lake just north of St. Paul, August Babel, fur farmer, paid $321 before Justice O'Brien on three counts involving illegal fur transactions. He issued incorrect and false reports of live mink sales and failed to have pelts tagged as required by law.

A former conservation department employe, Olfa Negaard of Squaw Lake, was apprehended in Itasca county with 3,400 dressed bullheads in illegal possession. He was fined $200 and costs by Judge Farrell of Grand Rapids.

460 Meet Violent Death in Nation over Week-end

Violent death claimed at least 460 lives during the nation's three-day Memorial holiday.

Traffic accidents alone took 308 lives, train mishaps 13. Seventy-five drownings were reported and 63 were killed by miscellaneous causes.

Both the total deaths and traffic fatalities exceeded the national safety council's pre-holiday estimated toll of 400 deaths in all and 200 by motor vehicles.

Accidental deaths in the northwest through Memorial day and the weekend stood at 16, 10 of them caused by traffic mishaps.

WOOD DUCK INTRUDES IN BACHELOR'S COTTAGE

Melrose—Accustomed to finding swallows fluttering around in his bachelor quarters in a cottage on Sandy Beach, J. A. Meyer of Melrose was non-the-less surprised when he walked in recently to find a large female wood duck had entered the cottage through the chimney. Still more astonished was he to discover what a very unwelcome intruder a wood duck can be, as his usually orderly quarters were in such a messy condition that he and his friend, Al Wessendorf, had to plunge into a thorough housecleaning job.

CROOKSTON YOUTH DIES IN ERSKINE ACCIDENT MONDAY

Charles Taylor Loses Life When Automobile Hits Stray Horse

A horse which strayed from its pasture into the path of their automobile brought death to one Crookston youth and serious injuries to another Monday night.

Charles Taylor, 21, son of Mrs. Myrtle Taylor, died instantly with a broken neck. Maurice McFarlin, 20, son of Mr. and Mrs. R. H. McFarlin, and driver of the car, sustained injuries.

The accident occurred one mile east of the Win-E-Mac tavern, on U. S. highway No. 2, about nine p. m. Monday. The boys were enroute to McIntosh. The horse, property of F. A. Uggen, near whose farm the crash occurred, was lodged in the car, its rear quarters over the steering wheel. McFarlin was thrown clear of the machine into the ditch, but Taylor was thrown toward the driver's seat, and into the path of the horse.

McFarlin saw the horse come from the ditch and swerved to the left to avoid hitting it, but was unable to avoid the impact. The car was thrown into the ditch on the left hand side of the highway.

Training Civilians for Defense Is Explained in Letter from English Kin

A letter explaining in detail the organization of the civilian population of England in time of war was received this week by G. H. Mayer-Oakes from his sister-in-law, Mrs. J. A. Mayer-Oakes of Biddulph, Stoke-on-Trent, England.

The letter reads in part:

"Each section of the Air Raid Precautions personnel is thoroughly trained to do its own job in case of emergency. Outside that are the fire-watchers (to which I belong). They are formed from the residents (male as far as possible) of each street, and they arrange among themselves to see that each takes a turn at watching for fire bombs.

"There are just sufficient men for two to be on duty every eighth night. Of course, they go out only in case of the siren sounding, but must then stay out until all is clear. It works well! Everything is as near perfect as one can forecast would be necessary in case of a raid.

"Certain householders in each street have cards in their windows showing that in such a case they would be prepared to take in the temporarily homeless, supply fire-fighters or first aid workers with what they need and generally be on hand to help where and when needed.

"All this planning is done the whole country thru—of course in danger areas it is intensified, but there is the same principal at the bottom."

More than 200 German Seamen are Interned at North Dakota Fort

Two hundred and twenty German seamen, the officers grim and the crews smiling and laughing, arrived in Bismarck, N. D., Saturday night from New York by special train and were taken in guarded trucks to an internment camp at Fort Lincoln, a mile south of the city.

The 22-car train, more than an hour behind schedule, was cut in two, and half of the train, containing 162 Italian seamen, continued on its way to Missoula, Mont., where they will be interned with other Italians.

The 10-acre internment camp at Fort Lincoln was completed only hours before arrival of first contingent of seamen, recently seized by federal agents on charges of illegally remaining in this country. Others are expected at an undisclosed future date to swell the camp to near its capacity of about 1,000.

Great Northern Buys 2,000 More Box Cars

Recent set-up of government estimates on the volume of rail traffic in connection with the national defense program by Fall has prompted the Great Northern railway to purchase an additional 2,000 new box cars at a cost of approximately 6 million dollars. The company also has purchased 18 Diesel-electric road and switch engines for use on the system's western territory. Cost of the Diesels has not been estimated. The Great Northern purchased 4,000 new box cars in the past two years, and all now are in service over the system.

HORSES LITERALLY COATED WITH TICKS

New York Mills—Woodticks are usually more of a pest than a menace, but recently Aaron Roberts of New York Mills found two horses staggering and a third one down in his pasture. On investigating, he found the animals so badly infested with swollen ticks that they could, he said, have been "pulled off in handfulls."

Before the European war Argentina imported 19.3 per cent of her products from Great Britain, 17.6 per cent from the United States and 20.1 per cent from Germany. Today, American products have replaced the German, lifting the United States far in front of other nations supplying Argentina. In the first three months of 1939, this country's exports to the South American nation had a tariff value of approximately $14,000,000 as compared with the $25,000,000 now. German exports dropped from approximately $11,400,000 in 1939 to $1,700,000.

Attendants were Arlyne Hanson of Goodridge, a cousin of the bride and the bride's brother Kermit Wold.

The bride chose for her wedding a light blue spun rayon dress with round collar, short sleeves and full skirt. Her accessories were white. The bridesmaid wore a beige dress and black accessories.

Following the ceremony the wedding party was entertained at a wedding supper at the home of the groom's parents. The bride was a student of Lincoln High School at Thief River Falls and the groom is a progressive farmer in this community. They have a host of friends who are pleased that the young couple will make their home in this community and they join in wishing them happiness.

School Is Out

A number of local people went to Goodridge last Thursday evening where they attended the graduation exercises held at the gymnasium. A class of eighteen young people received their diplomas, among which were Vernon Landsrud, Lawrence Neuschwonder, Delores Paulson and Ramona Thiel, all of Grygla.

The gymnasium was beautifully decorated in streamers of turquoise and white, the class colors, and a basket of red roses, the class flower graced the stage. The commencement address was given by Reverend T. H. Megorden of Fosston who chose for his topic, "Youth Facing the World". The Girls' Glee Club sang several selections and the school band also played several selections. The graduates who were attired in caps and gowns were presented by the school principal, Paul Mienke and they received their diplomas from Harold South, clerk of the board of education. The salutatory was delivered by Delores Paulson of Grygla and the Valedictory by Karyl Grondahl, formerly of this community. On the honor roll besides them was Vernon Landsrud, who had the highest rank among the boys in the class. Vernon was also the class poet. The class had chosen a very appropriate motto, "By Our Efforts We Hope to Rise".

At graduation exercises held at Thief River Falls the same evening, Adelaide Peterson, Marion Thompson, Verle Jelle and Lillian Jelle received their diplomas, while Edith Anderson received her certificate from the Teachers Training department. Several people from Grygla attended the exercises.

The close of school here was marked with a picnic held on Thursday at local schoolgrounds. The children enjoyed various games and contests including volley ball and kittenball. At noon they were served a sumptuous dinner served in the auditorium and later in the afternoon they enjoyed their fill of ice cream and cake. Mr. Doran and Miss Lillevold who have been teaching here for several years were each presented with a handsome camera as a farewell gift from their pupils.

HERE, at the beginning of the baseball season, the U. S and Britain have agreed on a plan to pay for bases. That's a much better plan than stealing them. Why didn't the fellows who thought up the game of baseball think of that?

Hawf (Himself)

And, by the way, in the event of war down there in the Caribbean how shall the score keepers list the casualties? "Man died on base?"

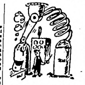
IT'S A WAR ... ONE OF THE ALLOWED MODELS



That clever girl in New Orleans who invented a "Tear Catcher" to save her makeup when bidding goodbye to boy friends entering the Army has something. And, in view of the fact that we must conserve everything we have now, we suggest that all the girls wear them and the collective tears be evaporated and the salt saved.

We give the idea to the OPM; they can work it out.

And, by the way, the fellow with the barrel distemper who called and asked about the planting time for spinach and rhubarb—he called again. He said:

"Hic! Joe wanted tell you Mike 'n' I planted the spinagh 'n' rubarb now; we're puttin' in our wild oats."

Kitty's Kitchen Klatter

Dad, papa, father—let us not refer to him as the "old man." You hear the young people very frequently use that form when speaking of father. It doesn't show the respect we should give our elders. You can bet your sweet life that some day you won't care to hear yourself spoken of as the "old man!"

Little sister climbs Daddy's knee for that confidential chat that she won't share with anyone except Dad. Dad is such a wonderful listener. He doesn't correct nor offer suggestions, but agrees amiably with everything she says.

Son has his problems that must be talked over "man to man" with Dad.

Even Mom when the going gets too difficult finds the reassuring words that everything will be all right such a comfort when they come from Dad.

He is the head of the family, the pillar of strength on which we depend. Let us show Dad on Father's Day just how much we respect and love him.

PRECIOUS SOIL

The Steiner Community club had a special meeting Tuesday evening to discuss the building of their new hall and the sites. Four more members were elected on the board to act on the sites. Lincoln Arnold spoke on the project and gave them some useful information. A membership drive was held as that seems to be necessary to form a corporation. The members donated something toward lunch which was enjoyed by all and the coffee. The next meeting will be Wednesday, June 11th. Hostesses are the Rausch and Roy Rude families.

COUNCIL HOLDS LONG MEETING TUESDAY NIGHT

Gets Request from Library Board for Rebuilding Library Roof

DIVIDE HOSE ORDER AMONG THREE FIRMS

Engineers on Addition to Power Plant Submit Report

In a lengthy June session Tuesday evening that lasted until well after midnight, the city council disposed of a varied array of business, including the purchase of a supply of hose for the fire and street department, hearing of requests from members of the library board for improvements to the library building, and conferring with engineers in charge of the construction of the power plant addition, who submitted a report preliminary to formal acceptance of the completed project.

The hose order was divided among three of eight bidders. Gustafson & Son was awarded the contract to supply 350 feet of one and one half inch fire hose on a bid of 63 cents a foot, while 400 feet was purchased from the American LaFrance corporation on its bid of 70 cents a foot. The Goodrich Tire & Rubber company received an order for 350 feet of street department hose on its bid of 44.2 cents a foot.

C. W. Pope, Anton Hall and Otis Weld of the library board submitted requests for several improvements, including the rebuilding of the library roof to remedy a leaky condition due to faulty design; water-proofing the basement walls to stop seepage; establishment of a children's room in the basement; and filling in and planting of the newly acquired lot north of the library property.

The council voted to engage the services of a contractor to make an investigation of the roof and submit estimates on the cost of rebuilding it. It was indicated that favorable action also would be taken on some of the other requests.

A letter was read from City Assessor T. M. Thronson pointing out that the heavy burden of work in his office would make it impossible for him to have the assessments all completed by June 23, when the city board of equalization is scheduled to meet, but stated he expected to be ready by July 21. He also submitted a letter from Howard Spaeth, state tax commissioner, expressing the opinion that criticism by the county board of delays in filing assessments in previous years was unwarranted.

An ordinance regulating the sale of fruits and vegetables in the city by transients at wholesale or retail was given its third and final reading and adopted. A building permit was approved for Merle Lindbergh, covering construction of a new residence on Crocker av. N. at an estimated cost of $3,400.

A statement of assessments covering the installation of sewer mains on Crocker and Tindolph avs. was submitted by Engineer I. E. Quist, and a hearing was scheduled for July 8. The council also voted to advertise for bids on next winter's coal requirements for city buildings.

Representatives of Ralph D. Thomas & Associates, engineers on the power plant improvement project, reported on a checkup of the plant made Tuesday preliminary to formal acceptance of the completed project. They pointed out a number of minor items that will require remedial action.

COLLECTIONS OF CURRENT TAXES TOTAL $168,859

Lower Receipts Ascribed to Reduced Tax Levy in Thief River Falls

Current tax collections in Pennington county for the period from January 1 to June 1 aggregated $168,859.81, compared to $173,980.50 for the same period in 1940, it was announced this week by County Treasurer A. R. Johnsrud, who ascribed the decrease this year to the fact that the total tax levy for the city of Thief River Falls is substantially below the figure for a year ago. A total of $16,501.74 in delinquent taxes was paid up to June 1 this year, compared to $20,723.52 for the period in 1940.

TROVATTEN, JOHN BRANDT ADDRESS MARSHALL PICNIC

Several Thousand Persons Assemble Sunday at State Park

Thousands of visitors from throughout Marshall county assembled at Middle River state park Sunday to attend a Land O'Lakes creamery picnic and to hear addresses by John Brandt of Litchfield, president of the Land O'Lakes and R. A. Trovatten, St. Paul, Minnesota commissioner of agriculture.

Trovatten stressed the necessity for putting the nation's agriculture in order so as to adequately deal with the problems of the future. "While we are not prepared for war", he said, "we are less prepared for peace!"

John Brandt spoke in a reminiscent vein of the fact that this huge co-operative had just passed its 20th anniversary. He detailed the difficulties of establishing the new organization 20 years ago when many concerns refused to do business with a co-operative; and compared conditions then with those of today when a "Land O'Lakes card gains entrance into any business concern in the country no matter its size."

Elmer Evans of Middle River was the master of ceremonies.

CHILD DROWNED EAST OF GRYGLA LATE SATURDAY

Son of Herbert Holthusens Loses Life in Water-Filled Ditch

Arlyn Wayne, three year old son of Mr. and Mrs. Herbert Holthusen of Fourtowns, east of Grygla, lost his life late Saturday afternoon when he fell into a ditch filled with water and was drowned. The little boy had been playing outside near his home when he was missed by older members of his family. After searching around the buildings inquiry was made across the road at the home of some neighbors.

Mrs. Orrin Benson, the neighbor, told that the little boy had been there but had started home again shortly before and that she had watched until he had safely crossed the road and passed the hazardous ditch. Evidently he had turned back and thus toppled into the stream where he was found a few moments later. Artificial respiration was tried to no avail.

He is survived by his parents and an older brother, Wallace; by his grandparents Mr. and Mrs. Fred Holthusen and Mr. and Mrs. Halvor Magnuson, all of the Thorhult community; and several aunts and uncles including Mr. and Mrs. R. M. Magnuson of this city.

Funeral services were conducted on Wednesday at two o'clock at the Thorhult schoolhouse with Rev. S. T. Anderson officiating. Interment was made in the Thorhult cemetery.

Larson Funeral Home
THIEF RIVER FALLS — ST. HILAIRE, MIDDLE RIVER — HOLT, MINNESOTA

Dear friends:

There are three places where a funeral may be held—the church, the residence, or the funeral home. The choice is entirely with the family.

Our Funeral Home recommends itself because every facility is provided here, at no additional cost. The family room, which affords complete privacy, is a feature usually not available in church or residence.

Visitors are always welcome at our Funeral Home.

HOSPITAL SERVICE ASSN. WAS HOST AT DINNER THURSDAY

Group Now Has Signed 1,500 Local Subscribers and Dependents

The Minnesota Hospital Service Association had its annual dinner for group leaders of Thief River Falls last Thursday, June 5, at the Evelyn Hotel. This was the first such dinner to be held here. The Association has a "get-together" for its group leaders each year to express appreciation for their services to the association and their fellow employees.

Both of the local hospitals became member-hospitals of this non-profit Association about a year ago. At the present time about 1500 persons, subscribers and their dependents, are enrolled in this community plan in the Thief River area, and 93 cases have been hospitalized here at a saving of $2,704.82 to subscribers.

Mrs. Virginia Liebeler, state director of enrollment and Roy Parke, district representative of the Association conducted the informal program last night at which group leaders were given small blue and gold lapel buttons in appreciation of their work. Brochures with letters from civic leaders of the state commending the work of the Minnesota Hospital Service Association were also distributed.

Funeral Monday for Mrs. Karna Lawson, 90, Who Passed Away Friday

Mrs. Lawson was born in Sweden on January 31, 1851 and was married in that country on July 25, 1868 to Nils Lawson. She came from Sweden to Grove City, Minn., in 1882, and to Thief River Falls in 1904. She has made her home in this vicinity since that date.

Her husband and one son preceded her in death, while she is survived by four daughters, Mrs. Josie Hodsdon of Minneapolis, Mrs. Bessie Elofson, Mrs. Christine Olson, and Mrs. Nellie Cronstrom all of Thief River Falls; one son, Ole Lawson of this city; one sister, Miss Hanna Martinson of Sweden; one brother, Nels Leberg of Minneapolis; eight grandchildren; and 16 great-grandchildren.

City-Wide Recreation Program One Year Old

Approximately one year ago recreation activities for the children and townspeople of Thief River Falls was a topic of discussion. It was at that time that a reorganization took place and a new Recreation Planning Committee was set up. Placed on this committee were persons representing the park board, city council, school board, police department, and other groups interested in the field of recreation.

H. W. Kinghorn, C. W. Sande, Morris Bye, A. B. Stenberg, Clarence Pope, Ole Engelstad, William LaFave, Jack Dempster, Dr. A. R. Hulbert, Carl B. Larson, Richard Dablow, T. M. Thronson, and Leonard Hanson were named to the committee with Mr. Sande as president, Mr. LaFave as vice president, and Mr. Stenberg as secretary of the group. The need for recreation activities stirred these men to organize and direct a year-round, all-inclusive program with the aid of Ford B. Elstad, appointed recreation supervisor at that time.

First step toward establishing the new program was the acquisition of nine recreation leaders, provided by the Work Project Administration. A fund was set aside for the purchase of new equipment to be used on the playgrounds and in the arena, where activities were being held. All recreation leaders were guided by the local committee and supervisor, plus supervision from the Detroit Lakes District WPA Office.

Activities during the summer were many and varied. Life-guards were stationed at Tindolph pool, with swimming and diving instruction being a part of the work. Woodcraft, puppetry, and handicraft activities were held in the arena. These activities are available during the entire year. Assistance was given the local Softball Association in the form of umpires and scorekeepers. Instruction was made available for the American Legion junior baseball team.

During the fall months, activities lessened at the parks and play grounds and were transferred in to the area. Boxing and wrestling were offered in the arena gymnasium. A quiet game room was established. The main floor of the arena was used as a recreation center, where volleyball, tennis, aerial darts, badminton, shuffleboard, basketball, and other games were played. Archery was introduced at the playgrounds.

With the coming of the winter months came an increased interest in indoor activities. Puppetry, handicraft, and craft work flourished. Skating supervision was provided at the arena and at the school rinks. Midget hockey became a part of school rink activity. Later on during the winter, figure skating instruction was added as a part of the program. A girl's club was formed by Camilla Dostal, choosing the name Triple L. The group is still active, having a weekly schedule of varied meetings. Recreation was provided for the business men in the form of Businessmen's night at the high school. Here the men played basketball, volleyball, badminton and other games. A basketball league was also formed during the winter for fellows out of school. Seven teams played in the league, finishing up with a tournament. The winner was awarded the Sponsor's Trophy.

During the spring months of the year when a lull is usually experienced in recreation activities, activities were limited to the arena.

Special events sponsored by the recreation program during the year included the Water Carnival at Tindolph pool last summer. Puppet shows, one of the outstanding parts of the program, drew hundreds at each performance. The Hallowe'en party held last year at the arena with almost 1000 youngsters on hand was termed the most successful Hallowe'en party in the city's history. Assistance was given to school officials in running off their winter skating demonstration for the grade schools. Several churches requested help in organizing and running off parties. This help was given without delay. Kite and bird house contests were special events in the craft shop. Camp days for boys and girls is another special activity.

Attendance at the various parts of the program throughout the year was reported as 128,735 by actual count.

Considering the success of the first year, recreation officials are intent upon going ahead and making the coming year a better one for all interested in having fun and entertainment at no cost.

Graduation Exercises to be Held in Stadium Saturday Evening

Parents and relatives by the thousands will gather at the University of Minnesota Saturday evening, June 14, at 8 p. m., to watch some 2400 young people receive degrees in Memorial Stadium when diplomas will be awarded ranging from that of bachelor to the doctorate of philosophy.

It will be the sixth-ninth annual commencement at the university, which has been in operation for 71 years. A few students graduated after the institution had been going for two years because they entered as transfers, having done part of their college work elsewhere.

President Ford has served the University of Minnesota since 1913, when he was brought on from Illinois to be dean of the graduate school. His career has been one of the most distinguished in the entire history of the university, and he will rank with Folwell, Northrop, Vincent and Coffman among the great contributors.

Dean Walter C. Coffey, now dean of the department of agriculture, another who has given the University of Minnesota long and distinguished service, will become acting president upon Mr. Ford's retirement.

'Continue Our Fight for Plan'

In a fiery address to more than 1,500 Townsendites in Lima, Ohio, Representative Martin F. Smith, Washington Democrat, declared:

"We are going to continue our fight for the Townsend Plan until the fight is won. We have more support now than we have ever had."

Rep. Smith, long a friend of the Townsend Movement, has voted favorably on all national defense and aid-to-Britain measures. He called attention to the fact that many solons who voted with him on aid to the British, have voted against him on aid to the Americans. He said:

STAGGERING SUMS

"There is a certain irony in connection with the staggering sums we are appropriating in Congress these days for national defense and for aid to Britain. I have voted for these measures. But I cannot help thinking about those of my colleagues who for years have bitterly opposed the Townsend Plan, decent housing, slum clearance, public improvements, and all other social welfare reforms—because of the cost involved.

"They have always argued that we could not afford to do these things for our senior citizens, for our less fortunate citizens, for our young men and young women, for the boys and girls of America. They have always asked and never answered the question, 'Where are we going to get the money?'

"What a nonsensical question to ask in America, the country with the greatest wealth, natural resources and productive capacity of any country in the world, in which our national income in one single year is twice our entire national debt and in which, if we utilized our full capacity of goods and services, we could produce in wealth in one year three times the amount of our national debt.

"The irony, aye, the tragedy, of the present situation is that those who opposed and would not vote for appropriations and expenditures to construct a finer America and bring manifold blessings to her communities and her citizens, young and old, are now compelled to vote 10, 20, 30 times as much money for the weapons of death and destruction."

It is to show our appreciation and give our help to our friends in Congress that we are sending a delegation to the Buffalo convention.

SHEEP MEN PLAN DEMONSTRATIONS IN COUNTY JUNE 17

Meetings Arranged at D. W. Ayers and Otto Parnow Farms Tuesday

Pennington county sheep raisers will spend a busy day Tuesday, June 17, discussing their problems and studying the latest practices which help to insure fast gains in lambs and a top rating on the fall market. County Agent Ernest A. Palmer announced today that he has booked a sheep improvement demonstration for that day at the Ayers farm six miles west of Thief River Falls at 9:30 and at the Otto Parnow farm 6 mi. E. and ½ mi. N. of Highlanding at 1:30 p. m.

All farmers in this area interested in sheep are invited to be on hand at either one of these farms to see demonstrations and hear discussions of worming, dipping, docking and castrating, and management of pastures for best results in raising lambs.

Representing University Farm at the demonstrations will be W. E. Morris who will bring the latest information on drenches, equipment and sheep management practices.

County Agent Palmer believes that sheep men in this area have an excellent chance to top the market with native lambs off grass if they can stop the "leaks" that hinder growth and cut down the quality of lambs.

One of the worst "leaks" in the sheep business is the loss from parasites. Sheep and lambs covered with ticks cannot do well, and no amount of good feed will finish a lamb that is ridden with worms. Demonstrations at the meeting will show that dipping and drenching are not especially difficult or expensive, and they often spell the difference between profit and loss on the lamb crop.

3 Local Men Assigned to Fort Leonard Wood

Three local young men recently inducted into the army at Fort Snelling left Wednesday of last week for Fort Leonard Wood, Missouri, where they have been assigned to the 20th Infantry. Included in the group were Arthur H. Johnson, Helmer O. Sahl and Elmer N. Solberg.

LEAFY SPURGE TO BE DEALT WITH AT MEETING SERIES

Four Sessions to be Held in Pennington Co. Week of June 16

Pennington county farmers will have a chance to become acquainted with leafy spurge and creeping jenny at a series of meetings to be held next week, it was announced today by County Agent Ernest A. Palmer. Four meetings have been scheduled for county farmers by the county weed council at a recent meeting of the group.

The schedule of meetings is as follows: June 16, River Valley hall; June 17, Goodridge hall; June 18, School Dist. No. 180, Bray township; June 19, district court room, court house, Thief River Falls. There will be samples of noxious weeds, a discussion of weed identification, accompanied by a chance to ask questions about new weeds and how to handle them by chemicals and cultural methods. Each meeting will start at 8:00 o'clock p. m.

Three infestations of leafy spurge and one of creeping jenny have now been found in the county. It is likely that there are more patches of these weeds in the territory and it is to the best interest of everyone concerned to know these weeds and to eradicate them before they get out of control. Everyone in the county is invited to attend any one of the above meetings and to bring in to the meetings any weeds which are of a suspicious nature, for identification.

IT MAY NOT HAVE BEEN IN VAIN

No doubt much of our reluctance to participate in another war is due to the fact that our sacrifices in the last war proved so futile. We entered that war inspired by the hope that it might be the last war. The disillusionment was not pleasant.

It is our opinion that our mistake was not in entering World War No. 1 but rather in our unwillingness to help maintain the peace after the war was won. We won the war but we lost the peace.

And because we failed to lend our support to the only organization that could have maintained a peace based on justice, we now face the unpleasant task of sacrifice all over again.

If we learn just that one lesson from that last sad experience, perhaps the sacrifice will not have been in vain.

To Land O'Lakes Creameries, Inc., birthday greetings and best wishes for many happy returns of the day. The organization is reaching an age of maturity. Organizations, like individuals, have ages of youth, maturity and old age. Land O'Lakes is to be congratulated on having survived its infancy and its adolescence. In organizations of that kind the infant mortality is terrific and only a few of the most sturdy survive the perils of youth. Youth is the age of experimentation and too often the young fellows smash up on the rocks of insufficient capital or unsound practices. Land O'Lakes has weathered some tough storms, some probably of its own making and others that were unavoidable. But the fact that the organization has survived and is in a healthy condition today speaks well both for the management and the membership. Land O'Lakes is an important institution in Thief River Falls and has contributed materially in several ways to the growth and prosperity of the community. So to the officers and members we say Happy Birthday, and express the wish that the organization may enjoy a long period of maturity, the most useful period of any living thing.

Rejection by the army of one out of every four men because of physical disabilities is not encouraging news, or should we be glad that three out of every four are O. K. In considering the figures it should be remembered that the army's present physical standards are kept at a high level. A large number of those rejected are disqualified for such minor shortcomings as insufficient teeth. By and large, the government probably is wise in maintaining a high physical standard at this time. We know from past experience that the later ailments of all veterans are traceable directly to military service and we may expect that the government will have to pay the doctor bills thruout the lives of most of the fellows who now enter the service. That being the prospect, the army can save the government considerable future expense by accepting for service only those who at this time are unquestionably in good physical condition.

RECREATION HIGHLIGHTS

The recreation program is sponsored by the City Council in cooperation with Work Projects Administration recreation leaders.

Puppet Show

The first of the monthly summer shows will be held on Thursday, June 19th, at 3:30 o'clock in the arena puppet theatre. "Raggedy Ann and the Whale" will be the first summer production. Mothers are invited to attend these shows with their children. Camille Dostal, puppetry leader, hopes that attendance for the summer shows will be as large as during the school year. Having shows only once a month as compared to the weekly shows of the school year ought to draw large crowds from those interested in this field of fantastic figures.

Camp Day

This is another feature of the summer program, which was very successful last year. Both boys and girls are guided by Camille Dostal on nature and educational hikes and picnics. The first of these outings, held each Wednesday, was on schedule last week. Included in the first hike were Goldie Hustvet, Mary Johnson, Donna Ray Bjkeren, Jo Ann Johnson, Carol Bjkeren, Lois Grindeland, Jean Effinger, Jean Brooten, Jeanne Davidson, Marilyn Brooten, Jack LaSalle, Bobby Dempster, and Junior Perkins. All had a very nice time preparing lunch over a campfire and playing active games. Other children interested in camping activities are encouraged to join this group in their outings.

Keep In Mind

1. Archery at East-side park. 2. Playground equipment at Northrop, St. Bernhard's and East-side park. 3. Softball games at the fairgrounds. 4. Swimming at Tindolph pool. 5. Puppetry, handicraft, and craft work in the arena. 6. Camp day. No charge is made for participation in these activities. Everyone is invited to take part in the activities of the recreation program.

HAMM'S BEER

A revolutionary new brewing process now retains all the
EXTRA GRAIN GOODNESS
of Northwest's finest barley

BEER LOVERS all over the Northwest are switching to HAMM'S "Smooth and Mellow" Beer. They've learned of HAMM'S superiority due to a new brewing process which retains extra grain goodness that formerly escaped in brewing. There's never any harsh hop bitterness in HAMM'S Beer either, as our brewmasters steep only the finest hops obtainable just ½ the usual time. This allows only the tasty hop flavors to enter the brew, and keeps out all harsh hop bitterness.

In HAMM'S you'll enjoy not only extra grain goodness without harsh hop bitterness, but full richness of the malt. We malt Northwest's finest barley right in our own huge malting plant, where it's under constant control of our brewmasters.

Second Series of Matches Is Scheduled for Friday Afternoon

Last week's match in the Baloney Golf league resulted as follows: Oscar Cerny's Hurricanes defeated C. W. Mattson's Tankers; Ed Carlson's Spitfires defeated Frank Kobliska's Bombers; Dr. H. K. Helseth's Leathernecks defeated Irvin Swanson's Gobs; and Rudy Sagmoen's Doughboys won from Archie Hensrud's Wasps.

The twice-postponed opening matches were played over a rain-soaked course Sunday morning. Larry Berg's 41 was the low gross for the matches; while Ed Karwand's 35 was the low net, shooting a 45 and having a handicap of 10.

The schedule for Friday, June 13, at 5 o'clock: Bombers vs. Leathernecks; Hurricanes vs. Wasps; Doughboys vs. Gobs; and Tankers vs. Spitfires.

Girls D-Ball Team Loses Decision to Boys 16 to 6

Mrs. Camille Dostal's "Sluggers", a team selected from the membership of the Girl's club of the city recreation project, dropped a 16 to 6 decision to Billy Nelson's "Luggers" in a twilight diamondball game played on the fair grounds diamond Monday evening. Winsome Sue Prichard, pitching for the "Sluggers", held the boys to but 4 hits; while the girls clubbed the offerings of the three boys hurlers—Bobby Olson, Marvin Carlson, and Sonny Johnson—for 5 hits. Only poor fielding support kept Sue from winning the game.

LOCAL BALL TEAM DEFEATS WARREN HERE SUNDAY 1-0

Hallamack, on the Mound for Local Club, Collects 13 Strikeouts

Scoring the game's lone tally in the last half of the ninth inning Thief River Falls defeated Warren, 1 to 0, in a nip-and-tuck ball game played on the local diamond last Sunday.

After Birdean Norness had gone down, pitcher to first, Wally DuChamp, who was the hitting star of the game with "three for five", lofted a double into left field, moved to third base on a wild pitch, and scored the game-winning run when Nick Bromberg drove a ground ball to short. Allen made the play at the plate but Wally slid across the rubber for the marker.

Bill Hallamack, on the mound for the locals, pitched neat ball, collecting 13 strike-outs and allowing but 5 hits. Three of the base knocks garnered off Bill's delivery were of the "scratch" variety; and only twice during the game did Warren threaten to score. In the first inning Warren loaded the bases (on a base on balls, a fly ball that was misjudged, and a hit batsman, with two men out, and Bill forced Engelstad to ground to first baseman Cockrell. Warren again threatened to break into the scoring column in the ninth inning, when McGlynn slashed a single off Zimmermans' glove, stole second, and scampered to third.

Wally DuChamp, in the sixth inning, came up with one of the fielding gems of the game. Warren's Arnie Howard had looped a single into right field, gone to second on a steal, when McGlynn drove a long ball into center-field. Wally took the fly for the out and then pegged a perfect throw to third-baseman Bobby DuChamp to cut down Howard as he tried to advance on the out. Wally's play was only one of several fine fielding plays. Howard, Warren's center-fielder, made two splendid catches, on a diving catch of Lenny Helquist's well-hit ball, which would have scored two runs had it gone for a hit. And Warren's young third-baseman, Winton Znerold, put up a fine game, handling six chances cleanly.

Manager 'Chuck' Dostal will take his team to Warren next Sunday, for a return game on their reconditioned diamond.

Robbers Get $46,182 at Minneapolis Brewing Co.

The Minneapolis Brewing company, in Minneapolis, of which Charles Kiewel, brother of Ben Kiewel of this city, is president, was robbed Friday of $46,182 by four bandits, armed with sawed-off shotguns and revolvers who entered the company's office. The loss was covered by insurance and was paid to the company four hours after the robbery occurred. The large sum of money, officers explained, was kept on hand to cash checks for beer parlor operators.

The Mighty Have Fallen

By a 7 to 5 score in 9 innings, the red-shirted Kiewel's dumped the haughty Harts team from the D-ball league leadership Monday night.

Here's the epic 9th inning in detail (the Harts boys had held a 4 to 2 lead going into the 7th inning, but Kiewel's had knotted the score on Ole Ness' single and Harry Wisdom's triple, with two men out; Ole scoring on the hit, and Harry counting the tying run when two Harts errors permitted him to score after Harts had caught him in a "hot box" between third and home): Hans Kaushagen was safe when shortstop Solheim fumbled a ground ball; Austin Shanahan walked; Ole Ness poked a hard single into center-field, and Howie Holum, Harts center-fielder, made a fine throw in to the plate to nab Hans as he tried to score; Shanahan moving over to third on the play, and Ole stopping at first. Wisdom was safe at first when little Ray Offerdahl, playing second base, muffed a high pop fly; Shanahan scoring, and Ole scrambling to second. Pitcher Al Ness in an attempt to pick Ole off second, heaved the ball into center-field, with Ole rounding third and coming home with a tally, and Harry Wisdom came all the way around for the third score of the inning when Holum began to play catch with himself. Eide was out on a fly to Jaranson; and Wally DuChamp ended the Kiewel rally with an infield out.

Harts grabbed a run in their half of the 9th. With two men away, Goose Gulseth walked, stole second, and scored on Poop Offerdahl's line single into left field. Johnny Jaranson's pop fly to Pres Larson ended the game.

But in fairness to the Harts team it must be admitted that they had a make-shift lineup on the field. Arnie Karlstad, Bill Hallamack, Don Lorentson, and Roy Lee weren't on hand. What made the defeat particularly griping to the Harts club was the fact that this defeat, the first they have suffered in league play for over a year, was handed them by Ole Ness' outfit. To the Harts there's only one thing worse than that: they could lose to Walt Larson's Land O' Lakes team on the 23rd. But they guarantee that that sad event won't occur.

By the way, the Harts team is the club I picked to win the championship, isn't it?

Walt DePaul on the Faculty

The school board transacted some important business Monday night when they accepted Walt DePaul's application for a position on the high school faculty. The contract is awaiting his signature, and while it isn't for sure that he will sign (Walt has applied at a couple of other schools) it is though that, everything else being equal, he will come here.

In case John Lindenmeyer is called into active service (he's a first lieutenant) Walt can coach football and track. And in an unlimited emergency we could draft Lloyd Bennes and Roy Oen to assist in the football coaching; and principal Bill Claffy is a qualified basketball coach. But to make the set-up complete, some positions, such as assistant to the assistant coaches, should be created for those fifth columnists of local athletics, Al Holzknecht and Judge [illegible] as the slickest way to stifle their criticisms.

Sunday's Ball Game

Sunday's game was originally scheduled for the Warren diamond; but they are re-building the field over there and it was learned that their diamond wouldn't be in condition for the game, so a hurry-up change brought the contest over here.

The game was pretty much of a duel between the veteran Bill Hallamack and Warren's Curtis "Legs" Engelstad, with Bill's cagi-ness bringing him home the winner. Rosy Rosendahl handled the Warren team in the absence of their manager Harald Stroble, who was in attendance at a recreational directors meeting in Bemidji.

Jesse DuChamp wasn't in the local lineup. Jesse and manager Chuck Dostal got into a wrangle about something or other, and the result was that Jesse turned temperamental and threatened to quit baseball forever. But I hope Jesse changes his mind and gets into the lineup next Sunday, for Jay is a pretty fair ball player.

They're Eating Meat This Week

The fellows that were angling for pike during the week-end are dieting on hamburger steak this week, for so poor was the fishing. Oscar Ellingson, Sig Salveson and Johnny Jacobson tried Leech lake, near Walker, and became discouraged by the high waves, poor boats and slow fishing. Ole Ness was at Round lake, south of Red lake, and he reported a blank. And even Wheelers' Point was sour, for Cliff Bjorkman was there on Sunday, bouncing up and down on the rough water until he became seasick, and only hooked two walleyes.

He left Wednesday for that city in company with his parents, who stopped over in St. Paul to attend the annual convention of the Minnesota State Bankers association ending Friday. Results of week's game:
June 9th, Kiewel's, 7; Harts, 5.
The week's schedule:
June 12th, Red Lake Falls vs. Bridgeman's.
June 13th, Kiewels vs. N. Y. A.
June 16th, N. Y. A. vs. Viking
June 17th, Red Lake Falls vs. Land O' Lakes.
June 19th, Bridgeman's vs. Kiewels.

Rain washed out all but one of the games on the week's D-ball schedule, but that one game that was played witnessed the defeat of the city champion Harts team, in an extra inning contest, by the Kiewels', 7 to 5. The defeat dropped the Harts into a three-way tie for second place, with Kiewels' and Red Lake Falls; and elevated the green-clad Land O'Lakes team to the top rung.

Monday's game was an exciting affair, but it was marred by sloppy fielding by both teams. Kiewels opened the scoring with a tally in the 1st inning; but Harts, taking advantage of Gordy Kaushagen's wildness, marked up 3 runs in their half of the 1st inning. Kiewel's chalked up a run in the 3rd inning to narrow the Harts lead; but the champions added a score in the 4th inning, and they held a 2 run lead until the 7th inning, when Kiewels counted twice to send the game into extra innings. And a 3 run outburst in the 9th inning brought Kiewel's in the victors. Gordy Kaushagen and Gaynor Eide were the battery for Kiewel's; while Al Ness and Clarence Offerdahl went the route for Harts.

POISON BAIT FOR GRASSHOPPERS IS NOW OBTAINABLE

County Agent Says Infestation Is Not Serious This Year

Poison bait for grasshopper control is now available to Pennington County farmers, according to County Agent Ernest A. Palmer, who is in charge of grasshopper control for the county. The mixing station at the county shed is in operation under the same plan as in former years and farmers who have infestations of grasshoppers are urged to spread the poison bait before crops are damaged.

Mr. Palmer states the grasshopper situation is not at all severe this year as the hoppers apparently have been held under control somewhat by the cold, damp weather and, with the abundance of grass, grain crops may not be damaged to the extent prevailing in dry seasons.

Second Time

When Joe Louis knocked out Max Schmeling in less than one complete round, it was the second time in his fight career that Schmeling suffered the same fate. Back in 1928, an unknown fighter, one Gypsy Daniels, finished the Teuton in two seconds less than it took the Brown Bomber.

JUDGE W. WATTS, 91 GUEST OF DISTRICT BAR MONDAY NIGHT

Paul Lundgren Is Elected Vice President of Association

The ninety-first birthday of former District Judge William Watts was the occasion Monday night for a gathering of members of the Fourteenth Judicial District Bar association and three members of the state supreme court who gathered for a dinner program at Hotel Crookston.

The state supreme court was represented by Chief Justice H. M. Gallagher, and Justices Charles Loring and Julius Olson.

Places were laid for 32 guests at the dinner, members of the bar association from all parts of the district, and the judges and court attaches. The place of former Judge Watts was marked by a large bouquet of roses, presented him by the bar association as a birthday remembrance.

Informal talks were given by all members of the state supreme court, and by others, the talks being chiefly in tribute to the retired jurist. Mr. Watts responded to the toasts in a reminiscence of the early days of court.

The meeting was the occasion for the annual election of officers of the district bar association. Olav Vaule of Ada was elected president of the organization, Paul Lundgren of Thief River Falls vice president; L. S. Miller, secretary and W. P. Murphy, treasurer.

Sjolander Points Out New Regulations as to Part-Time Employes

Because the federal social security board has required revised regulations and procedures in Minnesota, effective June 1, for the payment of partial unemployment benefits, C. H. Sjolander, local manager of the Employment-Security division's office in Thief River Falls, is urging all employers and workers to familiarize themselves with the new system which became effective June 1. Mr. Sjolander says that there may be employees who are entitled to partial unemployment benefits but who have not been receiving them. The revised procedures, he says, are designed to expedite the filing and payment of claims and should prove more effective than the old method.

The main problem, according to Mr. Sjolander, has been that both employers and workers had no clear idea of what partial unemployment is, and under what circumstances benefits are payable for this type of unemployment under the Minnesota employment and security Act, the new name of the statute that heretofore has been known as the unemployment compensation law.

A worker, it is explained, is partially unemployed when he works for a regular employer but suffers a loss of earnings because of a reduction in his working hours, due to lack of work, below normal full-time. A man does not have to lose his job to claim partial benefits. The employer-employee relationship is maintained but the employee does not work full time. However, he must be available for full time work if his employer needs him.

Mr. Sjolander pointed out that partial benefits are payable only where the worker's reduced earnings are due to lack of work on his regular job. They are not intended to compensate workers who, for personal reasons, choose to work less than full time.

FFA North Shore Trip

(By Kenneth Melin)

The North Shore trip which was taken last week by 27 F. F. A. members was something to be remembered by all of us. With the guidance of Mr. Harrison, our instructor, I am sure we saw the sights of importance.

We left Monday morning at about 8 o'clock. Mr. Bye who has always cooperated with the F. F. A. was present to see us off. The first day was spent on the road to Duluth, stopping only a few times for sight seeing along the road and dinner at Grand Marais. Most of the boys were pretty tired on Tuesday morning from walking up hills in Duluth the night before. The aerial bridge and ore docks were the biggest attraction in Duluth.

The second day was spent on the road from Duluth to Port Arthur. A short stop was made at a light house. We were very interested in finding out how such a large amount of light could be produced by prisms from such a small bulb. Before going to Port Arthur we drove to Kakabekka Falls. This was our first scene in Canada and well worth seeing. Kakabekka has a fall of 128 feet.

We had a swell night's rest at Chippewa Park in Port Arthur. We all slept in cabins along the lake. Some of the boys stayed in the park for a dance while others of us went to town.

The next morning we drove to Fort William. The large elevators were an interesting sight. I think the biggest surprise to most of us in Canada was the large army camps. We saw several of these camps, most of them covering an area of several blocks. There were airplanes in the air all the time.

Although we could not get a good view of the air field we saw several planes take off from the army air field.

The last morning was spent in seeing Hibbing. We had the luck of having a motorcycle patrolmen escort us to the spots of interest. The high school, Memorial building and iron mines were the stops we made on a tour of the city.

The total cost of meals and hotels was $156. The cost of transportation was very small, here we can thank Mr. Bye and the school board for letting us use the school bus. We thank Mr. Noper for driving. The cost of gas and oil came to $26. We had $10 left when we returned of our $192.

Dean Coffey Solicits Local Help in Building Morale of Draft Army

An appeal for active participation by civic and service clubs as well as individual community leaders in every county in Minnesota was issued this week by Dean Walter C. Coffey of the University of Minnesota in his capacity as state chairman of the United Service Organizations for National Defense. The USO is raising $10,765,000 throughout the nation to provide for morale-building recreation and entertainment services for men in the nation's armed forces.

Those willing to help in the campaign should write immediately to USO Headquarters, 234 Citizens Aid Building, Minneapolis.

The USO has been organized on an interfaith basis by six organizations which served similarly during the last war. These are the Young Men's Christian Association, National Catholic Community Service, Salvation Army, Y. W. C. A., Jewish Welfare Board and National Traveler's Aid Association.

Kitty's Komments

The lot of a farmer is a gamble every minute of the day. What you seed in the spring has around one chance in ten to grow to full maturity to be harvested and threshed in the fall. Drought, hail, wind, wilt, frost, pests (grasshoppers) and floods all give the farmers many a headache.

Rain is a called-for necessity when fields are suffering from drought. The little plants lift thirsty faces to the life giving fluid that falls from the skies. The farmers are glad. But when the rain unceasingly pours down and ponds begin to form in field and garden, the dead weight of worry falls on the farmer. The patter of rain on roofs take on a hateful sound; the eyes of the farmer are ever anxiously scanning the leaden skies for that break in the clouds that may mean the clearing up of stormy weather.

The Divine Maker endowed the farmer with a courage like a shining rapier of steel, pliant enough to bend under adversities, yet ready to spring erect, quivering with new hope for that next year.

Let me paint you a word picture. Before you, you see a disconsolate figure clad in the farmer's raiment, patched blue overalls, gazing dejectedly at the ruin of once a promising field of grain, now inundated. Side by side is a higher meadow of luxuriant grass. The figure in overalls eyes the waving green fodder and thinks, "What a lot of hay I'll get this year!"

With a spring in his step, he wends his way to give his haying equipment a thorough greasing job. There's work to be done! That's our farmer!

Not Again In A Lifetime

WHEN political and moral standards deteriorate and honesty warped; when our whole conception of life, and business, and work is threatened; when we no longer know where to turn for security; when, in short, the world is threatened with moral and financial chaos as today, then there is nothing for the individual to do but to turn to real values for protection.

A home is such a value, fundamental and unchanging.

Against a future that for every family in this country is dark with the terrible uncertainty of war, the home stands out in bold relief as the only sure and satisfying refuge.

The cycle of war for the individual and the nation is always the same—artificial prosperity, rapidly rising prices, personal misery and unhappiness, some kind of inflation, and then harsh readjustment.

Although not now a belligerent, this country has already entered the first phase of the cycle—artificial prosperity. Rapidly rising prices will follow soon. But there is still time for the individual permanently to fix his shelter costs at a reasonable level.

The man who does this now may be sure that he is acting wisely and well. He has built a strong shelter against the storms without. And when this dreary period of killing and destruction, of insane ambition and wanton sacrifice ends, as end it must, his home will stand as a blessing to his family and a living tribute to his foresight.

Whatever happens to you or your job, you must have shelter. Today you are buying that shelter at the lowest cost . . .

No other possession is safe. Money, stocks and bonds are not values, but only symbols. They can disappear over night, but a home remains always that. The only real security is a home of your own . . .

Today you are far surer, far safer, investing in a home than you can be of anything else.

Yes, this is a good time to build.

In the lifetime of most of us, there will never be a better.

From the PRACTICAL BUILDER, May, 1941.

This is well worth reading twice.

THE GREATEST FAMILY*
in the Northwest!

Celebrates 20 YEARS OF PROGRESS

All men dream and hope, but America has free men who think and act—and make their dreams and hopes come true!

In a single mighty force men of America work together. Their co-operative effort is a Principle inherent in Democracy.

Working for the Good of All America—defending America's security in its way of life—these are goals that challenge Manpower in America to get things done!

Twenty years ago this Dairy Month, Northwest Dairy Farmers dreamed and hoped and planned. They organized their own co-operative marketing association. They set a course. They toiled. They reached their goal and soared on to even undreamed heights.

Today, Land O'Lakes Creameries, Inc.,—built by Manpower in America working in the spirit of true co-operation—may well celebrate its 20 Years of Progress.

Through their own co-operative effort — through public confidence earned — through their co-operative ownership of the farmers' own brand name—Land O'Lakes Dairy Farmers today face the world secure and unafraid!

Billions IN VOLUME—*Millions* OF EXTRA DOLLARS FOR NORTHWEST DAIRY FARMERS

● Twenty years ago on June 7, 1921, dairy farmers representing 350 Minnesota co-operative creameries met in the State Capitol in St. Paul and organized their own co-operative marketing association. The organization was first known as the Minnesota Co-operative Creameries Association. It became Land O' Lakes Creameries, Inc., when its benefits were extended to all dairy farmers in the Northwest.

● Today Land O' Lakes consists of hundreds of creameries, cheese factories, cream stations and milk plants throughout the Northwest. Ownership of these is vested in nearly 100,000 Northwest Dairy Farmers.

● Besides owning all their own creameries, Land O'Lakes Dairy Farmers own and control their principal plant at the Northwest Terminal in Minneapolis, plus receiving, processing and manufacturing plants at Albert Lea, Lakefield, Thief River Falls, Rush City, Milaca and Duluth in Minnesota; Luck and Plymouth in Wisconsin, Valley City in North Dakota; a large receiving, processing and distributing branch at Chicago, and sales branches strategically located to serve the highly populated principal marketing areas of the nation.

● Land O'Lakes Dairy Farmers have proved themselves able business men. They have earned a record of financial responsibility matched by few in business. Land O'Lakes has never asked for discounts on any of its obligations. In the handling and retirement of its certificates and capital obligations, it has always maintained the face value and par value even during all the years of one of the worst depressions in world history.

● The Land O'Lakes aim is to return the biggest possible share of the consumer's dollar to the farmer. In spite of increases in costs of materials, labor and taxes Land O'Lakes reduced its per unit operating cost in 1940 over the previous year.

● In 20 years Land O' Lakes sales of dairy products total 1,910,195,178 units.

● Each Land O' Lakes Dairy Farmer has marketed an average of $10,000 in dairy products through Land O'Lakes.

● As a result of co-operative marketing, the Land O'Lakes farmer nets today about 4 cents more per pound for his butter. This extra income has accrued to other Northwest dairy farmers, too. Today this means eleven million extra dollars yearly for dairy farmers in Minnesota alone.

● Quality improvement is one of the greatest achievements of this co-operative organization. It has meant higher returns to the farmer. It has established and maintained public demand for the Farmers' Own Brand. Land O' Lakes is the world's largest selling sweet cream butter.

Maintaining roads is my business...and believe me, you save with CONCRETE

"After you've spent years trying to keep so-called 'low-cost' roads in a travelable condition, it's a relief to get assigned to a stretch of concrete. Concrete is easy to maintain—saves the taxpayers real money."

Real money is right! Concrete roads cost $71 to $495 per mile per year less for surface maintenance than other pavements. Less to build than any other road of equal load carrying capacity. Less to drive on than lower type pavements.

INSIST ON CONCRETE FOR YOUR HIGHWAYS

Money spent on highway maintenance reduces funds available for new construction. That's why it's a good highway policy to build with concrete and reduce future maintenance expenditures.

Ralph Newton Weds Goodridge Girl

Against a background of pink and white roses and lilies of the valley and under an archway festooned with green, pink and white streamers, at the Grygla Lutheran Parsonage, last Saturday evening, Ralph Newton, son of Mr. and Mrs. Olaf Newton and Miss Christine Bakken were united in marriage. Reverend S. T. Anderson read the single ring ceremony in the presence of the groom's brother and sister-in-law, Mr. and Mrs. Norman Newton, the time was seven o'clock. The piano rendition of the wedding march from Lohengren, which preceded the ceremony, was given by Miss Rachel Anderson.

The bride chose for her wedding a beautiful floor-length gown made with a fitted bodice of white lace with long full sleeves and a full skirt of navy blue sheer, caught at the waistline with a scarlet sash. Her accessories were white and she carried an arm bouquet of red and white roses and fern. A coronet of white completed the ensemble.

The matron of honor wore a lovely floor-length dress of pink taffeta with shirred top, fitted girdle waistline, and full tiered skirt. Her accessories were white and she wore a corsage of red and white roses.

Following the ceremony the members of the wedding party with close friends and relatives were entertained at the Olaf Newton home. Lunch was served at a table centered with a beautifully decorated wedding cake.

Queen Elizabeth was not the divinely sweet creature that the historians and poems of her time presented her. Her temper was as redhot as her hair. OVER 1,200 GIRLS AND BOYS ATTEND CROOKSTON CAMP

Rain Friday Hampers Out-of-Doors Events at N. W. School

Twelve hundred and thirty-four 4-H club members from 13 Red River Valley counties attended the 20th annual club week at the Northwest School of Agriculture at Crookston which closed on Saturday, June 7. H. A. Pflughoeft, district leader of 4-H clubs, and camp leader, stated "The 1941 camp has been one of the most successful camps ever held in the Red River Valley. All classes and group discussions were held, the heavy rains at the close of the week interfered only with outdoor sports." One hundred and forty adult and junior leaders attended the leaders' training school which was run concurrently with the 4-H Club project classes.

In appraising the accomplishments of 4-H club members at the camp, Superintendent T. M. McCall stated "The outstanding extracurricular feature of the 1941 4-H club camp was the fine showing made in music. In addition to the keen competition in vocal and instrumental music numbers between counties, vocalists from all counties of the two groups united and formed two mass choruses of 80 and 100 voices which sang at their respective camps. J. Clark Rhodes, music director, agricultural extension division, University Farm, directed the music during the week.

Judges in music and dramatics contests were unanimous in their praise of the high quality of talent participating in the competitive events.

Thirteen county groups competed in the one act play contest with five counties qualifying for the blue ribbon awards. County one-act play casts receiving the blue ribbon award include: Clay, East Ottertail, West Ottertail, Marshall and Red Lake. Counties winning the red ribbon award in one-act plays included: Becker, Mahnomen, Norman, West Polk, Clearwater, Kittson, Pennington, and Roseau.

In the vocal contests, counties were represented by individuals or groups. Counties winning blue ribbon awards in the vocal contest include: Clay (boys' quartet); Mahnomen, girls' trio; Norman, mixed sextet; West Polk, girls' quartet; Marshall, mixed chorus; Pennington, girls' trio; Kittson, girls' trio; Red Lake, girls' sextet.

Lunch Came Back

Peter Malm of Malden, Mass., who lost his lunch bag when the handle got caught in the door handle of a passing automobile, has it back now. He caught the license number of the car which spirited away his empty lunch basket and a police checkup found it hanging on the doorknob of William E. Parker's machine in New Bedford, 50 miles away.

No Fiddle for Nero

Nero was not the monster that history portrays. His mother was not put to death by his order, nor did he play either the harp or the fiddle (the fiddle was not invented until hundreds of years later) while Rome burned. Neither did he sing "The Burning of Troy" on that occasion. The stories originated from Tacitus, who cordially hated Nero, and from Petronius Arbiter, who was put to death for a conspiracy against Nero.

Soy Beans Versatile

The University of California, home economics department, has discovered a new use for soy beans. It is the manufacture of a substitute egg white. It is made from waste soy bean substance and can be used for making mayonnaise, whips, pie fillings and meringues and candies. The shutting off of imported egg powder from China due to the China-Japanese war created a need for egg white substitutes.

STASSEN PICKS STATE DEFENSE GROUP FRIDAY

Will be Directed by E. L. Olrich, State Defense Coordinator

AIDS COOPERATION WITH U. S. AGENCIES

Governor Requests All Loyal Citizens of State to Aid Program

Governor Stassen, saying that the state is being called on to an ever increasing degree for defense aid, announced Friday the creation of a seven-committee body to be known as the Minnesota defense counsel under the direction of E. L. Olrich, state defense co-ordinator who becomes director of the counsel.

Olrich is president of Munsingwear of Minneapolis.

"In announcing this defense organization I ask all citizens of Minnesota to aid loyally in building up the defenses of the country," the governor said.

"I further request that all loyal citizens be given full opportunity to participate in all parts of the defense program in keeping with democratic principles without discrimination for race, color, creed, nationality, background or economic status."

The governor said he felt that the time had come when the state should organize and divide definite defense responsibilities. He proposes to do this by creating seven divisions each with a chairman from the various state departments and further consisting of committees developed from the people of the state.

As an illustration of what the council would accomplish he referred to the projected St. Paul small arms plant and said that members of certain committees probably would go to other places in the country where such plants have been established and familiarize themselves with the problems that develop so that the Minnesota project could proceed smoothly. Some of this work already has been undertaken in connection with the St. Paul plant, he said with the result that the state was able to give the federal government assistance in respect to the question of sites and railroad facilities.

Activities of the various committees will be financed from budgets of the several state departments, supplemented by such emergency appropriations as may be necessary.

The committees with their directors and outstate members follow:

State advisory council in defense—E. L. Olrich, chairman.

Civil protection — Elden Rowe, chairman.

Employment and security—Victor Christgau, chairman.

Human resources and skill — H. C. Schmid, chairman.

Agricultural resources and production—R. A. Trovatten, chairman.

Military affairs — Lieut. Col. Joseph Nelson, chairman.

Health, welfare, housing and consumer interest—Walter Finke, director.

Eight dresses and seven sweaters were made for the Red Cross by our Auxiliary. We sponsored a children's Christmas party for veteran's children at which 38 were entertained. Mrs. O. G. Our Auxiliary again sponsored the Poppy Poster Contest in the city schools. Four prizes were awarded to the following: Northrop—Robert Berg, Knox—Kenneth VaVea, Washington—Robert Olson, and St. Bernard's—John Belland. Mrs. Hector Bergstrom and Mrs. G. Vivian Ward Weds Ensign L. O. Johnson Jr. Tuesday At Trinity Church Here

The marriage of Miss Vivian Ione Ward, daughter of Mr. and Mrs. Gaston Ward of this city, and Ensign Lindahl O. Johnson Jr., of Minneapolis, son of Mr. and Mrs. Lindahl O. Johnson of that city, took place in the Trinity Lutheran Church at 2 p. m. on Tuesday, June 17. The single ring ceremony was read before an altar banked in white and Rev. R. M. Fjelstad prompted the exchange of vows. The church was decorated with a profusion of peonies and other spring garden flowers.

A half-hour interlude of piano and organ music preceded the ceremony, and "At Dawning" and "O Promise Me" were sung by Robert J. Lund. The bride then entered to the strains of the wedding march from Lohengrin, and was given in marriage by her father.

The bride wore a cream magnolia crepe suit and a shoulder corsage of roses and sweet peas. Her only jewelry was a single strand of pearls, a gift of the groom. Her bridesmaid, Miss Georgia Lytton of Rochester, chose a flowered dress and wore a corsage similar to that of the bride's. Mrs. Ward, mother of the bride, was dressed in a navy blue panorama crepe afternoon dress, while Mrs. Johnson, mother of the groom, chose a rose crepe street-length dress. Albert Jacobson of Minneapolis, cousin of the groom, was his attendant.

Mendelssohn's wedding recessional was then played as a duet by Mr. and Mrs. H. F. Harrison, and the bridal party retired to the Ward home where a reception was given for close friends and relatives of the couple. Bouquets of flowers were used to decorate the home. Mrs. A. O. Sletvold of Detroit Lakes poured. An early buffet supper was then given by Mr. and Mrs. Ward for the relatives. Small tables were placed on the lawn, with bouquets of flowers decorating each table.

Out of town guests present for the occasion were Mr. and Mrs. Albert Jacobson and Mr. and Mrs. Lindahl O. Johnson Sr., of Minneapolis, Senator and Mrs. A. O. Sletvold of Detroit Lakes and Swerre Loveld and daughter Ruth Elda of Argyle.

Official Paper of Pennington County and City of Thief River Falls

From whatever way you look at it, the sinking of the Robin Moor can be classified only as a German blunder. Had an American ship been sunk in that area of the sea that has been declared a combat zone then the reaction in this country would have been entirely different. But the Robin Moor was not in or near a combat zone. It was an American ship engaged in peaceful service in the south Atlantic. Even a Minnesota Senator would not deny our right to sail American merchant ships in the south Atlantic. Nothing the Germans could have done would have strengthened so much the position and the policies of the administration.

Railroad men are seriously concerned about possible equipment shortage and are asking for the co-operation of shippers in unloading cars as speedily as possible in order that maximum use may be made of equipment that is available. Besides meeting the greatly increased demands of the defense program the railroads now are being called upon to handle much freight that formerly was shipped by boat. A big harvest, now starting in the Southwest, will tax facilities to the limit. It is a problem in which the public is directly concerned. In the interests of better service, the railroads deserve all the co-operation shippers can give them.

Recent developments indicate that Uncle Sam has tightened his belt and is now settling down seriously to the business at hand. From now on there will be less monkey business. As a nation we are committed to a course of action. On our ability to follow that course through to a successful conclusion depends the existance of our free institutions. There is justification for the criticism that up to the present time our government has been flabby in the execution of its avowed policies. Recent action indicates that the skipper has taken a strong grip on the wheel, that the period of drifting has ended and that from now on the ship of state will follow a straight course.

Yes, our community is sharing to some extent in the economic benefits of the defense program. For the month of May, for instance, the local creamery paid its patrons $49,261.33. For the same month last year it paid out only $27,520.14. A part of this gain of nearly twenty-two thousand dollars in one month was due, of course, to increased volume. But a large part of it was due, too, to the increase in the market value of butter. Other important local crops that are bringing comparatively big returns are eggs and wool. We would not trade these benefits for the temporary advantages we might derive from an army camp or a munition factory being located here.

How much damage and how much good did the recent heavy rains do? Reports vary from different communities. The results will depend not so much on what the weather has been but rather on what it will be from now on. Those who speak with authority on such things tell us yesterday's extreme heat was just as hard on the crops as the excessive moisture of the previous week. We are now in the middle of the season of worry.

It's too early of course to write the final chapter but it strikes us that the Japs are becoming more reasonable right along. They're not talking nearly as big now as they did a few months ago when, after lining up with Hitler, they started using his method of bluster and brag. And Hitler is not talking so big about his oriental allies either. Up to the present it appears that we may have gained a point by using a little rough talk of our own.

What was the date Hitler set for that speech he was going to make in London?

ERIE

The Womens' Missionary Federation of the Lutheran church of Northwest District met Wednesday June 11th at the Eklund church. The Eklund Ladies aid served a very nice dinner and lunch in their newly completed dining hall and deserve much credit for their work in helping to make the day a grand success. The St. Hilaire ladies aid extended an invitation for the fall meeting.

The church picnic held Sunday at the Martin Knutson farmstead by Little Oaks congregation was attended by a very large crowd. The speakers were Rev. H. Lie of Fisher and H. O. Berve of Thief River Falls. Several musical numbers were presented by local talent. The ladies aid served a bounteous and delicious lunch. The proceeds will go to the church budget. The weather was ideal and the beautiful and spacious grounds of the Knutson farm added much to the comfort of the people present. Thanks to Mr. and Mrs. Knutson.

The second meeting of the Nutrition project was held Monday June 9th at the home of Mrs. O. E. Farnow. Leaders Mesdames Race and Prestegaard gave the lesson. The next meeting is to be held on Friday the 20th at the Kjelgren home.

Miss Janet Trontvet arrived home Sunday from Halstad where she taught a month of Bible school.

Mr. and Mrs. John Hovet and daughters of Rochester were recent visitors at John's parental home, Tellef Hovets. Also George and Arnold Hovet and J. O. Andersons.

Jack London

Jack London's body was cremated and the ashes buried beneath a large red boulder on Sonoma mountains, near his home at Glen Ellen, Calif.

Kiewel's 12, N.Y.A. 3

The Kiewel's 12 to 3 conquest of the N.Y.A. Friday night was featured by the fine pitching of Gordy Kaushagen. Gordy, who allowed but three hits, collected 20 strikeouts during the 7 innings of play.

Al Rudd, in left field, put on a sparkling exhibition for the N.Y.A. pulling in four fly balls; and in addition he drew walks in his three trips to the plate, and scored two runs.

N.Y.A. 14, Viking 10

A four run rally in the 8th inning, sparked by Cagwin's triple, gave the N.Y.A. a 14 to 10 extra-inning win over Viking Monday night. Birdean Nornes pitched for the Youths, while the veteran Gilbert Holden and John Peters were on the mound for Viking.

Land O'Lakes 20, R. L. Falls 8

Twelve runs in the 5th inning, with every man scoring at least one run, broke up an 8 to 8 ball game and gave the league-leading Land O'Lakes a 20 to 8 decision over Red Lake Falls Tuesday night. The attack of Walt Larson's outfit drove four Red Lake hurlers off the mound: Ray Kitzro, Don Gullickson, Al Buse, and Helm, trying to stop the green-shirted boys. Woody Almquist, the Lakers "power" hitter, drove out his second homerun of the season, a long drive into left-center; and in addition Woody connected for a double and a single. Ham Myhrer pitched steady ball for the winners.

Hartz 15, C.C.C. 5

The Hartz team rebounded from their last week's defeat, by Kiewel's, and pounded out a 15 to 5 win over the C.C.C. last night. Bunching 7 hits for 8 runs in the 5th inning the red-shirted Hartz "iced" the game. Batteries for the C.C.C. were Glen Morian, and Cordts, pitching, and Merle Carlson, catching; while Al Ness and Clarence Offerdahl handled the pitching and catching duties for the winners.

Keeping Score

.... With HUCK OLSON

Orvis Olen's Big Fish

Orvis Olen, fishing out of Bob Cole's camp at Black Bay on Rainy lake during the week-end, hooked and landed a 24-pound, 43-inch great northern pike. And a dandy fish it is. Orvis was in a party that included Johnny Wiener, Kern Olson, Art Holte, Cal Colvin, and C. W. Mattson, and aside from this good fish of Orvis' the party did not do so well, for they caught but 25 wall-eyes during their three-day junket, and for Black Bay fishing, that isn't so good.

Orvis, who was casting a pike minnow near a weed bed, and for awhile, even though he was using a 30-pound test line, he was afraid that the fish would tear lose or strip the gears on his reel. And as he didn't have a gaff hook or a landing net he was forced to land the fish with an eye-socket grab. He's taken the fish to Jimmy Jenson's, to be mounted, and is expected to have it hanging up in his Sandwich shop in about a month.

Add: Fishing

Charley Vorachek fished on big Winni on Saturday, trolling near Stony Point; and in Cut Foot Sioux on Sunday, and he reported that the wall-eyes were biting, and they were averaging about 4 pounds. Oscar Ellingson fished Winni on Sunday, and he came back with six wall-eyes; but he said the lake was too calm for good fishing.

Guess I'll have to dig out my 3 oz. sinker and my 6 ft. wire leader, and go down there for some deep trolling for wall-eyes.

And don't forget that the season on bass, sunfish, and crappies opens on Saturday. There are a number of good bass lakes south of the Red Lake Indian reservation, around Halm and Round lakes. And there are quite a few crappies in the pool below the dam.

Jimmy Nordine's Red-Hot Golf

Playing in the Baloney league matches on Friday Jimmy shot a 34; and then followed with a 37 round. And on Sunday, in two rounds, he shot a 34 and a 32. Watching him play golf you think that he's using a rifle, so flat and straight are his drives and his long iron shots. Here's an example; on Sunday, off the No. 1 tee, his tee shot, always along the fence, lost its slight hook and took the ditch; but Jim took an iron and went into the ditch and shot his second on the green.

And it's good news for the local entry in the Polar league to know that Jim will be available for the league matches. That will give the local team the best No. 1 man in the circuit. And it isn't exactly bad news to know that Bill Sponheim is playing golf again; and while Bill isn't a Jimmy Nordine, he does shoot a consistent game, about a 78-80 for 18 holes, and he's a tough competitor.

Vic Jung, another top-ranking local golfer, who's spending a few days here on vacation, won't be here for the summer. Vic will leave for Texas in a couple of days, where his R. O. T. C. unit will go into training.

Still Receiving Congrats

Ole Ness, manager of the Kiewel's, the team that whipped the Hartz last week, said this: "I've received more congratulations for beating the Hartz team than I did when I got married."

A Triple Play

The few fans that were in attendance at the Junior baseball game at the fair grounds on Friday evening witnessed one of the more uncommon feats in baseball when the Crookston team, in the 3rd inning, completed a triple play. The locals had started a rally that sent Lenny Lorentson to third, and Hunt on second, and Johnny Campbell at bat, with no one away. Johnny struck out, with catcher Dowdle dropping the ball but recovering in time to whip the pellet to first to get Soup. Meanwhile Lorentson tried to score from third, and first baseman Laurent's throw to catcher nabbed Lenny; and then Dowdle pegged the ball to second to pick Hunt off the bag for the third out.

Stop the Land O'Lakes?

If they are going to be beaten during the first round of the league schedule it will have to be done by the Hartz next Monday night. And it's going to take some doing to beat Walt Larson's outfit, for they are playing pretty good ball just now. They have ample batting power, with Woody Almquist, the league's hardest hitter, as their cleanup man; and in Ham Myhrer they have the league's speed-ball pitcher. But Hartz' better-balanced club has a chance to dump the Land O'Lakes on Monday.

Not Entirely Unexpected

Cliff Gustafson's victory over Bronko Nagurski in Minneapolis Tuesday night, when Cliff threw the Bronk in 45 minutes, wasn't an upset. And by this win Cliff furthered his claim that he is a championship contender. Both of these wrestlers, Gustafson and Nagurski, are well known to the local fans, for they have appeared on cards here.

Belgian Woman Writes Local Acquaintance of Status under Nazi Rule

Miss Viola Bredeson this week received a letter from a woman whose home is in Antwerp, Belgium, and who is now living in Limoges, telling of the dire conditions confronting the victims of Nazi aggression. Miss Bredeson met the writer of the letter, Madame Rene Mondon, while traveling in Belgium three years ago. "I can assure you", she writes, "that we pass very troublesome days. Living is very expensive here, and everything is rationed. Everybody here is happy to learn that America will help us, as many people here are suffering terribly".

Bronko Gets Mad When Gustafson Whips Him

Cliff Gustafson, Gonvick wrestler, defeated Bronko Nagurski of International Falls before a crowd of 8,000 fans in the Minneapolis Auditorium Tuesday night. Nagurski's shoulders were pinned to the mat after a thrilling struggle lasting 45 minutes, and he was so incensed that he picked up Referee Joe Gallop of Duluth and hurled him from the ring, injuring his back.

Junior Ball Game Proves to be 'Walking' Contest

In one of the "walkingest" games ever played on the local diamond the Crookston American Legion Junior team overwhelmed the local Junior team, 19 to 2, in a game played here Friday evening. 28 bases on balls were issued during the 5 innings of play, with the three local hurlers, Lenny Lorentson, Don Berg, and Johnny Campbell, awarding 22 walks; while Willis Swanson of the Pirates gave up 6 bases on balls. The Crookston team performed an uncommon baseball feat in the third inning when they completed a triple play.

WOMEN'S CAMP AT N. W. SCHOOL WAS ATTENDED BY 141

Cloudy Weather Last Week Fails to Spoil Success of Affair

The sixteenth annual Women's Camp at the Northwest School, which was held June 9-12, set an all-time high record of campers in residence. This year's enrollment of 120 in residence broke the previous high record established in 1940 of 116 in residence. Some twenty-one women registered for a single day making a total attendance of 141 for the camp period. The new weather record of three cloudy and rainy days for the camp period failed to dampen the enthusiasm of the campers for the program and a very successful camp was held.

Nutrition of the family as a phase of the national defense program was the general theme of the camp, with health matters, interior decoration in the home, three types of handicraft, reception, banquet, movies, and recreation rounding out the program.

The two outstanding food specialists secured for the nutrition work were Miss Barbara Sampson, demonstrator from the Betty Crocker staff of General Mills, Inc., Minneapolis, and Mrs. Darline Knowles, human nutritionist from the food research laboratory of the North Dakota Agricultural College, Fargo. Dr. C. L. Oppegaard of Crookston brought to the members of the camp the latest information on "Food Allergies." Mrs. Ethel Hessenruth of the Panovitz Furniture company of Grand Forks, gave a demonstration on "Draperies and Curtains for the Home." Miss Sampson was assisted by Miss Gwendolyn Smith, food demonstrator for the Interstate Power Company of Crookston, and the Misses Helen Foker and Barbara McCall.

Handicraft work was of particular interest to camp members this year. Red Cross knitting was directed by Mrs. D. A. McKenzie of Crookston; Mrs. E. W. Eagle of Crookston gave instruction in the making of table decorations and table favors, and A. M. Foker of the Northwest School directed the woodcraft work.

The closing exercises for the camp were held on Thursday afternoon at which time Superintendent T. M. McCall gave the address and Miss Retta Bede presented the awards and certificates for attendance.

Northwest Bankers to Stage Summer Outing at Baudette June 21-2

The staffs of the two local banks will be represented at the annual summer outing of the Northwest Clearing House association at Klimek's resort near Baudette Saturday and Sunday. A banquet and election of officers will be conducted Saturday evening, the speakers including O. J. Jerde of the St. Cloud teachers college and William Duncan, secretary of the Minnesota Bankers association. W. R. Holbrook of Warren, president of the association, will be in charge of the meeting.

U. S. DEMOCRATIC CHAIRMAN URGES FUSION IN STATE

Seeks Permanent Alliance with Minnesota Farmer-Labor Party

A union of Democrats and Farmer-Laborites in Minnesota "not for any particular campaign, but for all time" was suggested in St. Paul Friday night by Edward J. Flynn, chairman of the Democratic national committee.

Flynn's suggestion came in a speech before Democratic woman leaders from nine states who gathered there for a regional conference on party problems and to hear an address Saturday night by Mrs. Eleanor Roosevelt.

Democrats and Farmer-Laborites, the national chairman said, stand for the same things, cherish the same ideals and aim at the same objectives. Yet, he added Republicans hold the governorship, both seats in the senate and eight of the nine seats in the house.

"That hardly makes sense," he said. "Isn't it the answer that we of the liberal parties have divided our strength; that three tickets in the field have enabled the undivided minority party to carry off practically all the prizes in the gift of the state?"

Asserting that "the third party holds the balance of power in Minnesota," Flynn said he did not suggest that "it abdicate that powerful position," but rather that the two groups get together in "union—not annexation," by which neither would lose its identity.

"A mutual indorsement of candidates selected at the primaries—in other words a fusion ticket—would jeopardize the independence of neither organization," he said.

STATE TAXPAYERS GROUP REPORTS ON LOCAL TAX LEVIES

Says Total Tax Levies Are up $441,351 in Two-Year Period

Total tax levies of local government has shown an increase of $441,351 over a two-year period, 1938 to 1940, according to a survey just completed by the Minnesota Taxpayers association.

The 84 rural counties have increased tax levies by $1,620,729 during the two year period, while the three urban counties have reduced their local costs by $1,176,378, the report discloses.

Total local levies in Minnesota, including rural and urban, were $99,208,027 in 1938, and had increased to $99,652,378 by 1940, an upswing of $441,351.

"Since taxes already are way out of line, even moderate local increases will receive piercing scrutiny from citizens today, since the federal government is in the midst of a critical national emergency that takes precedence over purely local matters," James P. McDonnell, President of the Minnesota Taxpayers association, declared in commenting on the levy reports.

"All public spending — in any layer of government—that can safely be eliminated should be dispensed with at this time in favor of the urgent requirements of national defense. Delay in adjusting our local requirements to meet national needs may prove dangerous. Critical times like the present demand local tax reductions rather than increases, and the public is in no mood for dilly-dallying on nonessentials," McDonnell said.

State Parks Prepared to Play Host to Large Number of Vacationists

The department of conservation announced this week that state parks are prepared to play host to the greatest number of vacationists in history.

Harold Lathrop, parks director, said overnight cabin facilities are available at four parks. Itasca, Scenic, and Whitewater state parks offer modern cabins for $2.50 per couple, 75 cents each additional person and 25 cents for each child under 12. All cabins are picturesquely located, well-screened and carefully maintained.

Free nature guide service will be available after June 15 at Itasca, Scenic, Gooseberry Falls, Jay Cooke and Interstate parks every day in the week, during the park season, and on week-ends at Lake Bemidji Park. The service is a WPA project in charge of Mildred Erickson, a qualified nature guide who attended national park service school at Yosemite National Park.

Bemidji Makes Plans for Paul Bunyan Canoe Derby Starting Friday, July 4

Three days of entertainment are being built up to surround the start of the Paul Bunyan Canoe Derby at Bemidji July 4th. A typical Independence Day program starts the show on the 4th. At 9 o'clock Saturday morning, July 5th the thirty or more canoes will start on their 450 mile paddle to Minneapolis. On Sunday, July 6th a speed boat regatta is scheduled with noted drivers from all parts of the northwest. In addition Gould's Million Dollar Circus appears twice daily at the fair grounds, fireworks will be displayed Friday and Sunday evenings, amateur water sports are to be presented, a fishing contest provides prizes for catches during the celebration and the armory is to house instructive displays from state and national units.

There is little possibility that the farmers will ever acquire the unsavory reputation that has attached in this emergency to capital and labor for stubborn, selfish hindrance to defense production.—Appleton Press.

DOG LIVES 49 DAYS WITHOUT FOOD, WATER

Rothsay—Locked up by accident in a potato house, a young Chesapeake Spaniel was imprisoned for seven weeks without even the suggestion of food or water in the Anton Sogn warehouse in Rothsay, but today is alive and, at least on the road to health. Although thin as a rail and covered with sores on his sides where he had been lying, the dog came up the stairs and emerged into the sunlight under his own power after his long period of starvation, when the door was finally opened.

125 School Patrolmen Attend State Camp; 2d Section Opens June 22

One hundred and twenty-five school safety patrolmen from all parts of the state opened the first section of Minnesota's sixth annual school safety patrol and conservation training camp at Lum Park, near Brainerd, Sunday, June 15.

Although the full quota for the first section of the camp was filled some time before opening date, state highway patrol and American Legion officials announced that opportunities for enrollment still remain open for the second section, which will begin June 22.

Candidates for the camp are selected by local educational officials from the 325 schools maintaining school patrols, outside the three large cities, and their attendance is sponsored by local Legion posts. The camp, known as Legionville, is self-governed by duly elected officials chosen from among the boys themselves. School patrolmen and instructors are housed in comfortable barracks, and fed in a large army-type mess hall.

This year's camp is being directed by W. N. Nellis, assistant superintendent of schools at Nashwauk. Traffic safety instruction is conducted by one of the state highway patrolmen, and conservation and nature study by a representative of the state department of conservation. Adult instructors also direct instruction in Americanism, athletics, and swimming. Instructive entertainment includes showing of motion pictures on traffic safety and conservation methods, and a talk on "G-man" activities by a representative of the northwest office of the Federal Bureau of Investigation.

CAN'T "HOLD" LIQUOR; TEETH OUT AT 4 P. M.

Austin—The phrase being able to "hold your liquor" took on new meaning for an Austin woman recently who got a local dentist out of bed at 4 A. M. to pull two teeth. The woman, obviously intoxicated, explained the situation thus: "A week ago my brother told me I could stop the toothache if I held whisky over the tooth, and I have been trying it ever since." A hiccup or two and a slightly unsteady equilibrium indicated that she had not been entirely successful in holding all the liquor over the offending teeth.

BIRDIES, PARS SAME HOLE

Sauk Center—To birdie and par the same hole at the same time in golf is an accomplishment of which Art Peterson of Sauk Center can be justly proud. By one of those odd quirks of fate, Art's second ball on the course hole six struck a swallow in mid-air, full flight, and, although it hardly deflected the ball, winged the swallow so that it fell to the ground. Peterson went on to par the hole after getting his "birdie."

SOW, MINUS LEGS, EARS, TAIL, HAS SEVEN PIGS

Detroit Lakes—A sow on the John H. Vogel farm near Calloway is almost completely healed today following her ordeal of giving birth to a litter of seven pigs a few days after she was severely frozen in the March 15 blizzard. During the blizzard the sow suffered such severely frozen legs, tail, and ears that all had to be amputated later. It was not expected that the sow would survive the ordeal, but she escaped infection and is now apparently sound of health, if not of limb.

WYANDOTTE

A colony of beavers have established their home in the county drainage ditch, between sections two and three, building a dam at the intersection with the ditch coming in from the east. During the recent heavy rains the obstruction forced the excess water on to adjoining fields, the Gust Wilson farm being flooded the worst. On Tuesday and Wednesday evening game warden Borchert and a deputy were out and gave the Wilson boys some pointers on how to open the dam without destroying the animals who undoubtedly have a nest of young there. Cooperating with the conservation department the boys will at a later date get a special permit to remove the offenders.

Mrs. Clara Erickson returned last Tuesday from a two weeks visit with friends in Duluth where she formerly lived.

Mrs. C. F. Carlson will entertain the Aid society of the Clearwater congregation at her home on Thursday, June 26. Serving will be in the afternoon and evening and the Carlson family extend their usual cordial invitation to all interested friends to come.

Upset Boat Features C. C. Picnic Outing

Heads District Bankers

E. O. PETERSON

President of the Union State bank, who was elected president of the Northwest Clearing House association, bankers' organization, at its annual summer meeting at Baudette Saturday evening.

Favored by ideal weather, and with the mosquitoes relenting in their blitzkrieg for the occasion, the outing staged by approximately forty members of the Civic and Commerce association last Thursday evening on the banks of Red Lake river four miles east of the city was an enjoyable occasion.

The party made the trip up the river in a flotilla of boats propelled by outboard motors. Weird music was provided for the occasion by a group of members of the Oriental band affiliated with the Grand Forks Shrine. Singing, swimming and other outdoor sports made up the evening's program.

The only untoward incident of the expedition was the tipping over in deep water en route to the picnic grounds of a boat containing M. G. Peterson, W. E. Dahlquist, Dr. A. R. Hulbert, J. T. Peterson and Carlton Clausen. The mishap occurred while their boat, with its motor disabled, was being towed by another operated by Walter Smith. A third boat operated by John Wiener came alongside to lend a hand, and when the group of five reached out for the Wiener craft, their boat upset, all being thrown into the water. The men clambered into the Wiener boat and continued on their way to the scene of the outing, shedding a portion of their wet clothing. No ill effects were reported as a result of the unexpected bath.

The parties to the transaction did not reveal the consideration. L. B. U. S. SIDES WITH RUSSIA IN WAR WITH GERMANY

Nazis Surprise the World by Declaring War on Former Ally

PRESIDENT ASSURES RUSSIA OF U. S. AID

Soviet Funds in This Country Ordered Released by Treasury

After having been engaged for several weeks in massing Nazi forces on the Russian border, Germany Sunday surprised the world by declaring war on Russia, apparently as the result of the refusal of that country to meet German demands for grain and oil to supply the Nazi war machine. The declaration of war violated the terms of a treaty signed by the two nations two years ago when Germany began its attempted conquest of Europe.

Carrying forward the policy of favoring Russia against Germany, President Roosevelt promised all possible American help for the Soviets Tuesday and released "frozen" Russian assets to permit the purchase of needed materials in the United States.

Just before this, the treasury announced the release of Russian assets which were "frozen," along with those of Germany, Italy, and other European nations on June 14. The purpose of the freezing order, issued when Germany and Russia were still "friends," was to make sure that none of the assets would be used for the benefit of the Axis.

It was estimated that Tuesday's decree would free from $50,000,000 to $100,000,000 of Russian funds and other assets for American purchases and the president indicated there would be no difficulty over export licenses for machine tools and other items which could be spared.

A government declaration issued on behalf of President Roosevelt by Sumner Welles, acting secretary of state, asserted that the principles and doctrines of "Communistic dictatorship" were "as intolerable and as alien" to the American people as were those of "Nazi dictatorship."

But it branded Adolf Hitler's armies as "the chief dangers of the Americas" and said that "any defense against Hitlerism" and "any rallying of forces opposing Hitlerism from whatever source" would hasten the downfall of German leaders and "rebound to the benefit of our own defense and security."

GOVERNMENT MEN CHECKING SURVEY IN THIS DISTRICT

Large Crew at Work on Project from Clearwater Co. to Canadian Line

Working up toward Thief River Falls from Clearwater and East Polk counties is a crew of 37 men affiliated with the Coast and Geodetic Survey of U. S. department of commerce. The men, divided into three groups, are making a survey to establish the exact latitude and longitude at given points, and have progressed as far north as the Plummer and Brooks vicinities.

The work will continue as far north as the Canadian boundary. When the project is completed, there will no no place in the United States that is more than 25 miles from a point whose exact geographic location is known.

One group builds towers, which are really one tower within another. The outer tower holds the men taking the readings and the inner one hold the instruments. This is done because of the extreme accuracy which has to be observed in making the survey. Any additional weight on the tower holding the instruments would throw the computations off.

Tht method used is known as triangulation and makes use of a trigonometric system by which the third side of a triangle can be measured if two sides and the included angle are known. Thus, they can measure the distance from a known point to another without actually using a tape measure to do so.

The men work in a tower 87 feet high. In some districts where the land is more hilly they have used towers as high as 136 feet.

Those towers are placed about ten miles apart and the men signal from one to another at night by the use of battery-generated lights. They use the Morse code to communicate with one another and for extreme accuracy they take 16 readings in every case.

After the surveyors have finished their readings, another crew comes along and tears down the towers while the third crew is setting up another set of towers at the next point.

21-YEAR-OLDS WILL REGISTER NEXT TUESDAY

Young Men Reaching Draft Age Since October 16 to be Listed

TO REGISTER MEN IN CITY AND GOODRIDGE

Procedure Is Simple, State Draft Board Director Explains

Every man in the state of Minnesota who has attained his 21st birthday since October 16, 1940, and before midnight July 1, 1941—with a few specific exemptions made by Congress—must register with his local selective service board Tuesday, July 1, Lt. Col. J. E. Nelson, state director, announced today.

Pennington county young men affected by the order may register either at county draft board headquarters in the Auditorium basement or at the Christianson store in Goodridge between the hours of 7 o'clock in the morning and 9 at night.

Registrars in Thief River Falls will include members of the draft board and their clerks, together with Jack Dempster and Russell Olson. In Goodridge Jay Payne and J. Christianson will be in charge.

In Marshall county registrations will be received during the same hours at the county office in Warren; at the A. O. Gedim office in Newfolden; at the Gatzke town hall with Nils P. Mugaas in charge; and at Bush's barber shop in Grygla with Harold A. Bush in charge.

When young men register for selective service Tuesday, they merely will be required to answer 10 simple questions, Lt. Col. J. E. Nelson, selective service director for Minnesota, said today.

Asserting that the registration will involve no complex procedure, Col. Nelson said that the questions on the registrants' card pertain only to his identity, his address, the person who will always know his address, and his employer. Registration should not take longer than five minutes for each individual although in some cases it probably will be extended to 10 or more minutes, Col. Nelson said.

While it is essential that registration be conducted as rapidly as possible, the director said that all registrars must allow time to each registrant so that every question on the registration card can be answered properly.

No questionnaires will be answered by registrants when they register July 1. Such documents are sent to registrants only after their order numbers have been determined by a lottery to be held in the near future.

Also the director pointed out that there will be no physical examinations at the time of registration. Physical examinations will be given only after local boards have considered the registrant's classification and determined that, subject to his physical test, he is eligible for military training.

Marie Skottem of St. Hilaire Weds Tuesday At Seattle, Washington

In the Immaculate Conception Church in Seattle, Wash., Miss Marie Elizabeth Skottem, daughter of Mr. and Mrs. Sever Skottem of St. Hilaire, became the bride of Dr. Paul O'Hollaren on Tuesday morning, June 17. The Rt. Rev. Monsignor Theodore Ryan read the service at 9 o'clock.

The altar of the church was beautifully decorated with white gladiolas and tall cathedral candles. The rest of the church was decorated with a profusion of delphiniums, Canterbury bells, and pink gladiolas.

The bride, given in marriage by I. J. Hentschell, was lovely in a regency model of pearly-white satin, the fullness of the bodice caught at the shoulders with seed pearl garnitures. The gown had a sweetheart neckline, leg o'mutton sleeves, and a slim princess skirt ending in a formal train. Her fingertip veil was double-tiered, cascading from a transparent halo edged with seed pearls. She wore a single strand of pearls, a gift of the groom. Her prayerbook was topped with a white orchid from which extended satin streamers tied with stephonatis.

Miss Alice Skotem, maid of honor and sister of the bride, wore petal pink with a fitted bodice of silk marquisette and a full skirt of starched lace. Her halo was of matching lace and she carried an arm bouquet of pale blue delphinium tied with pink satin streamers. Dr. Carl Hoard Jr. served as best man and Kenneth Whiting and Robert Hentschell ushered.

A wedding breakfast was served to thirty guests at the Hungerford Hotel. On the table were bowls of white sweet peas and pink rosebuds. The centerpiece was a three-tiered wedding cake decorated in pink and white with the traditional bride and groom in miniature.

The couple left on a wedding trip to Olympic National Park. For going away the bride wore a whisper-blue dress with a navy blue cape, white accessories, and an orchid corsage. They will be at home at 704 East Thomas Street, Seattle, Wash. after July 1.

PRUNE WHIP IS SO ACCOMMODATING!

Prune Whip is a dainty old-time dessert we'd do well to revive. I shall not dwell on the wealth of minerals and vitamins that prunes offer . . . or the fact that being among our surplus foods they are plentiful and inexpensive. You are well acquainted with these facts. But I do want to call your attention to the way this lightsome refreshing dessert can adapt itself to all sorts of occasions and tastes.

You have a casserole dish in the oven . . . a 350°F., moderate oven . . . and you are looking for a dessert to bake at the same time. Not too heavy a dessert . . . and something with fruit in it. A Baked Prune Whip will exactly fill the bill.

BAKED PRUNE WHIP

1 cup [illegible] pitted, well drained cooked prunes Confectioners' sugar to sweeten (about 3 tbsp.)	Dash of salt 1 tsp. lemon juice 3 egg whites

Mix prunes with sugar, salt and lemon juice, and chill thoroughly. Beat egg whites until stiff. Carefully fold them into the chilled prune mixture until thoroughly blended. Place in a buttered baking dish (6 inches in diameter and about 2½ inches deep). Set in a pan of hot water—having the water come up about 1 inch on the dish. Bake in a moderate oven, 350°F., for 25 to 30 minutes.

Serve warm with a topping of whipped cream. This makes from 4 to 6 servings.

Chilled and Unbaked If You Prefer It That Way

Or it may be that you want a cool refreshing dessert. Make this same Prune Whip with Egg Whites—but instead of baking it, pile it into sherbet glasses and chill well before serving. If you choose, you may serve plain cream or whipped cream with this chilled egg white Prune Whip.

PRUNE WHIP MADE WITH WHIPPED CREAM

Perhaps you are looking for a light dessert you can make in the morning and keep in the refrigerator until evening. In that case, Prune Whip made with whipped cream and gelatin is exactly the thing.

1 tbsp. gelatin ½ cup prune juice 1½ cups cut-up, pitted, well drained cooked prunes	Confectioners' sugar to sweeten (about 3 tbsp.) 1 tbsp. lemon juice 1 cup whipping cream (35% butterfat)

Soak gelatin in prune juice about 5 minutes. Then melt over hot water. Mix prunes with sugar and lemon juice—and stir in melted-gelatin-and-prune-juice mixture. Cool thoroughly.

Whip cream until stiff, and carefully fold it into the prune mixture. Pile into sherbet glasses, and chill well before serving.

Or—if desired—place the mixture in a lightly buttered mold (4½x 7x2½ inches deep). Chill well and unmold just before serving.

For A Hurry-up Dessert Too

Again perhaps, you are faced with having to get up a dinner in a hurry. Guests have come. You'd planned to go out for dinner—and something at the last minute has kept you at home. You have the things for a prune whip. But there isn't time for the gelatin to set.

The answer is simple. Omit the gelatin and the prune juice. Just whip your cream and fold it into the prunes which have been mixed with the sugar and lemon juice. Pile this mixture into sherbet cups and let it chill in the refrigerator while you are eating your main course.

STATE DEALERS IN EXPLOSIVES MUST NOW GET LICENSES

1941 Law Requires Permits to be Secured from Law Officers

A new Minnesota law, which became effective June 1, provides that explosives may not be sold, given, shipped, delivered or otherwise disposed of to anyone within the state unless he holds a license.

Police Chief A. R. Stenberg has application blanks and licenses, which may also be issued by the sheriff's office and others. A dealer must have license for each county or municipality in which he has a business handling explosives.

The law generally excepts small arms ammunition, but provides that explosives shall be stored in fireproof, bullet-proof and weather-proof locked warehouses in which nothing else is stored.

FRIENDS STAGE PLOWING BEE ON WIDOW'S FARM

Luverne— The characteristic neighborliness of residents of the middle west bore a new meaning last week to Mrs. Henry Wieking of Luverne whose husband was accidentally killed several weeks ago by a rifle discharge. Since his death, she and her children have continued to operate the farm, so last week seven farmers living in the vicinity gathered to plow a 31 acre field and prepare it for corn planting. Seven tractors pulled plows at one time, turning over 20 feet of stubble each time they crossed the field, while Vernon Wieking followed behind with the eighth tractor to drag the newly plowed ground.

The executive committee of the Minnesota Employers Association today announced the appointment of Charles Hoffman of Minneapolis as executive vice-president of the organization.

Mr. Hoffman has been active in the work of the Junior Association of Commerce in suggesting revisions of the Unemployment Compensation Act. During the last session of the legislature he was instrumental in preserving the "merit rating" provisions of the act by appearing before legislative committees as the spokesman of the Junior Association.

Mr. Hoffman announced that the main office of the organization would remain in St. Paul but would be moved to 1603 Pioneer Building.

EARTH "SWALLOWS" MOTHER AND INFANT CHILD

Fertile—To have the earth literally open and swallow one up was the unusual experience of Mrs. Albin Bartz and her six-months old baby daughter, Barbara Ann, of Fertile. Mrs. Bartz was walking about in her back yard with the baby in her arms when, without any warning, the ground suddenly gave way beneath them, dropping both into an old, 20 foot cess pool which had been covered with planking and sod in 1918. In the fall, Barbara Ann was knocked from her mother's arms and her mother was able to see only one leg emerging from the four feet of mud and water. She pulled the baby out while crying for help which brought Mr. Bartz to the scene with a ladder. Both were rescued in short order and showed no ill effects except for a bruise here and there.

HEN LIMITS PRODUCTION

Roseau—Believing it to be a fact that there is a sound reason for everything, Herman Thompson of Golden Valley township south of Wannaska decided to investigate the sudden death of one of his hens and proceeded to open the bird. Inside he found twelve full sized eggs, eight of them hard shelled and four having soft shells. After careful consideration, Thompson decided the hen was overly conscientious in her desire to limit egg production.

Conservation Division in Plea for Song Birds

With summer vacations under way, youngsters are apt to take out the old BBB gun or air rifle and do a little pot shooting at song birds.

Parents are urged by the Minnesota department of conservation to warn their children that shooting robins, bluebirds, cat birds, woodpeckers and other song and insectivorous birds is a federal offense bringing a maximum sentence of $500 in fines, 6 months in jail or both.

Birds may be given credit for being one of the greatest controlling factors in limiting the development of insect pests and in preventing many disastrous outbreaks, conservation officials say.

"Aside from the fact that song birds make a garden or farm more attractive," one official explained, "the birds are economically important."

It's a Fact

Strange things happen to food at high altitudes. In an airliner 10,000 feet up, a three-minute egg takes 12 minutes to boil, an ordinary cake collapses and soup in a regular vacuum bottle boils and blows the cork out.

Physicians Give Hints on Avoiding Infection While Swimming, Diving

Swimming is fine exercise but there are dangers connected with it beside the obvious danger of drowning, the Minnesota State Medical association's committee on public health education declared in a bulletin issued today.

The chief of these, according to the doctors, is the danger to nose, throat and ear structures when lake or pool water is forced violently through nose and ear passages.

"Many a chronic sinus infection dates from uninstructed, unwise, underwater swimming and diving," according to this bulletin, "as well as middle ear infections and impaired hearing.

"The damage is two-fold," the doctors say. "There is actual violence to the delicate tissues; also disease germs are likely to be carried in from infected water."

Underwater swimming and diving are safe only when they are undertaken carefully, with proper instruction as to breathing, according to this bulletin; and not even the well instructed should attempt it if they are already suffering from head colds or any other illness.

In conclusion, the doctors issue these two cautions: one, stay out of the water if you are ill or suffering from a cold; two, never dive or try any underwater swimming until you know how to hold your breath under water, and also how to protect yourself from getting what is known as a "nose full."

Babies Increasing

The "Baby Crop" in Britain is increasing, contrary to the prediction of scientists that the birth rate would be decreasing, partly due to the war. It began increasing shortly before the war and is continuing according to statistics disclosed. More than 14,000 babies are being born every week in Britain, with the average of 8,000 marriages a week jumping to 9,000 at the beginning of the war.

AN ACT OF DESPERATION

Figure it how you will, Hitler's invasion of Russia must be an act of desperation. It may have been prompted either by the need for more supplies or the fear of attack, possibly both.

Hitler undoubtedly faces a serious problem in providing food for the many nations he has conquered. Hungry people are easily lead into revolt. And the fact that he has concentrated his air attack on only one front at a time may indicate that he must have more direct access to the oil wells of southeastern Europe.

Russia's great armies, spread along his entire eastern border, must have worried him and he may have decided that before he could start an extensive campaign in Africa or attempt his conquest of England he would have to remove the threat of possible attack by Comrade Stalin.

One thing is certain and that is that the Nazi high command has concluded the war is not going to be a short one. A year ago, with the collapse of France, an early end to the struggle was predicted. Now, regardless of how long Russian resistance lasts, Hitler's hopes for victory are a long way into the future.

How long will Russia be able to resist? There is quite a difference of opinion among the observers. Some experts think the Germans will take what they want with little difficulty. Others give the Russians an outside chance of holding their own indefinitely. The German army has proven its strength while Russia's huge armed force is pretty much an unknown quantity, or should we say quality. Our guess is that in attempting to take Russia, Germany will encounter much the same difficulty that Japan is having in China. Germany is better equipped than the Japs but it is also true the Russians are better equipped than the Chinese, and the distances are even greater. In Finland the Russians were on an offensive the average Russian soldier probably had little heart for. This time the Russians are defending their own country. There is a difference.

Regardless of what differences there may have been in the past, Britain and her allies must now accept Russia as a friend and all possible assistance should be extended to her by the nations that are struggling to stop Hitler. If Hitler's Russian campaign is not a speedy success then the collapse of Germany and the end of Hitlerism is near at hand.

If you are in need of a little outing and haven't anything planned for Sunday, why not visit our neighboring city of Winnipeg? The distance is not great, about three hours of driving. Because their city is entertaining a reunion of international war veterans, the people of Winnipeg will make a special effort to entertain visitors at this time, and all American citizens are going to be very welcome. If you do decide to make the trip be sure to get a "We're from Thief River Falls" sticker to put on your car, and if possible join the group that will leave here early Sunday morning. Winnipeg is an interesting city at all times and especially so now that Canada is at war. And to Winnipeg is just a short distance.

With this issue of the Times out of the way we have completed half our work for the year 1941. Nothing strange about that though. Come to think about it, so has everybody else.

Our sympathy, wholehearted and sincere, goes to those who have had to carry on in the mosquito infested fields this past week. We're not sure what we would decide if we had to choose between making hay under such conditions or taking a place in the front line trenches. War does have its good points.

We need to brush up on our geography. Big surprise this week was the discovery that the Ukraine, the rich territory Germany is fighting for, is about as far north as we are. Maybe we are living way down south after all.

Are there still some people who think we should come to terms with Hitler in the belief that he would consider any agreement a moral obligation?

NOT A PLEASANT SIGHT

(Wadena Pioneer Journal)

I saw a man die and it was not a pleasant sight.

Death came to him on a Minnesota highway under a hot summer sun.

He was a motorist who forgot to signal a left turn on a well-traveled highway. Just as his car started to turn, another motorist behind him swung out to pass. The two cars collided.

There were five in one car, two in the other. The man who died at the side of the road suffered a broken neck. His deathbed was the gravel shoulder of the tarvia highway.

Nearby lay his brother-in-law, unconscious and with one ear torn off. His sister had suffered deep cuts on the head and face, but though her brother was dying, she was more concerned with the injuries to her 7-year-old daughter and a younger son.

A lot of other motorists soon stopped at the accident scene. There were many expressions of regret. And there were tears later when the youth's father knelt beside the body.

Multiply that same death scene with 37,000 others that took place on the nation's highways last year and you will then be able to better understand the tragedies traffic accidents bring to American homes annually.

Remember that tragedy and the 37,000 other ones when you drive today, tomorrow and every day and maybe YOU can help Minnesotans save 100 lives this year!

ARE BATTLESHIPS OBSOLETE?

(Long Prairie Leader)

Major Alexander P. de Seversky, aviation and naval authority, writing in the current issue of The American Mercury, prophesies the passing of the battleship. It is being doomed, he says, by the bomber plane and he fortifies his claim with an imposing array of facts. He says that the present war has shown the impotence of battleship fleets for offensive warfare and cites the circumstance that most of the big naval units are cooped up in harbors or hid away from the sharp eyes of bomber pilots. The battle fleets have their place, he says, and notwithstanding their narrowed range of operation have done some effective work, but he asserts that their effectiveness will grow less and less as bombing planes increase in numbers.

His article is a plea for support of sentiment to have our navy department spend less money on battleships and more on bombers. He says that we are now scheduled to spend several billion dollars on a two ocean navy that is to be completed in five years or "just in time to be scrapped" because outmoded. A modern battleship costs from 80 to 100 million dollars and takes from three to five years to build. The biggest and best bombing planes cost a half-million dollars and can be turned out in a few months.

It is his contention that the way to make the American defense invincible is to build up the air fleet and stop spending so much time and money on battleship fleets which even now are more or less helpless in air attack notwithstanding the development of the bombing planes is just getting under way.

THERE STILL ARE ISSUES

(Bemidji Sentinel)

Coldly, wisely, and quickly, the American people must approach the problem laid before them here. This is definite, practical. It is of no service to salve conscience by mentally and verbally backing aid to Britain, and then opposing in action and in detail every proposal to make that aid more effective. It is of no service to wish we could render aid without risk of war—it is crystal clear that the only course entailing no present risk is to cut off aid completely. Few would wish to go so far. On the other hand, as new means of extending aid are devised, and that aid becomes a greater and greater factor in the struggle, the risk of being involved increases. This weighing of more effective aid against greater present risk, this weighing of less effective aid against greater future risk, every man must do for himself.

Debate, as long as it sticks strictly to the subject, as long as it contributes to clearer understanding of the issue, is good. For instance, there seems excellent grounds for limiting the extended presidential powers to a definite time, subject then to renewal. That makes it clearer that Congress is delegating its own powers temporarily, but retaining them permanently.

But filibustering, senseless delays, personal abuse, the calling of purple names, serve no good end.

TIME TO STOP THE DEBATE?

(Hennepin County Review)

Some America First orators and editorial writers are still urging their hearers and readers to keep on writing their Congressmen, and their President, demanding that "we mind our own business," declaring that we must stay out of "the European mess," and asking once again the asinine question "why should we go to war every twenty years just to save England's neck?"

Up to now we have been willing to give the Lindberghs, Woods, Johnsons, Wheelers, Nyes, Tafts, Shipsteads and their America First companions full credit for sincerity. Certainly up to now they have had the right to speak freely. But if, after the President's final clarification of the issue last week, and the knowledge that a vast majority of the people are ready to follow him loyally and patriotically, they do not stop their talk soon it may become necessary to reclassify them, taking them out of the column of misguided isolationists and setting them down in the category of rank disloyalists.

It is now time, and high time, to leave off the debate, and the haranguing of Congressmen, and the President by mail. It is time to set about, with a vengeance, the time to set about, with some genuine Yankee spirit, the difficult task of licking the hell out of Hitler. Not just to save Great Britain, although the British deserve to be saved—but to save humanity and civilization—and the UNITED STATES OF AMERICA—from the law of the jungle.

SOME WILDNESS

"George seems rather wild."
"Yes—over me."

DECEITFUL

"My husband is a deceitful fellow; sometimes I almost lose patience with him."
"What's he done now?"
"Last night he pretended to believe me when I could see very well that he knew I was fibbing."

STRIKING POSE

"The great labor leader is having his portrait painted."
"How's the pose?"
"A striking one, of course."

Some head, wiser than ours, may already have figured out that when happiness kisses the world's affairs our humor grows serious; and when darkness is upon the face of the earth our humor is sunstruck. Maybe history will take today's humor into consideration when it tells posterity of our brief hour upon the stage. Maybe they'll recount the story of the man who went into a saloon, ordered a Manhattan, took out the cherry, laid it aside, drank the contents of the glass, broke the glass and carefully laid the stem aside while he ate the broken glass.

Hag (Himself)

He did this twice and then left.

"That guy," said the bartender, "is crazy."

"You darn right he is," said a man who had been standing at the bar. "The stems are the best part."

An autoist fell into a deer trap up north a while back. The town, appropriately enough, was Embarrass, Minn.

They say the boys in Washington are killing the goose that lays the golden eggs.

They're crazy. Did you ever examine a billion dollars? It's a one followed by 000,000,000. Is that or is it not a lot of goose eggs?

We merely ask for information.

• • •

And another thing. Shouldn't we define our terms?

Now you take a trillion (which we'll be up to before many more weeks have passed). It doesn't mean the same in all countries. In France and America it's a thousand billions. In England and Germany it's a million billions.

Supposing England asks us for a trillion? What will we give her? We ought to know before we say "yes" too quickly because it'll cause some inconvenience.

For one thing, it would take a clerk almost another day putting down all those additional 0's.

A lot of people have given a lot of thought to the problem of how to cure the world's ills. By the way—has any one thought of trying castor oil—?

SO. ST. PAUL LIVESTOCK

(By U. S. Department of Agricultural Economics and Minnesota Department of Agriculture)

South St. Paul, Minn., June 24, 1941: A sharply higher market on the week's opening trade sent hog prices to a new high since October 1937. The top on Monday reached $10.50 but, according to the Federal-State Market News Service, prices sagged 5 to 10c on Tuesday, leaving values mostly 15 to 25c above last week's close. Tuesday's top was $10.40, with the bulk good and choice 180 to 270 lb. averages clearing in a $10.20 to $10.40 spread, while most 270 to 300 lb. weights went at $10.00 to $10.30. Good sows of all weights bulked at $9.80; and feeder pigs were about 25c higher at $10.25 to $10.75.

Slaughter steers weighing above 1050 lbs. and grading medium to good were under pressure and sales generally showed a weaker trend. All grades of yearlings, however, and strictly good to choice steers held steady. Heifers were steady while cows declined fully 25c. Bulls lost 25c, instances showing the downturns on common to low medium kinds. Vealers were generally steady. Downturns of 25c and in instances 50c were effected on stock cattle, when the largest supply of the season appeared for Monday's trade. Bulk of the medium to good slaughter steers moved at $9.25 to $10.25 while the week's top of $11.25 was paid for choice 1248 lb. steers. Choice heifers made $10.75. Good and choice vealers bulked at $10.00 to $11.50, strictly choice $12.00.

Spring lambs and lightweight slaughter ewes advanced mainly 25c Monday, while other classes retained a steady schedule. The trade today, however, did not respond with the briskness that has recently been noted. Haying and other seasonal requirements of farmers have tended to hold down receipts locally. Offerings of dressed lambs in the East were moderate and most centers reported a steady to strong movement. Current peaks locally include native springers at $11.75; yearlings at $9.50 and slaughter ewes at $4.75. Demand for breeding ewes has widened, two year olds going as high as $6.50.

No Taxes Here

Morrisville, Vt., is one of the few towns in the United States which doesn't have any city taxes and has not had any for four years. Despite that, it boasts of an airport, hospital, sewer and water mains and paved streets. This is all made possible by the municipal electric plant which earns enough to carry all the expenses of the town. In addition the plant furnishes heating and lighting to the residents at a minimum of cost.

Kitty's Komments

The sun shone down so warmly that a nice nap in the shade of the big boxelder would seem just grand. So armed with a blanket, a pillow and the Sunday paper I *made myself comfortable.*

The leaves whispered softly in the gentle breeze and the smell of new mown hay filled the air. There is something about the fragrance of newly cut grass that belongs to the early summer days.

Thoroughly enjoying the beauty of the quiet Sunday afternoon I scanned the "funnies". My favorite, the down-to-earth family, the Bumsteads was as clever as always, with Dagwood coming in for his more than usual share of troubles.

Why aren't all comics just funny instead of being some disgusting ugly adventure, usually the mystery of a horrible murder? Dick Tracy, for example, isn't fit for any child to read.

Having finished the "funnies," I began to read the main part of the paper, an article all about the bombing of London.

I distinctly heard the drone of an airoplane motor—Horrors! a bomber! It was going into a power dive right over the house. The roar of the motors thundered on to a deafening crescendo. The bombs were released. They came hurtling down on me. I screamed! Thud! I awakened to pleasant reality!

RHYTHM WAS NEEDED

He dancing — The haunting rhythm of this music is taking possession of my brain.

She—Can't you get it to take possession of your feet?

MOWERS

We are getting several additional McCormick-Deering Universal Tractor Mowers. We have been sold out entirely but some additional coming in today and more in the next few days.

The McCormick-Deering Universal mower is the mower that can be used back of any tractor. It is very simple in construction. No mower made that is so easy to attach. Only a matter of two bolts and takes less time than hitching a team of horses.

We also have a few of the other types of McCormick-Deering tractor mowers and a few horse mowers. We are also ready to supply Minnesota Mowers.

HORSES

Right now we have six of the finest young work horses you could wish to own. We can sell you one or a team and guarantee honest values and bargain prices.

COMBINES

We have just received two carloads of the new type No. 42 McCormick-Deering small combines and fortunate indeed to get them under existing general shortage. These combines are low in price, not much more than a tractor binder, and the very machine that proved a wonderful success last year wherever tried out. Right now is the time to place your order, because it is positively certain there will not be enough to supply the demand.

We also have a new No. 61 McCormick-Deering Combine in stock and one used No. 8 McCormick-Deering Combine in stock and this used machine is in perfect condition ready to go to work to earn its price twice over and then some in one fall. We do urge you not to delay. Now is your chance.

TRACTORS

There is still a great shortage in tractors but we have a few and on early orders can supply most models. We also have a fine stock of used tractors on hand right now at Bargain prices.
